No. 8965 *Finl., dated 4th July* 1906.

The following order of Government is published for general information :—

READ THE FOLLOWING PAPERS:—

(1) Note by the Dewan, Mr. V. P. Madhava Rao, C.I.E., dated the 30th April 1906.

The subject of the position and prospects of Civilian Assistant Commissioners, and of others in parallel grades, has attracted His Highness the Maharaja's attention on more than one occasion during the past three years. Information collected during this period has indicated that there has been considerable fluctuation in the number of Assistant and Extra Assistant Commissioners from time to time, that the interchange of officers between the different Departments has not been made on any definite principle, that no clear rules of selection exist or have been regularly followed, and that no limits have been fixed to the number of appointments of Extra Assistant Commissioners.

It has further become apparent that the system of recruitment for the several services is not based on sufficiently rigid and definite principles, and that the position and prospects of the officers recruited by competition require reconsideration in the light of experience gained since 1891. Under these circumstances, His Highness has expressed the desire that the whole question, involving as it does the cadres of the several services, the number of appointments required, and their grading, so as to allow of a reasonable flow of promotion, and, finally, the system of recruitment, should be exhaustively considered, and that definite proposals should be submitted for his consideration.

2. The starting point for the whole question is the passing of Government Order Camp No. 407-22, dated the 1st November 1891, which constituted the Mysore Civil Service, and which is rightly regarded by the Civilian Officers of this service as their charter. It is unnecessary to describe in detail the circumstances which necessitated the constitution of such a service, as the facts are fully set forth in the papers printed with the said Government Order. Its opening sentence summarised the situation in these words :—

"Difficulties having been experienced in suitably filling the higher appointments of the Executive and Judicial services in Mysore, entirely by selection from the lower ranks as these are at present constituted, and it being necessary to secure and train properly qualified recruits, and improve the status of the higher grades of the service, His Highness the Maharaja has resolved to constitute a special higher service to be called the Mysore Civil Service, etc., etc."

The same difficulties are found to exist even now, owing mainly to the failure to give due effect to the Civil Service scheme.

3. Under the scheme of 1891, all admissions into the Mysore Civil Service were to be only in one of two ways, *viz.*,

1stly, by success at a competitive examination, to be held *once every one or two years* as might be required;

2ndly, by special selection by His Highness the Maharaja either from distinguished members of the lower ranks of the public service or on family or other considerations, the number of such not exceeding the number admitted by competition.

Assistant and Probationary Assistant Commissioners already in service were placed on a Schedule A, and those newly entertained on a Schedule B. Subsequently, in 1894, a separate

grade of Extra Assistant Commissioners on salaries on a lower scale was created in order to meet the case of officers who, though not qualified to be admitted or retained in either of the Schedules, had rendered in the subordinate grades long and meritorious service deserving of recognition.

4. The first examination under the scheme was held in July 1892, and the second in July 1894; and in each of these years two young men from the top of the list of successful candidates were appointed as Probationary Assistant Commissioners of Schedule B, and two others were taken on by special selection.

5. In 1896, there was much discussion in the Regency Council as to the necessity for a modification of the arrangements already laid down. Finally Her Highness the Maharani-Regent ruled that, out of six appointments to be made at the next examination, two should go to the first two candidates at the top of the list, two to qualified Mysore candidates, if any, according to order of marks, and the rest to individuals specially selected by Her Highness. The next (or third) examination was accordingly held in September 1897; and the last (after an interval of four years) in September 1901. Since then the necessity for holding the examination periodically, as contemplated by the scheme sanctioned by the late Maharaja, does not appear to have been realized, and the requirements of the service were met, from time to time, by additions to the list of Extra Assistant Commissioners, the principles of recruitment to which grade also underwent a corresponding change. In place of being an exceptional means of rewarding good work in the subordinate grades, the Extra Assistant Commissioners' grade has become a regular branch of the service, and latterly recruits have even begun to be appointed to this grade on probation, in forgetfulness of the original object with which it was constituted.

6. To illustrate the change that has taken place in the composition of the service, I may point out that the entire cadre of Assistants, which comprised at the end of the year 1893—

23 Assistant Commissioners of Schedule A,
2 Do of Schedule B by competition,
2 Do of Schedule B by nomination,
4 Extra Assistant Commissioners, besides
11 Police Superintendents and Assistant Superintendents, and
3 Survey Assistants,

was composed, at the beginning of the current year 1906, of—

5 Senior Assistant, and
7 Assistant Commissioners } of Schedule A,
9 Assistant Commissioners of Schedule B by competition,
6 Assistant Commissioners of Schedule B by nomination,
14 permanent,
12 acting and
4 Probationary } Extra Assistant Commissioners, of whom 8 are working in the Excise Department, 2 in the Survey Department and 2 in the Police Department,

in addition to—

1 Special Assistant and
1 Assistant and
2 Sub-Assistant } Superintendents of Survey,
8 Superintendents and Assistant Superintendents, and
3 Probationary Assistant Superintendents } of Police,
3 Secretariat officers outside the list of Assistant Commissioners, two being Assistant Secretaries and one a Registrar.

8. The haphazard methods of recruitment pursued of late years have not proved satisfactory, and it is high time that we decided finally to lay down, in terms unmistakeable and not liable to be ignored or overlooked in future, a well-considered scheme of recruitment for the Civil Service. I may say at once that no great departure from the distinctive features of the scheme as sanctioned in 1891 is, in my opinion, either necessary or advisable. A few modifications in details are alone required, together with provision for incorporating the Extra Assistant Commissioners' grade as an integral part of the scheme.

9. Thus, I would hold the Civil Service Examination regularly once every two years. The necessity for any "modification of the existing optional and obligatory examination subjects," such as that contemplated in Her Highness the Maharani-Regent's orders of 26th December 1896, may be considered later on, after the outlines of the present scheme shall have been duly settled.

Two persons from the top of the list of successful candidates will be selected at each examination, and admitted on probation to the grade of Assistant Commissioners proper, which will be closed to all others. During the year of probation, (which as now may be extended to two or three years in the case of those who do not get through earlier), the prescribed examinations in Civil, Criminal and Revenue Law, Kanarese and Equitation will have to be completed by every officer on probation. After confirmation as an Assistant Commissioner on Rs. 250, such officer may rise by biennial increments of Rs. 50 to Rs. 450. After at least two years on Rs. 450, he will be eligible for promotion, if possessed of sufficient merit and if vacancies exist, to the grade of Senior Assistant Commissioner rising by annual increments of Rs. 50 to a maximum of Rs. 600. The total number of appointments in this grade may, in consideration of the larger number of officers among whom it will have to be shared, be fixed at eight (as against 5 at present). This arrangement, under which promotion to the first class will not be possible before 9 years (as against 6 at present), or to the maximum of the Senior Assistant Commissioners' grade before 13 at the earliest, will attain the object of making the earning of increments somewhat slower for men recruited in future, thereby obviating the difficulty arising from too rapid promotion in early years followed by subsequent stagnation.

10. The grade of *Extra* Assistant Commissioners may be recruited once in two years, after the results of the Civil Service Examination are known, by the admission of two or more persons—according to vacancies,—who may be specially selected by His Highness the Maharaja either from officers of proved merit in the lower ranks of the public service (such as Mun-

siffs, Amildars, Police Inspectors, Excise Supervisors, etc.,) who are found qualified for holding higher appointments, or upon family or other considerations of fitness.

These recruits may, in the first instance, be admitted on probation to the grade of Extra Assistant Commissioners, and made eligible for confirmation at the end of a year (or, including one or two years of grace, as the case may be, three years in all) and after passing the prescribed tests. But officers already in the service may be confirmed as soon as they fully qualify themselves, irrespective of their putting in the full period of probation. Extra Assistant Commissioners will rise from Rs. 250 to Rs. 450 by triennial increments of Rs. 50 each as at present, and thence, subject to the same conditions as in the case of Civilians, by annual increments of Rs. 50 to a maximum of Rs. 600, this maximum being reached in the ordinary course in 18 years.

11. So much for the method of recruitment. For appointments of Divisional and Treasury Officers in the Revenue Department, Subordinate Judges, Police Superintendents, Excise Assistants, Survey Assistants, Assistant Comptrollers and others of the same nature, I would choose men qualified by aptitude and training from the grades recruited by competition and by nomination without distinction, attaching, if necessary, to particular appointments which require it, (such as those of Assistant Secretaries to Government), a special or local allowance. In order to make them qualified for higher Judicial appointments, I would give the Civilians judicial training as Munsiffs or Sub-Judges for a couple of years, in addition to the Survey and Accounts training insisted on at present. Our service is comparatively a small one, in which it is difficult and inexpedient to keep the different Departments of the State completely separate. The proposals made by me have the advantage of giving us a larger field of choice for good men, besides removing stagnation in the service and equalising the chances of promotion in all the Departments grouped together.

12. In para 10, I have explained that the grade of Extra Assistant Commissioners would be recruited chiefly from officers of approved service in the subordinate grades, among whom I specially mentioned Munsiffs. And in para 14 it is pointed out that the bulk of the appointments on the general list would necessarily go to the men so selected. There is, I may say, no greater likelihood of the claims of qualified men in the ranks of Munsiffs being overlooked under the new arrangement than there is under the existing one. Even now, a Subordinate Judge may be chosen either from Assistant Commissioners of Schedules A and B or from outside those schedules. The only difference between the existing and the proposed arrangement is that, under the former, the Sub-Judges' grade is a distinct one unconnected with the grade of Assistant or Extra Assistant Commissioners, and with a cadre and scale of pay of its own; whereas, under the latter, the appointment of Sub-Judge will be included in the Assistants' cadre. The field of choice will remain as unrestricted as at present, and a Munsiff, who is qualified to be a Sub-Judge, has merely to be drafted into the Extra Assistant Commissioners' grade and posted to do duty as a Sub-Judge, his pay from time to time being regulated by the rule of increments applicable to Extra Assistant Commissioners. His initial pay may be fixed at Rs. 50 more than what he was drawing as Munsiff; and will ordinarily not be less than Rs. 400, the pay of the first class of Munsiffs being Rs. 350.

13. It remains now to specify the probable requirements of each of the Departments concerned. I think the following may be taken as a fairly accurate estimate :—

Department.	*Number of officers.*
General and Revenue Secretariat ...	3 Assistant Secretaries for charge of Branches, besides a Deputy Secretary.
	1 Assistant Secretary for duty with the Dewan;
	1 Private Secretary to the Dewan.
Revenue Department ...	20 Assistant Commissioners for charge of 20 Divisions. (*Remarks.*—This number is capable of reduction; but I will not complicate the present question by making any proposals at this stage.)
	8 Treasury Assistant Commissioners.
	1 Huzur Treasury Officer.*
	2 Assistant Commissioner Magistrates for Mysore and Bangalore Cities.

*Now of the status of Deputy Commissioner.

Department.		*Number of officers.*
Revenue Department.—*concld.*		
		1 Assistant to the Revenue Commissioner, Revenue Branch.
		1 Assistant to the Statistical and Agricultural Branch.
Excise Department	...	8 Assistant Commissioners, one for each District. (*Remarks.*—This number may, I think, be considerably reduced, an Assistant Commissioner being only given for each of the larger Districts of Bangalore, Mysore, Shimoga and Kolar, the other four Districts being each given an Excise Supervisor of the status of Amildar.)
		1 Head-quarter Assistant.
Survey and Settlement Department	...	5 Assistant Superintendents, besides 1 Deputy Superintendent and two Sub-Assistant Superintendents (as at present). (*Remarks.*—After the present revision settlement operations are over, some reduction in the number of officers in this Department may be possible.)
Police Department	...	9 Superintendents, one for each District and one for French Rocks.
		1 Head-quarter Assistant.
Judicial Department	...	5 Subordinate Judges.
		1 Registrar of the Chief Court.
Account Department	...	4 Assistant Comptrollers (against one Chief Assistant and 3 Assistant Comptrollers at present).
Total	..	72 (as against 86 officers on the list at present which, however, includes officers on leave, other duty, etc.)

To provide for casualties, absences on leave and any unusual or special duties of a temporary character, and to meet the case of Probationers who may be undergoing training for work, five more places may be allowed, making 77 in all. Where an officer is deputed for special work which may keep him engaged indefinitely, or for a long time, he may be shown as seconded in the list of Assistant or Extra Assistant Commissioners, and his place filled up substantively *pro tem.*, so as to maintain the same aggregate number of appointments. I would mention the following as instances of appointments which need not be brought on the cadre of Assistant and Extra Assistant Commissioners, *viz.*, the Vice-President of a Municipality, the Forest Settlement Officer, the Officer in charge of Palace Establishments, the Special Magistrate of the Kolar Gold Fields, the Registrar of the General Secretariat, etc.; some of these appointments (*e. g.*, Forest Settlement Officer) are of a temporary nature, and others (*e. g.* Special Magistrate of the Gold Fields, Registrar of the Secretariat) may have to be filled up occasionally or altogether by men outside the regular list. The scale once duly sanctioned should not be arbitrarily altered. Any change which circumstances may suggest should receive the sanction of His Highness the Maharaja.

14. It will be seen that my proposals involve the admission of not less than four men into the service every two years, two by competition and two or more by special selection. I adopt that figure because, as will presently appear, it is the minimum number required for filling up the vacancies from various causes (such as death, retirement, promotion, long leave and special duty) that will have to be provided for in respect of the appointments enumerated in para 13. A detailed examination which I have caused to be made of the Civil Lists and of

the History of Services of Gazetted Officers from 1891 to 1905, (*vide* Statements A and B, not printed) supplies the following data on the point:—

Year	Number of vacancies by					Total number of vacancies
	Death	Retirement	Promotion	Long-leave	Special duty	
1891 ...	...	...	1	...	1	2
1892 ...	1	1	...	...	6	8
1893 ...	1	1	...	3	2	7
1894 ...	...	2	1	1	1	5
1895 ...	2	4	3	1	...	10
1896 ...	...	3	...	2	2	7
1897 ...	1	2	2	1	1	7
1898 ...	...	2	2	...	4	8
1899 ...	...	5	2	...	5	12
1900 ...	1	2	1	2	1	7

1903 ...	...	1	3	2	...	6
1904 ...	2	1	3	2	4	12
1905 ...	1	4	1	3	2	11
Total ...	11	38	22	22	31	124*

* Or about 8 per year.

The above figures indicate that the average number of vacancies from all causes to be provided for every two years is 16, or from death, retirement and promotion alone 9, during the same period. The minimum number of admissions provided for by me is therefore considerably within the probable limit of vacancies. It will also be clear that the bulk of the appointments will go to the men selected from the subordinate grades. This is an additional reason for not interfering with the integrity of the original scheme for the admission of a small number of a superior class of men as civilians by competition.

15. The exact financial effect of the scheme will be examined in consultation with the Comptroller before it takes final shape. Meanwhile, in order to give a general idea of the cost, a comparative statement (Statement C) is put up showing the maximum cost under the existing scale and that under the new scheme.

16. Turning to the higher appointments available to members of the Civil Service, I may point out that the list given in para XI of the Order of 1st November 1891 requires revision as follows:—

8 Deputy Commissioners.

1 General and Revenue Secretary.

1 Muzrai Secretary (until this appointment is abolished).

1 Deputy Secretary.

3 District Judges.

To the above appointments both grades of officers, Assistants and Extra Assistants, will be eligible, if duly qualified; but in consideration of their superior qualifications, I would reserve not less than one-half of the higher appointments to officers recruited by competition.

17. Coming, lastly, to the three Civilian Assistant Commissioners whose representations were lately before Government, I would recommend that their cases and those of others who have reached the first class in Schedules A and B, may be dealt with in strict conformity with the proposals I have made in para 9. That is to say, such of them as have put in not less than eleven years in all in the grade of Assistant-Commissioners, including two years in the first class, may, if found qualified for higher appointments, be promoted as Senior Assistant Commissioners, as vacancies arise in this grade, the number of appointments in which will, under my proposals, be fixed at eight. I reserve making specific recommendations in regard to individual officers, till the above scheme is finally sanctioned by His Highness the Maharaja.

READ ALSO—*The following Note by the Dewan, dated the 28th June 1906, explanatory of the Mysore Civil Service Scheme :—*

Some misconception appears to exist in regard to the scheme that has been under the consideration of His Highness the Maharaja's Government for improving the system of recruitment for the higher grades of the service in Mysore. And, as a result, various mistaken statements have found currency regarding the object and scope of the measure and its effect upon the ultimate composition of the service.

The object of the scheme is simply to group the appointments corresponding to the grade of Assistant Commissioner in various allied Departments together on a general list, to fix once for all the cadre for these Departments, and to regularize and improve the modes of recruitment to the general service. Its aim is not, as alleged, to restrict admission to the Assistant Commissioners' grade to men entering by competition; but, on the contrary, while retaining the principle of admission by competition in regard to a smaller proportion of total appointments than before, it opens the higher grades of the service to practically all Departments of the State except those of a technical nature, and increases the chances of those who rise from the lower grades by fully 100 per cent. It at the same time leaves unaffected the prerogative of His Highness the Maharaja to select men in special cases on the ground of family or other considerations of fitness. The bulk of the admissions to the new Schedule B will be from the lower ranks of the service, and the remainder will include men chosen from some or all of the following classes :—

(1) Men selected on family considerations possessing also educational qualifications sufficient, in the opinion of His Highness the Maharaja, for nomination to the Civil Service.

(2) Mysoreans who have distinguished themselves in the competitive examination.

(3) Mohammadans or members of any other community in the Mysore State which may be insufficiently represented in the public service, provided they are graduates of an Indian or other University.

It is apparent therefore that the Mysorean will be a distinct gainer by the new arrangement as the subordinate grades are manned almost entirely by Mysoreans by birth or domicile.

Thus, under the Civil Service Scheme as originally sanctioned in 1891, for every two appointments by open competition there were two by nomination either from the subordinate grades or on family or other considerations. This was modified in 1896, so as to increase the proportion of appointments by competition from two to four, of which half were to go to the two successful candidates at the top of the list and half to Mysore candidates lower down in the list. The present idea is to retain the distinctive character of recruitment by competition and, while limiting admissions by competition to two, to increase the admissions by selection to an average of seven. The total number of appointments of all Departments grouped together on the general list being about 81, the competition men will appropriate not more than 18 places against 63 places reserved for purely local men.

The necessity for the occasional admixture of a superior class of recruits in the Assistant Commissioners' grade will not need explanation for those who have a direct knowledge of the personnel in that and the higher grades. It is only necessary to say that the experience of the last fifteen years has more than justified the expectations formed of the good results likely to ensue from a limited system of recruitment by competition; and that, on the whole, the competition man, whether Mysorean or otherwise, has shown himself decidedly superior not only to the man nominated on family or other considerations, but also, with few exceptions, to the man recruited from the lower ranks of the service.

In framing the new scheme, it has been considered undesirable to lower the standard of efficiency for candidates admitted by competition by going lower down than the first two in order of successful candidates; but there is nothing to prevent Mysore students competing, and, if possessed of the necessary attainments, securing one of the two places; as indeed happened in 1901. The fact that Mysore Government scholars have in successive years carried off guaranteed appointments in the Public Works Department in Bombay shows that the best Mysore candidates need not fear competition with those coming from the British Indian Provinces.

The present scheme does not take away the chances of Mysoreans who, while failing to secure the first or second places, have distinguished themselves in the competitive examination. It is still open to the Government to keep this principle in view in making nominations, the number of which has been considerably increased.

The increase by 100 per cent in the number to be appointed by selection is not the only advantage the Mysorean has under the new scheme. The pay of the different classes in the

Assistant Commissioners' grade will be the same both for competition men and for those nominated, and the higher grades will be thrown open to Extra Assistant Commissioners who form a considerable body now, but have practically no chance of rising to be Deputy Commissioners, District Judges or Heads of Departments. As against these decided advantages, the only point on which the men nominated and those selected from the lower grades are not on the same footing as competition men is, that whereas the latter rise to the highest class in the grade of Assistant Commissioners in 10 years, the men nominated or rising from the lower grades will reach it in 14 years or 4 years later. Even here it is only men nominated direct that will have to rise more slowly than the competition men. For those who are already in the service, and at the time of their admission into the Civil Service happen to be drawing salaries of Rs. 250, Rs. 300, or Rs. 350, as Amildars or Munsiffs, will, far from being in an unfavourable position, have a distinct advantage over the men admitted by competition, in that they will reach the highest class of their grade in one, four or seven years, as the case may be, sooner than the latter.

Even more than this advantage in favor of the Mysorean candidate is the fact that, under the new scheme, as already noticed, the officers of the Assistant Commissioners' grade now known as Extra Assistant Commissioners, who are recruited almost entirely from the subordinate grades, and are practically all Mysoreans (born or domiciled), will have a recognized status given to them, and be placed in a position of perfect equality with the Assistant Commissioners who enter by competition, when they reach the highest class of Assistant Commissioners. After reaching this highest class, the position of the two sets of officers will be exactly the same as regards promotion to higher grades, which will be made entirely on the ground of merit. Thus they will be equally eligible for appointments of Deputy Commissioners and District Judges, and other appointments, which are now virtually closed to Extra Assistant Commissioners.

To make the advantages of the new system clearer, it may be noted that men who have done good work in the ranks of Police Superintendents, Survey Superintendents and Excise Assistants, are all eligible to be made Deputy Commissioners and to be appointed to offices above that grade, from which, as remarked above, they are practically excluded now.

It should also be noted that, being admitted as members of the Civil Service, they will be entitled to the same favourable terms as the competition men in regard to pension.

No. 8964—FINL., DATED THE 28TH JUNE 1906.

ORDER THEREON.—His Highness the Maharaja has had under his consideration the whole subject of the recruitment of officers for the higher grades of the public service in Mysore, including the position and prospects of officers so recruited, and the cadres of the various Departments of the State. His Highness observes that it is necessary to place the matter on a definite and satisfactory basis, and to indicate in unmistakeable terms the principles that should govern recruitments and promotions in future; the more so because full effect has not been given in recent years to the scheme for the constitution of the Mysore Civil Service embodied in Government Order Camp No. 407-22, dated the 1st November 1891. That scheme, moreover, requires modifications in points of detail to suit the conditions of the present time. His Highness the Maharaja has, therefore, been pleased to lay down the following revised rules to regulate admissions to, and grading and promotions in, the Civil Service of Mysore, in supersession of all existing orders on the subject:—

I. The following officers shall constitute the Mysore Civil Service:—

Assistant Commissioners of the new A and B Schedules, including all officers of that grade working in the Revenue, Excise, Police, Survey, Judicial and Account Departments and in the Government Secretariats; Deputy Commissioners; District Judges; Deputy Secretary *; and General and Revenue Secretary.

* This appointment will not be filled up as long as the separate appointment of Muzrai Secretary is maintained.

II. All future admissions to the Mysore Civil Service shall be only in one of two ways, *viz.*:—

Firstly, into the new A Schedule by success at a competitive examination of candidates approved by His Highness the Maharaja; and

Secondly, into the new B Schedule by special selection made by His Highness the Maharaja,—

(*a*) from members of the lower ranks of the Mysore public service, who have rendered meritorious service and have shown themselves fit in every way for holding higher appointments,

(*b*) or on family or other considerations of fitness.

III. A competitive examination for admission to the Civil Service shall be held once every two years commencing from 1906; provided that, in consideration of the fact that no such examinations were held during the last five years, two additional examinations shall be held, one in 1907 and the other in 1909. The subjects for examination, the dates on which and the manner in which it is to be held, and the proportion of marks required for passing, shall be duly notified at least three months before the examination. Both in point of severity of the tests applied, and range of subjects, the competitive examination shall be similar to that adopted for the Provincial Civil Service in British India.

IV. Candidates for the competitive examination must not be over twenty-five years of age on the date of examination, and must have graduated in Arts in an Indian or other University: provided that, if a candidate is not a native of or domiciled in Mysore, he must be a graduate of either the Madras or the Bombay University.

V. Candidates who fulfil these conditions, and who are desirous of competing, shall send in their names, with evidence of age and qualifications, and information as to their place of birth, caste, family, occupation and social status, and also with certificates of character and conduct, to the General and Revenue Secretary to Government, not later than a date to be fixed. From these candidates selection will be made by His Highness the Maharaja, and the names of those selected shall be notified in the official gazette. Within a month of such notification, the selected candidates shall present themselves before a Medical Board at a place and on a date to be notified by Government. It shall be an instruction to this Board to reject all candidates not possessed of a good physique and constitution, and not especially fitted for the active duties of an executive officer. The candidates passed by the Board shall then be eligible for the examination.

VI. Two candidates shall be selected from the top of the list of candidates who have passed a satisfactory examination, and admitted on probation to the grade of Assistant Commissioners in the new Schedule A, which shall be closed to all others: provided that Assistant Commissioners of the existing Schedules A and B, howsoever recruited, shall be included in and shown under the new Schedule A in the order of their seniority.

VII. Persons admitted into the Mysore Civil Service by competition as above will draw pay at Rs. 200 a month during the period of probation, which shall be for a term of two years. During that period they shall pass—

1stly, an examination in equitation;

2ndly, a departmental service examination according to rules in force for the time being;

3rdly, such of them as have not taken Kanarese as their optional language in the B.A. Degree examination, the prescribed standard in that language.

A Probationer failing to pass by the end of the two years of probation will be allowed a further year's grace. Failing to pass in the third year, his name will be removed from the list of Probationary Assistant Commissioners.

VIII. On becoming fully qualified as above, a Probationary Assistant Commissioner will be appointed an Assistant Commissioner of the 5th class on Rs. 250, in the new Schedule A, and afterwards rise according to the scale given below in that Schedule:—

To Assistant Commissioner, 4th class, on Rs. 300.	After two years' approved service in the 5th class.
To Assistant Commissioner, 3rd class, on Rs. 350.	After two years' approved service in the 4th class.
To Assistant Commissioner, 2nd class, on Rs. 400.	After two years' approved service in the 3rd class.
To Assistant Commissioner, 1st class, on Rs. 450.	After two years' approved service in the 2nd class.

IX. N. B.—Steps are being taken in the matter of appointing successors to the deceased members.

I. Read the details of accounts of receipts and expenditure for the months of October November and December 1905.

Recorded.

II. Read Government Order No. 9079-86—L. B. 315-05-2, dated 5th March 1906, requesting the Board's opinion as regards the proposal of the Vice-President of the Mysore District Board to exempt the carts of the agriculturists from the payment of tolls.

The Board are of opinion that it might be inconvenient to make that exemption. To distinguish the carts of agriculturists some permanent mark would have to be put upon them and if an agriculturist chooses to sell such a cart, the purchaser, though no agriculturist, could sail under the color of one. Frequent loans of such carts might help to defraud the tolls to the mutual advantage of the owner and barrower. A certificate of exemption in lieu of the mark on the cart would not improve matters as the certificates too can be loaned. The particular reasons that induced the recommendation of the Mysore District Board are not apparent from the Government Order under reply.

III. Read Government Order No. 9839-43—L. B. 81-05-6, dated 23rd March 1906, calling for the opinion of the President and that of the Board in the matter of introducing the rules proposed by the President of the District Board, Mysore, for exempting the agriculturists from payment of tolls and for regulating the traffic on the Mysore-Manantoddy road in the Heggaddevankote Taluk.

Resolution.—The Board are of opinion that the proposed rule regarding a composition fee may be adopted. With regard to the carts of persons whose primary occupation is agriculture, the opinion given in reference to the order of 5th March above, applies here also. Undersigned agrees with the Board and would add with reference to the carts of agriculturists that it is a vexed question at every jamabandi, involving assertions by the village officials and denials by the cart-owners as to whether the cart was primarily used for agriculture or for trade. Every case involves a reference to the land possessed by each objecting individual in order to judge from its extent whether the cart could be considered to be used more for agriculture or more for trading. In undersigned's opinion the exemption from the cart tax is sufficient concession. To furnish a list of agriculturists to the toll-gate keeper may not suffice for reasons given to the other Government Order. It is not possible for him to remember the faces of all the agriculturists and be able to identify them; and even if that becomes possible, there will be trouble when a relation or servant tries to take the cart through the gate.

IV. Read Secretary's docket No. 10230—L. B. 387-05-2, dated 2nd April 1906, requesting that the matter of the transfer of Hutridurga Sante to Nittur in Kunigal Taluk may be placed before the Taluk and District Boards and that copies of their resolution may be submitted; and Kunigal Amildar's report No. 622, dated 25th April 1906, submitting the resolution of the Taluk Board on the subject.

Resolution.—As the more important points have not been considered, the subject will be remitted to the Taluk Board for reconsideration. It is observed that the Amildar was not able to preside at the meeting.

V. Read Secretary's docket No. 10414—L. B. 432-05-1, dated 16th April 1906, forwarding for consideration of the Board, D. R. A. subject in the matter of providing accommodation for sick persons by constructing a ward at Maddagiri and the reply of Government thereto; and letter No. 304, dated 13th September 1905, from the District Medical Officer, Tumkur District, with reference to the same subject stating that there is an in-patient ward attached to the dispensary at Maddagiri and it is not much used by the public and that additional accommodation is useless and unnecessary.

Resolution.—The existing ward is not used as much as it should be and no additional accommodation is necessary.

VI. Read Secretary's docket No. 10415—L. B. 433-05-1, dated 16th April 1906, forwarding for necessary action the D. R. A. subject representing that a road from Maddagiri to Hindupur may be laid out, that a musafirkhana at Kodigenhalli may be constructed and that, if,

necessary, a toll may be levied on carts to meet the cost required for laying out the road and the reply of Government thereto.

Resolution.—The first two questions were considered at the meetings of the 7th August 1905 and 8th February 1906, and the Board's resolution was recorded by Government in Order Nos. 2256-6—L. B. 13-05-3 and 2341-3—L. B. 19-05-2, dated 31st August 1905 and 5th September 1905, respectively. As there is no intention now of converting the cart-track into a regular road it is premature to consider the question of establishing tolls.

VII. Read Secretary's docket No. 10416—L. B. 420-05-1, dated 12th April 1906, forwarding for necessary action D. R. A. subject in the matter of opening a road from Halkur to Honnavalli and the reply of Government thereto.

Resolution.—On receipt of the estimate which is being made by the Executive Engineer, Tumkur Division, the matter will be considered.

VIII. Read Secretary's docket No. 10417—L. B. 419-05-1, dated 12th April 1906, forwarding for information D. R. A. subject *in re* opening a Local Fund Dispensary at Kodigenahalli and the reply of Government thereto.

Resolution.—The Taluk Board will be asked to consider and give their opinion as to whether Kodigenahalli admits of a periodical visit by the Hospital Assistant and if there is a suitable building there where he can examine patients and prescribe.

IX. Read Secretary's docket No. 10520-7—L. B. 422-05-1, dated 11th April 1906, forwarding for information D. R. A. subject *in re* the increase of salaries of the officials of the District Board President's Office establishment, etc., and reply of Government thereto.

Resolution.—Recorded.

X. Read Secretary's docket No. 10346—L. B. 425-05-1, dated 6—14th April 1906, forwarding for needful action D. R. A. subject regarding the formation of a road from Amruthur to Huliyurdurga and the reply of Government thereto.

Resolution.—The Board invite attention to their resolution at the meeting of the 3rd November 1905, forwarded with docket No. 483, dated 13th November 1905.

XI. Read Secretary's docket No. 10350—L. B. 428-05-1, dated 6—14th April 1906, forwarding for information D. R. A. subject stating that parapet walls may be put up along the edges of the bund of the Nonavinkere tank and the reply of Government thereto.

Resolution.—The Executive Engineer is of opinion that the cost would be high. Whenever possible the bund is being widened.

XII. Read Government Order No. 10880—L. B. 378-05-1, dated 23rd April 1906, sanctioning a contribution of Rs. 15,000 from the Local Funds General for sinking drinking water wells in the district.

Resolution.—The Board tender their thanks to Government for their solicitude in providing drinking water over the district.

XIII. Read Government Order No. 32234-2—L. B. 4-04-16, dated 25th September 1905, sanctioning Rs. 8,100 to be allotted as permanent advances to the District Boards for distribution among the taluks as the District Board deems fit.

Resolved that the sum of Rs. 1,160 allotted to this district may be distributed at Rs. 50 to each Union and Rs. 75 to each Taluk Board and Rs. 10 to the President's office.

XIV. Read and approved of the list of works sanctioned as per accompanying statement.

XV. Read and approved of the list of furniture worth Rs. 355-4-0 to be supplied to the 3rd class travellers' bungalows in the district.

XVI. Read and approved of the enclosed list of estimates for works received from the Executive Engineer, Tumkur Division.

XVII. Read Kunigal Taluk Amildar's report No. 540, dated 16th March 1906, proposing that a Sante may be ordered to be held at Huliyurdurga.

Resolution.—A large Sante is being held at the village of Nidasale which is four miles from Huliyurdurga and no Sante need be held in Huliyurdurga.

XVIII. Read yadi No. 689, dated 7th April 1906, from the Assistant Commissioner in charge of the Gubbi group of taluks, forwarding Tiptur Taluk Amildar's report submitting the recommendation of the Taluk Board to appoint a Native Doctor at Honnavalli to afford medical aid to the people of Honnavalli hobli, etc.

Resolution.—Resolved that the proposal does not commend itself to the Board.

XIX. The undermentioned Government Orders were read and recorded :—

(1) Government Order No. 8368-85—L. B. 126-03, dated 12th February 1906, observing that provisions of para 14 of Section III of the Village Sanitation Rules of 1893, have not been fully given effect to in any district and in the villages into which the rules have been introduced, and asking all the Presidents of Municipal and District Boards to give effect to the provisions at a very early date, etc.

The following order of Governnent is published for general information :—

READ THE FOLLOWING PAPERS:—

(1) Note by the Dewan, Mr. V. P. Madhava Rao, C.I.E., dated the 30th April 1906.

The subject of the position and prospects of Civilian Assistant Commissioners, and of others in parallel grades, has attracted His Highness the Maharaja's attention on more than one occasion during the past three years. Information collected during this period has indicated that there has been considerable fluctuation in the number of Assistant and Extra Assistant Commissioners from time to time, that the interchange of officers between the different Departments has not been made on any definite principle, that no clear rules of selection exist or have been regularly followed, and that no limits have been fixed to the number of appointments of Extra Assistant Commissioners.

It has further become apparent that the system of recruitment for the several services is not based on sufficiently rigid and definite principles, and that the position and prospects of the officers recruited by competition require reconsideration in the light of experience gained since 1891. Under these circumstances, His Highness has expressed the desire that the whole question, involving as it does the cadres of the several services, the number of appointments required, and their grading, so as to allow of a reasonable flow of promotion, and, finally, the system of recruitment, should be exhaustively considered, and that definite proposals should be submitted for his consideration.

2. The starting point for the whole question is the passing of Government Order Camp No. 407-22, dated the 1st November 1891, which constituted the Mysore Civil Service, and which is rightly regarded by the Civilian Officers of this service as their charter. It is unnecessary to describe in detail the circumstances which necessitated the constitution of such a service, as the facts are fully set forth in the papers printed with the said Government Order. Its opening sentence summarised the situation in these words :—

"Difficulties having been experienced in suitably filling the higher appointments of the Executive and Judicial services in Mysore, entirely by selection from the lower ranks as these are at present constituted, and it being necessary to secure and train properly qualified recruits, and improve the status of the higher grades of the service, His Highness the Maharaja has resolved to constitute a special higher service to be called the Mysore Civil Service, etc., etc."

The same difficulties are found to exist even now, owing mainly to the failure to give due effect to the Civil Service scheme.

3. Under the scheme of 1891, all admissions into the Mysore Civil Service were to be only in one of two ways, *viz.*,

1stly, by success at a competitive examination, to be held *once every one or two years* as might be required;

2ndly, by special selection by His Highness the Maharaja either from distinguished members of the lower ranks of the public service or on family or other considerations, the number of such not exceeding the number admitted by competition.

Assistant and Probationary Assistant Commissioners already in service were placed on a Schedule A, and those newly entertained on a Schedule B. Subsequently, in 1894, a separate

grade of Extra Assistant Commissioners on salaries on a lower scale was created in order to meet the case of officers who, though not qualified to be admitted or retained in either of the Schedules, had rendered in the subordinate grades long and meritorious service deserving of recognition.

4. The first examination under the scheme was held in July 1892, and the second in July 1894; and in each of these years two young men from the top of the list of successful candidates were appointed as Probationary Assistant Commissioners of Schedule B, and two others were taken on by special selection.

5. In 1896, there was much discussion in the Regency Council as to the necessity for a modification of the arrangements already laid down. Finally Her Highness the Maharani-Regent ruled that, out of six appointments to be made at the next examination, two should go to the first two candidates at the top of the list, two to qualified Mysore candidates, if any, according to order of marks, and the rest to individuals specially selected by Her Highness. The next (or third) examination was accordingly held in September 1897; and the last (after an interval of four years) in September 1901. Since then the necessity for holding the examination periodically, as contemplated by the scheme sanctioned by the late Maharaja, does not appear to have been realized, and the requirements of the service were met, from time to time, by additions to the list of Extra Assistant Commissioners, the principles of recruitment to which grade also underwent a corresponding change. In place of being an exceptional means of rewarding good work in the subordinate grades, the Extra Assistant Commissioners' grade has become a regular branch of the service, and latterly recruits have even begun to be appointed to this grade on probation, in forgetfulness of the original object with which it was constituted.

6. To illustrate the change that has taken place in the composition of the service, I may point out that the entire cadre of Assistants, which comprised at the end of the year 1893—

23 Assistant Commissioners of Schedule A,
2 Do of Schedule B by competition,
2 Do of Schedule B by nomination,
4 Extra Assistant Commissioners, besides
11 Police Superintendents and Assistant Superintendents, and
3 Survey Assistants,

was composed, at the beginning of the current year 1906, of—

5 Senior Assistant, and
7 Assistant Commissioners } of Schedule A,
9 Assistant Commissioners of Schedule B by competition,
6 Assistant Commissioners of Schedule B by nomination,
14 permanent,
12 acting and
4 Probationary } Extra Assistant Commissioners, of whom 8 are working in the Excise Department, 2 in the Survey Department and 2 in the Police Department,

in addition to—

1 Special Assistant and
1 Assistant and
2 Sub-Assistant } Superintendents of Survey,
8 Superintendents and Assistant Superintendents, and
3 Probationary Assistant Superintendents } of Police,
3 Secretariat officers outside the list of Assistant Commissioners, two being Assistant Secretaries and one a Registrar.

8. The haphazard methods of recruitment pursued of late years have not proved satisfactory, and it is high time that we decided finally to lay down, in terms unmistakeable and not liable to be ignored or overlooked in future, a well-considered scheme of recruitment for the Civil Service. I may say at once that no great departure from the distinctive features of the scheme as sanctioned in 1891 is, in my opinion, either necessary or advisable. A few modifications in details are alone required, together with provision for incorporating the Extra Assistant Commissioners' grade as an integral part of the scheme.

9. Thus, I would hold the Civil Service Examination regularly once every two years. The necessity for any "modification of the existing optional and obligatory examination subjects," such as that contemplated in Her Highness the Maharani-Regent's orders of 26th December 1896, may be considered later on, after the outlines of the present scheme shall have been duly settled.

Two persons from the top of the list of successful candidates will be selected at each examination, and admitted on probation to the grade of Assistant Commissioners proper, which will be closed to all others. During the year of probation (which as now may be extended to two or three years in the case of those who do not get through earlier), the prescribed examinations in Civil, Criminal and Revenue Law, Kanarese and Equitation will have to be completed by every officer on probation. After confirmation as an Assistant Commissioner on Rs. 250, such officer may rise by biennial increments of Rs. 50 to Rs. 450. After at least two years on Rs. 450, he will be eligible for promotion, if possessed of sufficient merit and if vacancies exist, to the grade of Senior Assistant Commissioner rising by annual increments of Rs. 50 to a maximum of Rs. 600. The total number of appointments in this grade may, in consideration of the larger number of officers among whom it will have to be shared, be fixed at eight (as against 5 at present). This arrangement, under which promotion to the first class will not be possible before 9 years (as against 6 at present), or to the maximum of the Senior Assistant Commissioners' grade before 13 at the earliest, will attain the object of making the earning of increments somewhat slower for men recruited in future, thereby obviating the difficulty arising from too rapid promotion in early years followed by subsequent stagnation.

10. The grade of *Extra* Assistant Commissioners may be recruited once in two years, after the results of the Civil Service Examination are known, by the admission of two or more persons—according to vacancies,—who may be specially selected by His Highness the Maharaja either from officers of proved merit in the lower ranks of the public service (such as Mun-

siffs, Amildars, Police Inspectors, Excise Supervisors, etc.,) who are found qualified for holding higher appointments, or upon family or other considerations of fitness.

These recruits may, in the first instance, be admitted on probation to the grade of Extra Assistant Commissioners, and made eligible for confirmation at the end of a year (or, including one or two years of grace, as the case may be, three years in all) and after passing the prescribed tests. But officers already in the service may be confirmed as soon as they fully qualify themselves, irrespective of their putting in the full period of probation. Extra Assistant Commissioners will rise from Rs. 250 to Rs. 450 by triennial increments of Rs. 50 each as at present, and thence, subject to the same conditions as in the case of Civilians, by annual increments of Rs. 50 to a maximum of Rs. 600, this maximum being reached in the ordinary course in 18 years.

11. So much for the method of recruitment. For appointments of Divisional and Treasury Officers in the Revenue Department, Subordinate Judges, Police Superintendents, Excise Assistants, Survey Assistants, Assistant Comptrollers and others of the same nature, I would choose men qualified by aptitude and training from the grades recruited by competition and by nomination without distinction, attaching, if necessary, to particular appointments which require it (such as those of Assistant Secretaries to Government), a special or local allowance. In order to make them qualified for higher Judicial appointments, I would give the Civilians Judicial training as Munsiffs or Sub-Judges for a couple of years, in addition to the Survey and Accounts training insisted on at present. Our service is comparatively a small one, in which it is difficult and inexpedient to keep the different Departments of the State completely separate. The proposals made by me have the advantage of giving us a larger field of choice for good men, besides removing stagnation in the service and equalising the chances of promotion in all the Departments grouped together.

12. In para 10, I have explained that the grade of Extra Assistant Commissioners would be recruited chiefly from officers of approved service in the subordinate grades, among whom I specially mentioned Munsiffs. And in para 14 it is pointed out that the bulk of the appointments on the general list would necessarily go to the men so selected. There is, I may say, no greater likelihood of the claims of qualified men in the ranks of Munsiffs being overlooked under the new arrangement than there is under the existing one. Even now, a Subordinate Judge may be chosen either from Assistant Commissioners of Schedules A and B or from outside those schedules. The only difference between the existing and the proposed arrangement is that, under the former, the Sub-Judges' grade is a distinct one unconnected with the grade of Assistant or Extra Assistant Commissioners, and with a cadre and scale of pay of its own; whereas, under the latter, the appointment of Sub-Judge will be included in the Assistants' cadre The field of choice will remain as unrestricted as at present, and a Munsiff, who is qualified to be a Sub-Judge, has merely to be drafted into the Extra Assistant Commissioners' grade and posted to do duty as a Sub-Judge, his pay from time to time being regulated by the rule of increments applicable to Extra Assistant Commissioners. His initial pay may be fixed at Rs. 50 more than what he was drawing as Munsiff; and will ordinarily not be less than Rs. 400, the pay of the first class of Munsiffs being Rs. 350.

13. It remains now to specify the probable requirements of each of the Departments concerned. I think the following may be taken as a fairly accurate estimate :—

Department.	*Number of officers.*
General and Revenue Secretariat ...	3 Assistant Secretaries for charge of Branches, besides a Deputy Secretary.
	1 Assistant Secretary for duty with the Dewan.
	1 Private Secretary to the Dewan.
Revenue Department ...	20 Assistant Commissioners for charge of 20 Divisions. (*Remarks.*—This number is capable of reduction; but I will not complicate the present question by making any proposals at this stage.)
	8 Treasury Assistant Commissioners.
	1 Huzur Treasury Officer.*
	2 Assistant Commissioner Magistrates for Mysore and Bangalore Cities.

*Now of the status of Deputy Commissioner.

Department.		*Number of officers.*
Revenue Department.—*concld.*		1 Assistant to the Revenue Commissioner, Revenue Branch.
		1 Assistant to the Statistical and Agricultural Branch.
Excise Department	...	8 Assistant Commissioners, one for each District. (*Remarks.*—This number may, I think, be considerably reduced, an Assistant Commissioner being only given for each of the larger Districts of Bangalore, Mysore, Shimoga and Kolar, the other four Districts being each given an Excise Supervisor of the status of Amildar.)
		1 Head-quarter Assistant.
Survey and Settlement Department	...	5 Assistant Superintendents, besides 1 Deputy Superintendent and two Sub-Assistant Superintendents (as at present). (*Remarks.*—After the present revision settlement operations are over, some reduction in the number of officers in this Department may be possible.)
Police Department	...	9 Superintendents, one for each District and one for French Rocks.
		1 Head-quarter Assistant.
Judicial Department	...	5 Subordinate Judges.
		1 Registrar of the Chief Court.
Account Department	...	4 Assistant Comptrollers (against one Chief Assistant and 3 Assistant Comptrollers at present).
	Total ..	72 (as against 86 officers on the list at present which, however, includes officers on leave, other duty, etc.)

To provide for casualties, absences on leave and any unusual or special duties of a temporary character, and to meet the case of Probationers who may be undergoing training for work, five more places may be allowed, making 77 in all. Where an officer is deputed for special work which may keep him engaged indefinitely, or for a long time, he may be shown as seconded in the list of Assistant or Extra Assistant Commissioners, and his place filled up substantively *pro tem*, so as to maintain the same aggregate number of appointments. I would mention the following as instances of appointments which need not be brought on the cadre of Assistant and Extra Assistant Commissioners, *viz.*, the Vice-President of a Municipality, the Forest Settlement Officer, the Officer in charge of Palace Establishments, the Special Magistrate of the Kolar Gold Fields, the Registrar of the General Secretariat, etc.; some of these appointments (*e. g.*, Forest Settlement Officer) are of a temporary nature, and others (*e. g.* Special Magistrate of the Gold Fields, Registrar of the Secretariat) may have to be filled up occasionally or altogether by men outside the regular list. The scale once duly sanctioned should not be arbitrarily altered. Any change which circumstances may suggest should receive the sanction of His Highness the Maharaja.

14. It will be seen that my proposals involve the admission of not less than four men into the service every two years, two by competition and two or more by special selection. I adopt that figure because, as will presently appear, it is the minimum number required for filling up the vacancies from various causes (such as death, retirement, promotion, long leave and special duty) that will have to be provided for in respect of the appointments enumerated in para 13. A detailed examination which I have caused to be made of the Civil Lists and of

the History of Services of Gazetted Officers from 1891 to 1905, (*vide* Statements A and B, not printed) supplies the following data on the point:—

Year	Number of vacancies by					Total number of vacancies
	Death	Retirement	Promotion	Long leave	Special duty	
1891 ...	...	...	1	...	1	2
1892 ...	1	1	...	...	6	8
1893	1	1	...	3	2	7
1894 ...	...	2	1	1	1	5
1895 ...	2	4	3	1	..	10
1896 ...	...	3	...	2	2	7
1897 ...	1	2	2	1	1	7
1898 ...	...	2	2	...	4	8
1899 ...	...	5	2	...	5	12
1900 ...	1	2	1	2	1	7
1901 ...	...	4	1	3	1	9
1902 ...	2	6	2	2	1	13
1903 ...	...	1	3	2	...	6
1904 ...	2	1	3	2	4	12
1905 ...	1	4	1	3	2	11
Total ...	11	38	22	22	31	124*

* Or about 8 per year.

The above figures indicate that the average number of vacancies from all causes to be provided for every two years is 16, or from death, retirement and promotion alone 9, during the same period. The minimum number of admissions provided for by me is therefore considerably within the probable limit of vacancies. It will also be clear that the bulk of the appointments will go to the men selected from the subordinate grades. This is an additional reason for not interfering with the integrity of the original scheme for the admission of a small number of a superior class of men as civilians by competition.

15. The exact financial effect of the scheme will be examined in consultation with the Comptroller before it takes final shape. Meanwhile, in order to give a general idea of the cost, a comparative statement (Statement C) is put up showing the maximum cost under the existing scale and that under the new scheme.

16. Turning to the higher appointments available to members of the Civil Service, I may point out that the list given in para XI of the Order of 1st November 1891 requires revision as follows:—

8 Deputy Commissioners.
1 General and Revenue Secretary.
1 Muzrai Secretary (until this appointment is abolished).
1 Deputy Secretary.
3 District Judges.

To the above appointments both grades of officers, Assistants and Extra Assistants, will be eligible, if duly qualified; but in consideration of their superior qualifications, I would reserve not less than one-half of the higher appointments to officers recruited by competition.

17. Coming, lastly, to the three Civilian Assistant Commissioners whose representations were lately before Government, I would recommend that their cases and those of others who have reached the first class in Schedules A and B, may be dealt with in strict conformity with the proposals I have made in para 9. That is to say, such of them as have put in not less than eleven years in all in the grade of Assistant Commissioners, including two years in the first class, may, if found qualified for higher appointments, be promoted as Senior Assistant Commissioners, as vacancies arise in this grade, the number of appointments in which will, under my proposals, be fixed at eight. I reserve making specific recommendations in regard to individual officers, till the above scheme is finally sanctioned by His Highness the Maharaja.

READ ALSO—*The following Note by the Dewan, dated the 28th June 1906, explanatory of the Mysore Civil Service Scheme :—*

Some misconception appears to exist in regard to the scheme that has been under the consideration of His Highness the Maharaja's Government for improving the system of recruitment for the higher grades of the service in Mysore. And, as a result, various mistaken statements have found currency regarding the object and scope of the measure and its effect upon the ultimate composition of the service.

The object of the scheme is simply to group the appointments corresponding to the grade of Assistant Commissioner in various allied Departments together on a general list, to fix once for all the cadre for these Departments, and to regularize and improve the modes of recruitment to the general service. Its aim is not, as alleged, to restrict admission to the Assistant Commissioners' grade to men entering by competition; but, on the contrary, while retaining the principle of admission by competition in regard to a smaller proportion of total appointments than before, it opens the higher grades of the service to practically all Departments of the State except those of a technical nature, and increases the chances of those who rise from the lower grades by fully 100 per cent. It at the same time leaves unaffected the prerogative of His Highness the Maharaja to select men in special cases on the ground of family or other considerations of fitness. The bulk of the admissions to the new Schedule B will be from the lower ranks of the service, and the remainder will include men chosen from some or all of the following classes :—

(1) Men selected on family considerations possessing also educational qualifications sufficient, in the opinion of His Highness the Maharaja, for nomination to the Civil Service.

(2) Mysoreans who have distinguished themselves in the competitive examination.

(3) Mohammadans or members of any other community in the Mysore State which may be insufficiently represented in the public service, provided they are graduates of an Indian or other University.

It is apparent therefore that the Mysorean will be a distinct gainer by the new arrangement as the subordinate grades are manned almost entirely by Mysoreans by birth or domicile.

Thus, under the Civil Service Scheme as originally sanctioned in 1891, for every two appointments by open competition there were two by nomination either from the subordinate grades or on family or other considerations. This was modified in 1896, so as to increase the proportion of appointments by competition from two to four, of which half were to go to the two successful candidates at the top of the list and half to Mysore candidates lower down in the list. The present idea is to retain the distinctive character of recruitment by competition and, while limiting admissions by competition to two, to increase the admissions by selection to an average of seven. The total number of appointments of all Departments grouped together on the general list being about 81, the competition men will appropriate not more than 14 places against 63 places reserved for purely local men.

The necessity for the occasional admixture of a superior class of recruits in the Assistant Commissioners' grade will not need explanation for those who have a direct knowledge of the personnel in that and the higher grades. It is only necessary to say that the experience of the last fifteen years has more than justified the expectations formed of the good results likely to ensue from a limited system of recruitment by competition; and that, on the whole, the competition man, whether Mysorean or otherwise, has shown himself decidedly superior not only to the man nominated on family or other considerations, but also, with few exceptions, to the man recruited from the lower ranks of the service.

In framing the new scheme, it has been considered undesirable to lower the standard of efficiency for candidates admitted by competition by going lower down than the first two in order of successful candidates; but there is nothing to prevent Mysore students competing, and, if possessed of the necessary attainments, securing one of the two places; as indeed happened in 1901. The fact that Mysore Government scholars have in successive years carried off guaranteed appointments in the Public Works Department in Bombay shows that the best Mysore candidates need not fear competition with those coming from the British Indian Provinces.

The present scheme does not take away the chances of Mysoreans who, while failing to secure the first or second places, have distinguished themselves in the competitive examination. It is still open to the Government to keep this principle in view in making nominations, the number of which has been considerably increased.

The increase by 100 per cent in the number to be appointed by selection is not the only advantage the Mysorean has under the new scheme. The pay of the different classes in the

Assistant Commissioners' grade will be the same both for competition men and for those nominated, and the higher grades will be thrown open to Extra Assistant Commissioners who form a considerable body now, but have practically no chance of rising to be Deputy Commissioners, District Judges or Heads of Departments. As against these decided advantages, the only point on which the men nominated and those selected from the lower grades are not on the same footing as competition men is, that whereas the latter rise to the highest class in the grade of Assistant Commissioners in 10 years, the men nominated or rising from the lower grades will reach it in 14 years or 4 years later. Even here it is only men nominated direct that will have to rise more slowly than the competition men. For those who are already in the service, and at the time of their admission into the Civil Service happen to be drawing salaries of Rs. 250, Rs. 300, or Rs. 350, as Amildars or Munsiffs, will, far from being in an unfavourable position, have a distinct advantage over the men admitted by competition, in that they will reach the highest class of their grade in one, four or seven years, as the case may be, sooner than the latter.

Even more than this advantage in favor of the Mysorean candidate is the fact that, under the new scheme, as already noticed, the officers of the Assistant Commissioners' grade now known as Extra Assistant Commissioners, who are recruited almost entirely from the subordinate grades, and are practically all Mysoreans (born or domiciled), will have a recognized status given to them, and be placed in a position of perfect equality with the Assistant Commissioners who enter by competition, when they reach the highest class of Assistant Commissioners. After reaching this highest class, the position of the two sets of officers will be exactly the same as regards promotion to higher grades, which will be made entirely on the ground of merit. Thus they will be equally eligible for appointments of Deputy Commissioners and District Judges, and other appointments, which are now virtually closed to Extra Assistant Commissioners.

To make the advantages of the new system clearer, it may be noted that men who have done good work in the ranks of Police Superintendents, Survey Superintendents and Excise Assistants, are all eligible to be made Deputy Commissioners and to be appointed to offices above that grade, from which, as remarked above, they are practically excluded now.

It should also be noted that, being admitted as members of the Civil Service, they will be entitled to the same favourable terms as the competition men in regard to pension.

No. 8964—FINL., DATED THE 28TH JUNE 1906.

ORDER THEREON.—His Highness the Maharaja has had under his consideration the whole subject of the recruitment of officers for the higher grades of the public service in Mysore, including the position and prospects of officers so recruited, and the cadres of the various Departments of the State. His Highness observes that it is necessary to place the matter on a definite and satisfactory basis, and to indicate in unmistakeable terms the principles that should govern recruitments and promotions in future; the more so because full effect has not been given in recent years to the scheme for the constitution of the Mysore Civil Service embodied in Government Order Camp No. 407-22, dated the 1st November 1891. That scheme, moreover, requires modifications in points of detail to suit the conditions of the present time. His Highness the Maharaja has, therefore, been pleased to lay down the following revised rules to regulate admissions to, and grading and promotions in, the Civil Service of Mysore, in supersession of all existing orders on the subject:—

I. The following officers shall constitute the Mysore Civil Service:—

Assistant Commissioners of the new A and B Schedules, including all officers of that grade working in the Revenue, Excise, Police, Survey, Judicial and Account Departments and in the Government Secretariats; Deputy Commissioners; District Judges; Deputy Secretary *; and General and Revenue Secretary.

* This appointment will not be filled up as long as the separate appointment of Muzrai Secretary is maintained.

II. All future admissions to the Mysore Civil Service shall be only in one of two ways, *viz.*:—

Firstly, into the new A Schedule by success at a competitive examination of candidates approved by His Highness the Maharaja; and

Secondly, into the new B Schedule by special selection made by His Highness the Maharaja,—

(*a*) from members of the lower ranks of the Mysore public service, who have rendered meritorious service and have shown themselves fit in every way for holding higher appointments,

(*b*) or on family or other considerations of fitness.

III. A competitive examination for admission to the Civil Service shall be held once every two years commencing from 1906; provided that, in consideration of the fact that no such examinations were held during the last five years, two additional examinations shall be held, one in 1907 and the other in 1909. The subjects for examination, the dates on which and the manner in which it is to be held, and the proportion of marks required for passing, shall be duly notified at least three months before the examination. Both in point of severity of the tests applied, and range of subjects, the competitive examination shall be similar to that adopted for the Provincial Civil Service in British India.

IV. Candidates for the competitive examination must not be over twenty-five years of age on the date of examination, and must have graduated in Arts in an Indian or other University: provided that, if a candidate is not a native of or domiciled in Mysore, he must be a graduate of either the Madras or the Bombay University.

V. Candidates who fulfil these conditions, and who are desirous of competing, shall send in their names, with evidence of age and qualifications, and information as to their place of birth, caste, family, occupation and social status, and also with certificates of character and conduct, to the General and Revenue Secretary to Government, not later than a date to be fixed. From these candidates selection will be made by His Highness the Maharaja, and the names of those selected shall be notified in the official Gazette. Within a month of such notification, the selected candidates shall present themselves before a Medical Board at a place and on a date to be notified by Government. It shall be an instruction to this Board to reject all candidates not possessed of a good physique and constitution, and not especially fitted for the active duties of an executive officer. The candidates passed by the Board shall then be eligible for the examination.

VI. Two candidates shall be selected from the top of the list of candidates who have passed a satisfactory examination, and admitted on probation to the grade of Assistant Commissioners in the new Schedule A, which shall be closed to all others: provided that Assistant Commissioners of the existing Schedules A and B, howsoever recruited, shall be included in and shown under the new Schedule A in the order of their seniority.

VII. Persons admitted into the Mysore Civil Service by competition as above will draw pay at Rs. 200 a month during the period of probation, which shall be for a term of two years. During that period they shall pass—

1stly, an examination in equitation;

2ndly, a departmental service examination according to rules in force for the time being;

3rdly, such of them as have not taken Kanarese as their optional language in the B.A. Degree examination, the prescribed standard in that language.

A Probationer failing to pass by the end of the two years of probation will be allowed a further year's grace. Failing to pass in the third year, his name will be removed from the list of Probationary Assistant Commissioners.

VIII. On becoming fully qualified as above, a Probationary Assistant Commissioner will be appointed an Assistant Commissioner of the 5th class on Rs. 250, in the new Schedule A, and afterwards rise according to the scale given below in that Schedule:—

To Assistant Commissioner, 4th class, on Rs. 300.	After two years' approved service in the 5th class.
To Assistant Commissioner, 3rd class, on Rs. 350.	After two years' approved service in the 4th class.
To Assistant Commissioner, 2nd class, on Rs. 400.	After two years' approved service in the 3rd class.
To Assistant Commissioner, 1st class, on Rs. 450.	After two years' approved service in the 2nd class.

IX. (1) The grade of Assistant Commissioners of the new Schedule B shall be recruited, soon after the results of each Civil Service Examination are known, by the special selection of the requisite number of persons, according to vacancies, (which on the average will not exceed seven at present) in the manner described in the second clause of Rule II; provided that ordinarily no person shall be selected on family or other considerations, unless he has passed the B.A. Degree of an Indian or other University.

(2) Nothing in clause (1) of this Rule is intended to prevent temporary promotions to the grade of Assistant Commissioner of the new Schedule B from subordinate grades, in order to fill existing vacancies; but an officer so promoted shall not, merely by reason of such promotion, be entitled to confirmation when permanent appointments are made under clause (1).

(3) The question of including in the new Schedule B, such of the members of the present grade of Extra Assistant Commissioners as are duly qualified therefor, is reserved for separate orders.

X. The provisions of Rule VII in regard to the period of probation and the examinations to be passed shall be applicable also to those admitted to the Civil Service under Rule IX; provided that a recruit taken from the subordinate grades will be confirmed as soon as he fully qualifies himself by passing the prescribed examinations, irrespective of his putting in the full period of probation of two years, and that his initial pay in the grade of Assistant Commissioner, (new) Schedule B, shall be at least Rs. 50 more than the pay he was last permanently drawing in the subordinate grades.

XI. On becoming qualified for confirmation as above, a Probationary Assistant Commissioner of the new Schedule B will be appointed an Assistant Commissioner of the 5th class on Rs. 250 in that Schedule, and afterwards rise according to the scale given below:

To Assistant Commissioner, 4th class, on Rs. 300.	After three years' approved service in the 5th class.
To Assistant Commissioner, 3rd class, on Rs. 350.	After three years' approved service in the 4th class.
To Assistant Commissioner, 2nd class, on Rs. 400.	After three years' approved service in the 3rd class.
To Assistant Commissioner, 1st class, on Rs. 450.	After three years' approved service in the 2nd class.

XII. An Assistant Commissioner of either Schedule who has put in at least two years in the first class of his grade, shall, if found fit, and if vacancies exist, be eligible for promotion to the grade of Senior Assistant Commissioner, carrying a pay of Rs. 500 rising by annual increments of Rs. 50 to Rs. 600. There shall be eight places in all in the last mentioned grade.

XIII. Every officer recruited by competition or by special selection under the rules shall, unless he has already received such training, be trained for not less than six months in the Survey Department and not less than six months in the Accounts Department; and every officer recruited by competition shall also be trained in the Judicial Department as a Munsiff or a Sub-Judge for not less than one year in the aggregate.

Appointments of Under and Assistant Secretaries in the General and Revenue Secretariat, Divisional and Treasury Officers in the Revenue Department, Subordinate Judges, Police Superintendents, Excise Divisional Officers, Assistant Superintendents of Survey, Assistant Comptrollers and other appointments of equal rank in the said Departments, shall be filled by officers qualified by aptitude and training from the grade of Assistant Commissioners without distinction of Schedules. Such officers will draw the pay proper to the class in which they happen to be, from time to time, *plus* any special or local allowance attached to the appointment which they fill.

XIV. (1) Subject to any alterations which may, from time to time, be sanctioned by His Highness the Maharaja, the scale of appointments of Assistant Commissioners in the following Departments shall be as specified against each :—

Resolution.—Resolved that the Board are of opinion that there are several portions of the District Fund roads in the Manjarabad Taluk in great need of thorough repairs; and that it would be far more desirable to devote this unexpended mileage allotment for the improvement of such roads than to add it to the very large funds already expended on the Bisle ghat road over which there is very little traffic. The Board take this opportunity of bringing to the notice of the Executive Engineer the bad state of the Banawasi-Yeslurpet road, particularly the portion passing through Yeslurpet itself and suggest that this unexpended mileage allotment of the Hanbal-Devarunda road be transferred for the improvement of this road and the Bage-Belur road which is an important road of communication between Manjarabad and Belur Taluks and requires frequent repairs.

No money orders will be received by the undersigned except from outside the Province.

No. 3.—Much inconvenience is caused in this office by subscribers not giving their full and correct addresses, and writing illegibly on the money order coupons, which are unfit for record.

No. 4.—Communications on post-cards or on paper less than half a sheet of foolscap will not receive attention.

No. 5.—An efficient system of check and counter-check is maintained over the despatching of Gazette copies forwarded through Post. No responsibility will be accepted when copies miscarry, or are not delivered to addressees, and such losses will not be replaced by duplicate copies.

No. 6.—Complaints regarding non-receipt of the Gazette should be forwarded to the undersigned within a week after the date on which it is due.

No. 7.—Copy is sometimes sent to the Press late on Wednesday evenings for publication in the next day's Gazette. This involves considerable inconvenience to the Press and expense to Government. It is therefore notified that all matter intended for publication in Parts II, III and IV should reach this office not later than Tuesday evening; and that for Part I not later than the forenoon of Wednesday, for the following Thursday's issue of the Gazette.

No. 8.—It is requested that Departments will refrain from sending to the Press any matter for publication as extremely urgent later than 12 noon on Tuesdays, when such matter can without inconvenience be held over for the next week's Gazette.

No. 9.—Spare copies of notifications, etc., are often asked for long after their publication when the matter has been broken up, necessitating its resetting, causing inconvenience to the Press and waste of money. It is therefore requested that when spare copies are wanted, a note to that effect, stating the number of copies, be made at foot of such notification, etc.

No. 10.—If no instructions, either at foot of notifications, or separately by docket, accompany any matter, it will be printed in the language in which it is written, and published only once.

GOVERNMENT OF INDIA.

DEPARTMENT OF COMMERCE AND INDUSTRY.

COMMERCIAL EXHIBITIONS.

RESOLUTION.

Simla, the 23rd May 1906.

The following papers relative to the Exhibition, which will be held at Christ Church in New Zealand in November 1906, are published for general information. The Government of India have decided not to participate in the Exhibition.

Notice.

The Government of New Zealand has decided to hold, during the summer of 1906-07, an

International Exhibition

at Christ Church, Canterbury, New Zealand, in which all the nations of the world have been invited to participate. The object of the Exhibition is educational, and it is intended to demonstrate the resources and possibilities of the Colony as one of the world's food-producing factors; its vast mineral resources; and to draw attention to its unrivalled and varied scenery, thermal wonders, and also the exceptional opportunities offered to sportsmen;

And, further and specially

To bring under the notice of the more industrial nations of the world the great field the Colony of New Zealand offers as an outlet for enterprise and for the use and consumption of all manner of up-to-date appliances, manufactures, etc.

New Zealand's imports.

Such an Exhibition should command the support and attention of all the manufacturing nations of the world, and, if taken advantage of, must accomplish tangible and satisfactory results. The Colony of New Zealand, being essentially a producing country, offers a splendid outlet for the manufactures of other countries which pay more attention to the development of manufacturing industries and whose industrial conditions and facilities are better adapted to the promotion and development of manufacturing.

The imports of the Colony for the past year (at least three-fourths of which are manufactured goods) amounted to £13,292,000, received from the following countries :—

	£
Great Britain	7,982,000
Commonwealth of Australia	1,893,000
United States of America	1,528,000
Fiji Islands	157,000
Germany	309,000
India	290,000
Ceylon	173,000
Belgium	120,000
Canada and British Columbia	113,000
Japan	85,000
France	55,000
Singapore	37,000
Pacific Islands	30,000
Holland	29,000
China, including Hongkong	21,000
Italy	19,000
Asia Minor	17,000
Sweden	16,000
Greece	14,000
Phillipine Islands	10,000
Java	5,000
Other Countries	29,000
Total	13,292,000

When it is considered that this immense expenditure on imports is required for the use and consumption of a colony with a population of 850,000 persons, it can be readily understood what a rare opportunity there is for exploiting this Colony with up-to-date manufactures.

The prosperous condition of New Zealand and the equal distribution of wealth, places every one in a position to indulge in a fair degree of comfort, and anything in the way of an improvement in the existing conditions is welcomed and substantially supported. The sparsity of the population provides an exceptional market for all labour-saving machinery in every department of agricultural, pastoral, and domestic life.

These features of the possibilities of Exhibition are confidently placed befor the more industrial nations of the world. Therefore manufacturers are urged to appoint representatives and to send such exhibits as will show the nature and finish of their work, and which are suitable for a colony which is progressing with almost unparalleled rapidity, and which has the keenest desire to adopt the most modern ideas and conveniences of advanced civilisation.

New Zealand as a food-producing country.

The resources and possibilities of the Colony of New Zealand as a food-producing country promise so much that it is without any apology that the Government desire to bring it under the notice of those interested in transporting, importing, and otherwise handling the food stuffs of the world.

It is only necessary to instance the rapid growth of the development of the NEW ZEALAND FROZEN-MEAT INDUSTRY and the splendid service of mommoth refrigerator steamers dependent thereon ; the DAIRYING INDUSTRY, which has now reached proportions beyond the most optimistic expectations, and which is still only in its infancy. The fortnightly shipments of Butter and Cheese to London duringthe past season ranged from 1,500 to 2,000 tons, carried in one bottom

New Zaeland's raw materials.

As a market in which to procure supplies of raw materials, of quality unequalled in the world, our *annual export of wool, hemp, skins and hides, kauri-gum and coal* have only to be mentioned to induce purchasers of these staples to attend and investigate the sources of production :

	£		£
Wood	4,673,826	Hemp	710,281
Kauri-gum ...	501,817	Coal	139,898
Skins	444,821	Hides	53,431

New Zealand's mineral wealth.

The mineral wealth of this naturally endowed Colony is demonstrated by the continuous and increasing output of GOLD, which during the past fifty years has totalled in value

The immense sum of £65,000,000.

In this industry alone there is an opening for investment which is not offered by any other part of the world under such secur conditions.

The surfaces of the gold-bearing parts of the Colony have only been "scratched over," and there are immense possibilities and discoveries awaiting enterprise combined with scientific and up-to-date methods of prospecting with a view to tracing the supplies of GOLD to there original sources.

LARGE DEPOSITS OF IRON-SAND AND IRON-ORE are available within the Colony, and these await the enterprise and attention necessary to development; and, in convenient proximity, are THE COAL-MINES OF NEW ZEALAND, producing coal of quality equal to the best in the world, and for which an over-sea trade has yet to be initiated and developed.

New Zealand as a tourist resort.

As a resort for tourists and sportsmen, the Colony of New Zealand offers an interesting opportunity at a cost which compares favourably with similar opportunity in any other part of the world.

Deer-stalking,	Trout-fishing,	Alpine-climbing,
Geysers,	Hot and Cold Lakes,	Superb Mountain
Scenery,	Sounds, Shooting,	Road and River Scenery,

unsurpassed in the world, are available to every one who can find time to visit the Colony; and not necessarily only to wealthy people, because every attraction is available to people of ordinary means, on account of the moderate charges for travelling and accommodation, and for participation in the available sport.

Duty and freight.

Special arrangements will be made with the steamship companies trading to New Zealand whereby exhibitors will obtain *special rates of freight on exhibits,* and complete arrangements will be made for the *reception and installation of exhibits* on such lines as will protect exhibitors from any excessive charges.

The Exhibition buildings will be constituted a *bonded warehouse* for the time being. All goods sold will be *plus duty,* whilst all over-sea exhibits that may be returned can be reshipped *free of duty.*

The Exhibition grounds and buildings.

The grounds and buildings will be lighted by ELECTRICITY AND GAS, and as electricity and lighting in almost every form will be a prominent feature of the exhibition, every facility will be extended to exhibitors to display the latest developments and designs.

Each nation participating will be allotted a special court, irrespective of the class of exhibits shown, except in the case of artificial manures in bulk, and machinery in work requiring to be supplied with motive power.

These classes will be allotted separate buildings.

Arts and crafts.

Particular attention will be devoted to arts and crafts in actual operation, and every reasonable facility will be given to exhibitors who desire to MANUFACTURE GOODS IN THE EXHIBITION.

Awards.

Awards in the form of diploma of gold and silver medals, according to merit, in each section, to exhibitors who desire to compete. These awards should prove of great value to successful firms, as care will be taken to select competent and unbiassed judges.

Railway and steamer concessions.

Special rates for coastal, over-sea, and railway passenger fares will be arranged, so as to encourage the presence of visitors, and popular excursions will be promoted continuously to all the principal places of interest in the Colony. Every facility will be provided, not only to attend the Exhibition, but at the same time to visit the scenic, thermal, and other attractions in various parts of the Colony.

Contests and games.

International Band Contests,	Athletic Sports.
Bowling Tournaments,	Aquatic Sports,
Race Meetings and Regattas,	Cricket Matches.
Volunteer Encampments and Military Sports,	Polo Matches,
Fire Brigade Demonstrations and Sports,	Football Matches,
Agricultural and Pastoral and Stock Shows,	Golf Tournaments,

will be arranged in suitable continuation during the progress of the Exhibition.

Educational competitions will also be instituted with a view to promote and illustrate progress in *music and art.*

The following order of Governnent is published for general information :—

READ THE FOLLOWING PAPERS:—

(1) Note by the Dewan, Mr. V. P. Madhava Rao, C.I.E., dated the 30th April 1906.

The subject of the position and prospects of Civilian Assistant Commissioners, and of others in parallel grades, has attracted His Highness the Maharaja's attention on more than one occasion during the past three years. Information collected during this period has indicated that there has been considerable fluctuation in the number of Assistant and Extra Assistant Commissioners from time to time, that the interchange of officers between the different Departments has not been made on any definite principle, that no clear rules of selection exist or have been regularly followed, and that no limits have been fixed to the number of appointments of Extra Assistant Commissioners.

It has further become apparent that the system of recruitment for the several services is not based on sufficiently rigid and definite principles, and that the position and prospects of the officers recruited by competition require reconsideration in the light of experience gained since 1891. Under these circumstances, His Highness has expressed the desire that the whole question, involving as it does the cadres of the several services, the number of appointments required, and their grading, so as to allow of a reasonable flow of promotion, and, finally, the system of recruitment, should be exhaustively considered, and that definite proposals should be submitted for his consideration.

2. The starting point for the whole question is the passing of Government Order Camp No. 407-22, dated the 1st November 1891, which constituted the Mysore Civil Service, and which is rightly regarded by the Civilian Officers of this service as their charter. It is unnecessary to describe in detail the circumstances which necessitated the constitution of such a service, as the facts are fully set forth in the papers printed with the said Government Order. Its opening sentence summarised the situation in these words :—

"Difficulties having been experienced in suitably filling the higher appointments of the Executive and Judicial services in Mysore, entirely by selection from the lower ranks as these are at present constituted, and it being necessary to secure and train properly qualified recruits, and improve the status of the higher grades of the service, His Highness the Maharaja has resolved to constitute a special higher service to be called the Mysore Civil Service, etc., etc."

The same difficulties are found to exist even now, owing mainly to the failure to give due effect to the Civil Service scheme.

3. Under the scheme of 1891, all admissions into the Mysore Civil Service were to be only in one of two ways, *viz.*,

1stly, by success at a competitive examination, to be held *once every one or two years* as might be required ;

2ndly, by special selection by His Highness the Maharaja either from distinguished members of the lower ranks of the public service or on family or other considerations, the number of such not exceeding the number admitted by competition.

Assistant and Probationary Assistant Commissioners already in service were placed on a Schedule A, and those newly entertained on a Schedule B. Subsequently, in 1894, a separate

grade of Extra Assistant Commissioners on salaries on a lower scale was created in order to meet the case of officers who, though not qualified to be admitted or retained in either of the Schedules, had rendered in the subordinate grades long and meritorious service deserving of recognition.

4. The first examination under the scheme was held in July 1892, and the second in July 1894; and in each of these years two young men from the top of the list of successful candidates were appointed as Probationary Assistant Commissioners of Schedule B, and two others were taken on by special selection.

5. In 1896, there was much discussion in the Regency Council as to the necessity for a modification of the arrangements already laid down. Finally Her Highness the Maharani-Regent ruled that, out of six appointments to be made at the next examination, two should go to the first two candidates at the top of the list, two to qualified Mysore candidates, if any, according to order of marks, and the rest to individuals specially selected by Her Highness. The next (or third) examination was accordingly held in September 1897; and the last (after an interval of four years) in September 1901. Since then the necessity for holding the examination periodically, as contemplated by the scheme sanctioned by the late Maharaja, does not appear to have been realized, and the requirements of the service were met, from time to time, by additions to the list of Extra Assistant Commissioners, the principles of recruitment to which grade also underwent a corresponding change. In place of being an exceptional means of rewarding good work in the subordinate grades, the Extra Assistant Commissioners' grade has become a regular branch of the service, and latterly recruits have even begun to be appointed to this grade on probation, in forgetfulness of the original object with which it was constituted.

6. To illustrate the change that has taken place in the composition of the service, I may point out that the entire cadre of Assistants, which comprised at the end of the year 1893—

23 Assistant Commissioners of Schedule A,
2 Do of Schedule B by competition,
2 Do of Schedule B by nomination,
4 Extra Assistant Commissioners, besides
11 Police Superintendents and Assistant Superintendents, and
3 Survey Assistants,

was composed, at the beginning of the current year 1906, of—

5 Senior Assistant, and
7 Assistant Commissioners } of Schedule A,
9 Assistant Commissioners of Schedule B by competition,
6 Assistant Commissioners of Schedule B by nomination,
14 permanent,
12 acting and } Extra Assistant Commissioners, of whom 8 are working in the Excise Department, 2 in the Survey Department and 2 in the Police Department,
4 Probationary

in addition to—

1 Special Assistant and
1 Assistant and } Superintendents of Survey,
2 Sub-Assistant
8 Superintendents and Assistant Superintendents, and } of Police,
3 Probationary Assistant Superintendents
3 Secretariat officers outside the list of Assistant Commissioners, two being Assistant Secretaries and one a Registrar.

7. The names and distribution of the officers in the cadre of Assistant Commissioners on the 1st January 1906, are given below :—

8. The haphazard methods of recruitment pursued of late years have not proved satisfactory, and it is high time that we decided finally to lay down, in terms unmistakeable and not liable to be ignored or overlooked in future, a well-considered scheme of recruitment for the Civil Service. I may say at once that no great departure from the distinctive features of the scheme as sanctioned in 1891 is, in my opinion, either necessary or advisable. A few modifications in details are alone required, together with provision for incorporating the Extra Assistant Commissioners' grade as an integral part of the scheme.

9. Thus, I would hold the Civil Service Examination regularly once every two years. The necessity for any "modification of the existing optional and obligatory examination subjects," such as that contemplated in Her Highness the Maharani-Regent's orders of 26th December 1896, may be considered later on, after the outlines of the present scheme shall have been duly settled.

Two persons from the top of the list of successful candidates will be selected at each examination, and admitted on probation to the grade of Assistant Commissioners proper, which will be closed to all others. During the year of probation (which as now may be extended to two or three years in the case of those who do not get through earlier), the prescribed examinations in Civil, Criminal and Revenue Law, Kanarese and Equitation will have to be completed by every officer on probation. After confirmation as an Assistant Commissioner on Rs. 250, such officer may rise by biennial increments of Rs. 50 to Rs. 450. After at least two years on Rs. 450, he will be eligible for promotion, if possessed of sufficient merit and if vacancies exist, to the grade of Senior Assistant Commissioner rising by annual increments of Rs. 50 to a maximum of Rs. 600. The total number of appointments in this grade may, in consideration of the larger number of officers among whom it will have to be shared, be fixed at eight (as against 5 at present). This arrangement, under which promotion to the first class will not be possible before 9 years (as against 6 at present), or to the maximum of the Senior Assistant Commissioners' grade before 13 at the earliest, will attain the object of making the earning of increments somewhat slower for men recruited in future, thereby obviating the difficulty arising from too rapid promotion in early years followed by subsequent stagnation.

10. The grade of *Extra* Assistant Commissioners may be recruited once in two years, after the results of the Civil Service Examination are known, by the admission of two or more persons—according to vacancies,—who may be specially selected by His Highness the Maharaja either from officers of proved merit in the lower ranks of the public service (such as Mun-

siffs, Amildars, Police Inspectors, Excise Supervisors, etc.,) who are found qualified for holding higher appointments, or upon family or other considerations of fitness.

These recruits may, in the first instance, be admitted on probation to the grade of Extra Assistant Commissioners, and made eligible for confirmation at the end of a year (or, including one or two years of grace, as the case may be, three years in all) and after passing the prescribed tests. But officers already in the service may be confirmed as soon as they fully qualify themselves, irrespective of their putting in the full period of probation. Extra Assistant Commissioners will rise from Rs. 250 to Rs. 450 by triennial increments of Rs. 50 each as at present, and thence, subject to the same conditions as in the case of Civilians, by annual increments of Rs. 50 to a maximum of Rs. 600, this maximum being reached in the ordinary course in 18 years.

11. So much for the method of recruitment. For appointments of Divisional and Treasury Officers in the Revenue Department, Subordinate Judges, Police Superintendents, Excise Assistants, Survey Assistants, Assistant Comptrollers and others of the same nature, I would choose men qualified by aptitude and training from the grades recruited by competition and by nomination without distinction, attaching, if necessary, to particular appointments which require it (such as those of Assistant Secretaries to Government), a special or local allowance. In order to make them qualified for higher Judicial appointments, I would give the Civilians Judicial training as Munsiffs or Sub-Judges for a couple of years, in addition to the Survey and Accounts training insisted on at present. Our service is comparatively a small one, in which it is difficult and inexpedient to keep the different Departments of the State completely separate. The proposals made by me have the advantage of giving us a larger field of choice for good men, besides removing stagnation in the service and equalising the chances of promotion in all the Departments grouped together.

12. In para 10, I have explained that the grade of Extra Assistant Commissioners would be recruited chiefly from officers of approved service in the subordinate grades, among whom I specially mentioned Munsiffs. And in para 14 it is pointed out that the bulk of the appointments on the general list would necessarily go to the men so selected. There is, I may say, no greater likelihood of the claims of qualified men in the ranks of Munsiffs being overlooked under the new arrangement than there is under the existing one. Even now, a Subordinate Judge may be chosen either from Assistant Commissioners of Schedules A and B or from outside those schedules. The only difference between the existing and the proposed arrangement is that, under the former, the Sub-Judges' grade is a distinct one unconnected with the grade of Assistant or Extra Assistant Commissioners, and with a cadre and scale of pay of its own; whereas, under the latter, the appointment of Sub-Judge will be included in the Assistants' cadre The field of choice will remain as unrestricted as at present, and a Munsiff, who is qualified to be a Sub-Judge, has merely to be drafted into the Extra Assistant Commissioners' grade and posted to do duty as a Sub-Judge, his pay from time to time being regulated by the rule of increments applicable to Extra Assistant Commissioners. His initial pay may be fixed at Rs. 50 more than what he was drawing as Munsiff; and will ordinarily not be less than Rs. 400, the pay of the first class of Munsiffs being Rs. 350.

13. It remains now to specify the probable requirements of each of the Departments concerned. I think the following may be taken as a fairly accurate estimate :—

Department.	*Number of officers.*
General and Revenue Secretariat ...	3 Assistant Secretaries for charge of Branches, besides a Deputy Secretary.
	1 Assistant Secretary for duty with the Dewan.
	1 Private Secretary to the Dewan.
Revenue Department ...	20 Assistant Commissioners for charge of 20 Divisions. (*Remarks.*—This number is capable of reduction; but I will not complicate the present question by making any proposals at this stage.)
	8 Treasury Assistant Commissioners.
	1 Huzur Treasury Officer.*
	2 Assistant Commissioner Magistrates for Mysore and Bangalore Cities.

*Now of the status of Deputy Commissioner.

Department.		*Number of officers.*
Revenue Department.—*concld.*		1 Assistant to the Revenue Commissioner, Revenue Branch.
		1 Assistant to the Statistical and Agricultural Branch.
Excise Department	...	8 Assistant Commissioners, one for each District. (*Remarks.*—This number may, I think, be considerably reduced, an Assistant Commissioner being only given for each of the larger Districts of Bangalore, Mysore, Shimoga and Kolar, the other four Districts being each given an Excise Supervisor of the status of Amildar.)
		1 Head-quarter Assistant.
Survey and Settlement Department	...	5 Assistant Superintendents, besides 1 Deputy Superintendent and two Sub-Assistant Superintendents (as at present). (*Remarks.*—After the present revision settlement operations are over, some reduction in the number of officers in this Department may be possible.)
Police Department	...	9 Superintendents, one for each District and one for French Rocks.
		1 Head-quarter Assistant.
Judicial Department	...	5 Subordinate Judges.
		1 Registrar of the Chief Court.
Account Department	...	4 Assistant Comptrollers (against one Chief Assistant and 3 Assistant Comptrollers at present).
Total	..	72 (as against 86 officers on the list at present which, however, includes officers on leave, other duty, etc.)

To provide for casualties, absences on leave and any unusual or special duties of a temporary character, and to meet the case of Probationers who may be undergoing training for work, five more places may be allowed, making 77 in all. Where an officer is deputed for special work which may keep him engaged indefinitely, or for a long time, he may be shown as seconded in the list of Assistant or Extra Assistant Commissioners, and his place filled up substantively *pro tem,* so as to maintain the same aggregate number of appointments. I would mention the following as instances of appointments which need not be brought on the cadre of Assistant and Extra Assistant Commissioners, *viz.*, the Vice-President of a Municipality, the Forest Settlement Officer, the Officer in charge of Palace Establishments, the Special Magistrate of the Kolar Gold Fields, the Registrar of the General Secretariat, etc.; some of these appointments (*e. g.*, Forest Settlement Officer) are of a temporary nature, and others (*e. g.* Special Magistrate of the Gold Fields, Registrar of the Secretariat) may have to be filled up occasionally or altogether by men outside the regular list. The scale once duly sanctioned should not be arbitrarily altered. Any change which circumstances may suggest should receive the sanction of His Highness the Maharaja.

14. It will be seen that my proposals involve the admission of not less than four men into the service every two years, two by competition and two or more by special selection. I adopt that figure because, as will presently appear, it is the minimum number required for filling up the vacancies from various causes (such as death, retirement, promotion, long leave and special duty) that will have to be provided for in respect of the appointments enumerated in para 13. A detailed examination which I have caused to be made of the Civil Lists and of

the History of Services of Gazetted Officers from 1891 to 1905, (*vide* Statements A and B, not printed) supplies the following data on the point:—

Year	Number of vacancies by					Total number of vacancies
	Death	Retirement	Promotion	Long leave	Special duty	
1891 ...	...	...	1	...	1	2
1892 ...	1	1	...	...	6	8
1893 ...	1	1	...	3	2	7
1894 ...	...	2	1	1	1	5
1895 ...	2	4	3	1	...	10
1896 ...	..	3	...	2	2	7

1903 ...	...	1	3	2	...	6
1904 ...	2	1	3	2	4	12
1905 ...	1	4	1	3	2	11
Total ...	11	38	22	22	31	124*

* Or about 8 per year.

The above figures indicate that the average number of vacancies from all causes to be provided for every two years is 16, or from death, retirement and promotion alone 9, during the same period. The minimum number of admissions provided for by me is therefore considerably within the probable limit of vacancies. It will also be clear that the bulk of the appointments will go to the men selected from the subordinate grades. This is an additional reason for not interfering with the integrity of the original scheme for the admission of a small number of a superior class of men as civilians by competition.

15. The exact financial effect of the scheme will be examined in consultation with the Comptroller before it takes final shape. Meanwhile, in order to give a general idea of the cost, a comparative statement (Statement C) is put up showing the maximum cost under the existing scale and that under the new scheme.

16. Turning to the higher appointments available to members of the Civil Service, I may point out that the list given in para XI of the Order of 1st November 1891 requires revision as follows:—

8 Deputy Commissioners.
1 General and Revenue Secretary.
1 Muzrai Secretary (until this appointment is abolished).
1 Deputy Secretary.
3 District Judges.

To the above appointments both grades of officers, Assistants and Extra Assistants, will be eligible, if duly qualified; but in consideration of their superior qualifications, I would reserve not less than one-half of the higher appointments to officers recruited by competition.

17. Coming, lastly, to the three Civilian Assistant Commissioners whose representations were lately before Government, I would recommend that their cases and those of others who have reached the first class in Schedules A and B, may be dealt with in strict conformity with the proposals I have made in para 9. That is to say, such of them as have put in not less than eleven years in all in the grade of Assistant Commissioners, including two years in the first class, may, if found qualified for higher appointments, be promoted as Senior Assistant Commissioners, as vacancies arise in this grade, the number of appointments in which will, under my proposals, be fixed at eight. I reserve making specific recommendations in regard to individual officers, till the above scheme is finally sanctioned by His Highness the Maharaja.

READ ALSO—*The following Note by the Dewan, dated the 28th June 1906, explanatory of the Mysore Civil Service Scheme :—*

Some misconception appears to exist in regard to the scheme that has been under the consideration of His Highness the Maharaja's Government for improving the system of recruitment for the higher grades of the service in Mysore. And, as a result, various mistaken statements have found currency regarding the object and scope of the measure and its effect upon the ultimate composition of the service.

The object of the scheme is simply to group the appointments corresponding to the grade of Assistant Commissioner in various allied Departments together on a general list, to fix once for all the cadre for these Departments, and to regularize and improve the modes of recruitment to the general service. Its aim is not, as alleged, to restrict admission to the Assistant Commissioners' grade to men entering by competition; but, on the contrary, while retaining the principle of admission by competition in regard to a smaller proportion of total appointments than before, it opens the higher grades of the service to practically all Departments of the State except those of a technical nature, and increases the chances of those who rise from the lower grades by fully 100 per cent. It at the same time leaves unaffected the prerogative of His Highness the Maharaja to select men in special cases on the ground of family or other considerations of fitness. The bulk of the admissions to the new Schedule B will be from the lower ranks of the service, and the remainder will include men chosen from some or all of the following classes :—

(1) Men selected on family considerations possessing also educational qualifications sufficient, in the opinion of His Highness the Maharaja, for nomination to the Civil Service.

(2) Mysoreans who have distinguished themselves in the competitive examination.

(3) Mohammadans or members of any other community in the Mysore State which may be insufficiently represented in the public service, provided they are graduates of an Indian or other University.

It is apparent therefore that the Mysorean will be a distinct gainer by the new arrangement as the subordinate grades are manned almost entirely by Mysoreans by birth or domicile.

Thus, under the Civil Service Scheme as originally sanctioned in 1891, for every two appointments by open competition there were two by nomination either from the subordinate grades or on family or other considerations. This was modified in 1896, so as to increase the proportion of appointments by competition from two to four, of which half were to go to the two successful candidates at the top of the list and half to Mysore candidates lower down in the list. The present idea is to retain the distinctive character of recruitment by competition and, while limiting admissions by competition to two, to increase the admissions by selection to an average of seven. The total number of appointments of all Departments grouped together on the general list being about 81, the competition men will appropriate not more than 18 places against 63 places reserved for purely local men.

The necessity for the occasional admixture of a superior class of recruits in the Assistant Commissioners' grade will not need explanation for those who have a direct knowledge of the personnel in that and the higher grades. It is only necessary to say that the experience of the last fifteen years has more than justified the expectations formed of the good results likely to ensue from a limited system of recruitment by competition; and that, on the whole, the competition man, whether Mysorean or otherwise, has shown himself decidedly superior not only to the man nominated on family or other considerations, but also, with few exceptions, to the man recruited from the lower ranks of the service.

In framing the new scheme, it has been considered undesirable to lower the standard of efficiency for candidates admitted by competition by going lower down than the first two in order of successful candidates; but there is nothing to prevent Mysore students competing, and, if possessed of the necessary attainments, securing one of the two places; as indeed happened in 1901. The fact that Mysore Government scholars have in successive years carried off guaranteed appointments in the Public Works Department in Bombay shows that the best Mysore candidates need not fear competition with those coming from the British Indian Provinces.

The present scheme does not take away the chances of Mysoreans who, while failing to secure the first or second places, have distinguished themselves in the competitive examination. It is still open to the Government to keep this principle in view in making nominations, the number of which has been considerably increased.

The increase by 100 per cent in the number to be appointed by selection is not the only advantage the Mysorean has under the new scheme. The pay of the different classes in the

Assistant Commissioners' grade will be the same both for competition men and for those nominated, and the higher grades will be thrown open to Extra Assistant Commissioners who form a considerable body now, but have practically no chance of rising to be Deputy Commissioners. District Judges or Heads of Departments. As against these decided advantages, the only point on which the men nominated and those selected from the lower grades are not on the same footing as competition men is, that whereas the latter rise to the highest class in the grade of Assistant Commissioners in 10 years, the men nominated or rising from the lower grades will reach it in 14 years or 4 years later. Even here it is only men nominated direct that will have to rise more slowly than the competition men. For those who are already in the service, and at the time of their admission into the Civil Service happen to be drawing salaries of Rs. 250, Rs. 300, or Rs. 350, as Amildars or Munsiffs, will, far from being in an unfavourable position, have a distinct advantage over the men admitted by competition, in that they will reach the highest class of their grade in one, four or seven years, as the case may be, sooner than the latter.

Even more than this advantage in favor of the Mysorean candidate is the fact that, under the new scheme, as already noticed, the officers of the Assistant Commissioners' grade now known as Extra Assistant Commissioners, who are recruited almost entirely from the subordinate grades, and are practically all Mysoreans (born or domiciled), will have a recognized status given to them, and be placed in a position of perfect equality with the Assistant Commissioners who enter by competition, when they reach the highest class of Assistant Commissioners. After reaching this highest class, the position of the two sets of officers will be exactly the same as regards promotion to higher grades, which will be made entirely on the ground of merit. Thus they will be equally eligible for appointments of Deputy Commissioners and District Judges, and other appointments, which are now virtually closed to Extra Assistant Commissioners.

To make the advantages of the new system clearer, it may be noted that men who have done good work in the ranks of Police Superintendents, Survey Superintendents and Excise Assistants, are all eligible to be made Deputy Commissioners and to be appointed to offices above that grade, from which, as remarked above, they are practically excluded now.

It should also be noted that, being admitted as members of the Civil Service, they will be entitled to the same favourable terms as the competition men in regard to pension.

No. 8964—FINL., DATED THE 28TH JUNE 1906.

ORDER THEREON.—His Highness the Maharaja has had under his consideration the whole subject of the recruitment of officers for the higher grades of the public service in Mysore, including the position and prospects of officers so recruited, and the cadres of the various Departments of the State. His Highness observes that it is necessary to place the matter on a definite and satisfactory basis, and to indicate in unmistakeable terms the principles that should govern recruitments and promotions in future; the more so because full effect has not been given in recent years to the scheme for the constitution of the Mysore Civil Service embodied in Government Order Camp No. 407-22, dated the 1st November 1891. That scheme, moreover, requires modifications in points of detail to suit the conditions of the present time. His Highness the Maharaja has, therefore, been pleased to lay down the following revised rules to regulate admissions to, and grading and promotions in, the Civil Service of Mysore, in supersession of all existing orders on the subject:—

I. The following officers shall constitute the Mysore Civil Service:—

Assistant Commissioners of the new A and B Schedules, including all officers of that grade working in the Revenue, Excise, Police, Survey, Judicial and Account Departments and in the Government Secretariats; Deputy Commissioners; District Judges; Deputy Secretary*; and General and Revenue Secretary.

* This appointment will not be filled up as long as the separate appointment of Muzrai Secretary is maintained.

II. All future admissions to the Mysore Civil Service shall be only in one of two ways, *viz.*:—

Firstly, into the new A Schedule by success at a competitive examination of candidates approved by His Highness the Maharaja; and

Secondly, into the new B Schedule by special selection made by His Highness the Maharaja,—

(*a*) from members of the lower ranks of the Mysore public service, who have rendered meritorious service and have shown themselves fit in every way for holding higher appointments,

(*b*) or on family or other considerations of fitness.

III. A competitive examination for admission to the Civil Service shall be held once every two years commencing from 1906; provided that, in consideration of the fact that no such examinations were held during the last five years, two additional examinations shall be held, one in 1907 and the other in 1909. The subjects for examination, the dates on which and the manner in which it is to be held, and the proportion of marks required for passing, shall be duly notified at least three months before the examination. Both in point of severity of the tests applied, and range of subjects, the competitive examination shall be similar to that adopted for the Provincial Civil Service in British India.

IV. Candidates for the competitive examination must not be over twenty-five years of age on the date of examination, and must have graduated in Arts in an Indian or other University : provided that, if a candidate is not a native of or domiciled in Mysore, he must be a graduate of either the Madras or the Bombay University.

V. Candidates who fulfil these conditions, and who are desirous of competing, shall send in their names, with evidence of age and qualifications, and information as to their place of birth, caste, family, occupation and social status, and also with certificates of character and conduct, to the General and Revenue Secretary to Government, not later than a date to be fixed. From these candidates selection will be made by His Highness the Maharaja, and the names of those selected shall be notified in the official Gazette. Within a month of such notification, the selected candidates shall present themselves before a Medical Board at a place and on a date to be notified by Government. It shall be an instruction to this Board to reject all candidates not possessed of a good physique and constitution, and not especially fitted for the active duties of an executive officer. The candidates passed by the Board shall then be eligible for the examination.

VI. Two candidates shall be selected from the top of the list of candidates who have passed a satisfactory examination, and admitted on probation to the grade of Assistant Commissioners in the new Schedule A, which shall be closed to all others : provided that Assistant Commissioners of the existing Schedules A and B, howsoever recruited, shall be included in and shown under the new Schedule A in the order of their seniority.

VII. Persons admitted into the Mysore Civil Service by competition as above will draw pay at Rs. 200 a month during the period of probation, which shall be for a term of two years. During that period they shall pass—

1stly, an examination in equitation ;

2ndly, a departmental service examination according to rules in force for the time being ;

3rdly, such of them as have not taken Kanarese as their optional language in the B.A. Degree examination, the prescribed standard in that language.

A Probationer failing to pass by the end of the two years of probation will be allowed a further year's grace. Failing to pass in the third year, his name will be removed from the list of Probationary Assistant Commissioners.

VIII. On becoming fully qualified as above, a Probationary Assistant Commissioner will be appointed an Assistant Commissioner of the 5th class on Rs. 250, in the new Schedule A, and afterwards rise according to the scale given below in that Schedule :—

To Assistant Commissioner, 4th class, on Rs. 300.	After two years' approved service in the 5th class.
To Assistant Commissioner, 3rd class, on Rs. 350.	After two years' approved service in the 4th class.
To Assistant Commissioner, 2nd class, on Rs. 400.	After two years' approved service in the 3rd class.
To Assistant Commissioner, 1st class, on Rs. 450.	After two years' approved service in the 2nd class.

IX. (1) The grade of Assistant Commissioners of the new Schedule B shall be recruited, soon after the results of each Civil Service Examination are known, by the special selection of the requisite number of persons, according to vacancies, (which on the average will not exceed seven at present) in the manner described in the second clause of Rule II; provided that ordinarily no person shall be selected on family or other considerations, unless he has passed the B.A. Degree of an Indian or other University.

(2) Nothing in clause (1) of this Rule is intended to prevent temporary promotions to the grade of Assistant Commissioner of the new Schedule B from subordinate grades, in order to fill existing vacancies; but an officer so promoted shall not, merely by reason of such promotion, be entitled to confirmation when permanent appointments are made under clause (1).

(3) The question of including in the new Schedule B, such of the members of the present grade of Extra Assistant Commissioners as are duly qualified therefor, is reserved for separate orders.

X. The provisions of Rule VII in regard to the period of probation and the examinations to be passed shall be applicable also to those admitted to the Civil Service under Rule IX; provided that a recruit taken from the subordinate grades will be confirmed as soon as he fully qualifies himself by passing the prescribed examinations, irrespective of his putting in the full period of probation of two years, and that his initial pay in the grade of Assistant Commissioner, (new) Schedule B, shall be at least Rs. 50 more than the pay he was last permanently drawing in the subordinate grades.

XI. On becoming qualified for confirmation as above, a Probationary Assistant Commissioner of the new Schedule B will be appointed an Assistant Commissioner of the 5th class on Rs. 250 in that Schedule, and afterwards rise according to the scale given below:

To Assistant Commissioner, 4th class, on Rs. 300.	After three years' approved service in the 5th class.

To Assistant Commissioner, 1st class, on Rs. 450.	After three years' approved service in the 2nd class.

XII. An Assistant Commissioner of either Schedule who has put in at least two years in the first class of his grade, shall, if found fit, and if vacancies exist, be eligible for promotion to the grade of Senior Assistant Commissioner, carrying a pay of Rs. 500 rising by annual increments of Rs. 50 to Rs. 600. There shall be eight places in all in the last mentioned grade.

XIII. Every officer recruited by competition or by special selection under the rules shall, unless he has already received such training, be trained for not less than six months in the Survey Department and not less than six months in the Accounts Department; and every officer recruited by competition shall also be trained in the Judicial Department as a Munsiff or a Sub-Judge for not less than one year in the aggregate.

Appointments of Under and Assistant Secretaries in the General and Revenue Secretariat, Divisional and Treasury Officers in the Revenue Department, Subordinate Judges, Police Superintendents, Excise Divisional Officers, Assistant Superintendents of Survey, Assistant Comptrollers and other appointments of equal rank in the said Departments, shall be filled by officers qualified by aptitude and training from the grade of Assistant Commissioners without distinction of Schedules. Such officers will draw the pay proper to the class in which they happen to be, from time to time, *plus* any special or local allowance attached to the appointment which they fill.

Non-official Members.

1. Dr. J. D. O'Donnell, Acting Chief Medical Officer.
2. R. H. P. Bullen, Esq., Superintendent, Ooregum Co. (on leave).

1. Read and confirmed the minutes of the last meeting.

5. Read Government Proceedings No. 12569-70—L. B. (458-05), dated 8th June 1906, regarding the increase of salary to office establishment.

Resolved unanimously, in view of the enormous expansion of the Board's revenue and work and the costliness of the locality, that the Government be again requested to reconsider their order, and to accord sanction to the small increase of salaries to the existing clerks as per appended proposition statement.

6. Resolved that the kind of type-writer to be purchased for the use of the Sanitary Board, be a "Smith Premier."

7. Resolved that a sum of Rs. 300 be sanctioned as grant-in-aid towards the Ooregum village school, to which the villagers have made voluntary subscriptions of over Rs. 400 and towards which the Educational Department have kindly assisted by a grant of Rs 150.

Resolved that the Board do not consider it fair that they should by this arrangement be made to bear the cost of plague work on the Field, an expense from which last year they were specifically exempted.

The alteration of the title from that of Plague Hospital to Infectious Disease Hospital, does not alter the fact, that there will be wards and observation sheds, with a nursing and ward establishment, totally apart from the wards and establishment maintained for other infectious diseases.

The Board are prepared to continue to bear the cost of these, but urge that they are not in a position to also adequately undertake this cost of Plague Administration in their area.

9. Resolved that Government be requested to sanction the retention of the existing Avenue establishment now maintained at a monthly cost of Rs. 34 for a further period of five years.

10. Resolved that Government sanction be obtained for the permanent maintenance of the present temporary four ward boys for Infectious Disease ward.

(PASSED ON THE 7TH DAY OF JULY 1906.)

A Regulation to facilitate the construction and to regulate the working of Tramways in Mysore.

WHEREAS it is expedient to facilitate the construction and to regulate the working of tramways in Mysore; His Highness the Maharaja is pleased to enact as follows :—

Preliminary.

1. (*1*) This Regulation may be called the Mysore Tramways Regulation, 1906; and

Short title and commencement.

(*2*) It shall come into force at once.

2. It extends to the whole of Mysore.

Local extent.

3. In this Regulation, unless there is something repugnant in the subject or context,—

Definitions.

(*1*) "local authority" means a municipal committee, district board, or other authority legally entitled to, or entrusted by the Government with, the control or management of a municipal or local fund :

(*2*) "road" means the way of a road, street, thoroughfare, passage or place along or across which a tramway authorised under this Regulation is, or is intended to be, laid, and includes the surface-soil and sub-soil of a road, and the footway, bermes, drains and ditches of a road, and any bridge, culvert or causeway forming part of a road :

(*3*) "road-authority," in relation to a road, means—

(*a*) if a local authority maintains and repairs the road, then that authority ;

(*b*) if a local authority does not maintain and repair the road, and the road is neither vested in nor maintained and repaired by the Government, then the person in whom the road is vested ; and

(*c*) if a local authority does not maintain and repair the road, and the road is vested in or maintained and repaired by the Government, then the Government :

(*4*) "circle," in relation to a local authority or road-authority, means the area within the control of that authority :

(*5*) "tramway" means a tramway, or any part of a tramway, or any siding, turnout, connection, line or track belonging to a tramway :

(*6*) "order" means an order authorising the construction of a tramway under this Regulation, and includes a further order substituted for, or amending, extending or varying, that order :

(*7*) "promoter" means a local authority or person in whose favour an order has been made, and includes a local authority or person on whom the rights and liabilities conferred and imposed on the promoter by this Regulation and by the order and any rules made under this Regulation as to the construction, maintenance and use of the tramway, have devolved :

(*8*) "undertaking" includes all moveable and immoveable property of the promoter suitable to and used by him for the purposes of the tramway :

(*9*) "carriage," in the case of a tramway on which steam-power or any other mechanical power is used, includes an engine worked on the tramway for the purpose of producing that power :

(*10*) "toll" includes any charge leviable in respect of the use of a tramway :

(*11*) "lessee" means a person to whom a lease has been granted of right of user of a tramway and of demanding and taking the authorised tolls :

(*12*) "District Magistrate" includes an officer empowered by the Government by name or by virtue of his office to discharge within any local area all or any of the functions of a District Magistrate under this Regulation :

(*13*) "District Court" means a principal Civil Court of original jurisdiction :

(*14*) "Deputy Commissioner" means the chief officer in charge of the revenue-administration of a district, and includes an officer empowered by the Government by name or by virtue of his office to discharge within any local area the functions of a Deputy Commissioner under this Regulation : and

(15) "prescribed" means prescribed by rules made by the Government under this Regulation.

Orders authorising the Construction of Tramways.

Application for and consent necessary to making of order.

4. (1) The Government may make an order authorising the construction of a tramway in a circle on application made—

(a) by the local authority of the circle with the consent of the road-authority of any road or part of a road which is to be traversed by the tramway and of which the local authority is not itself the road-authority; or

(b) by any person with the consent of the local authority of the circle, and of the road-authority of any road or part of a road which is to be traversed by the tramway and of which the local authority is not the road-authority:

(2) A local authority shall not make an application for an order, or be deemed to consent to an application being made by any person for an order, unless the making of the application or the giving of the consent has been approved by the local authority in manner prescribed.

Consent of local or road-authority not necessary in certain cases.

5. When it is proposed to lay a tramway in two or more circles, and a local authority or road-authority having control in either or any of the circles does not consent thereto, or attaches conditions to its consent, the Government may, nevertheless, make an order authorising the construction of the tramway in the circle, or by the order impose on the promoter any conditions which it deems fit, if, after considering the reasons of the authority for withholding its consent or attaching the conditions thereto, it is satisfied that the construction of the tramway in the circle is expedient, or, as the case may be, that the conditions attached by the authority to its consent ought not to be imposed.

Procedure for making order.

6. (b) having commenced the construction, suspends it without a reason sufficient in the opinion of the Government to warrant the suspension, or

(c) does not within the time specified in the order complete the tramway and open it for public traffic,

the following consequences shall ensue :—

(*2*) The public shall have a right to pass along or across any part of a road along or across which a tramway is constructed, whether on or off the tramway, with carriages not having flange-wheels or other wheels suitable to run on the rail of the tramway : Provided—

(*a*) that this sub-section shall not apply where the tramway is constructed on land the right to the exclusive possession of which has been acquired by the promoter ; and

15. (*1*) The promoter or lessee may demand and take, in respect of the tramway, tolls not exceeding the limits specified in or determinable under the order, or, if the order contains no provision in this behalf, then such sums as may from time to time be fixed by the promoter or lessee with the previous sanction of the Government.

(*5*) Where a servant of the promoter or lessee refuses under sub-section (*4*) to carry a parcel which has been received for the purpose of being carried upon the tramway, he shall, as soon as may be, give notice of his refusal to the consignor or consignee if he refuses at a time when neither of them is present.

Licenses to use tramways.

17. If, at any time after a tramway or part of a tramway has been for three years opened for public traffic in a circle, the local authority of the circle represents in writing to the Government that the public is deprived of the full benefit of the tramway or of the part thereof, the Government may, if after considering any statement which the promoter or lessee or both may desire to make, and after such further enquiry as it deems necessary, it is satisfied as to the truth of the representation, grant a license to any person to use the tramway conformably to this Regulation and to the order and the rules made under this Regulation, subject to the following provisions, namely :—

(*a*) the license shall be for a period not less than one year or more than three years from the date of the license, but the Government may in its discretion renew it;

19. If it is proved to the satisfaction of the Government, at any time after the opening of a tramway for public traffic, that the working of the tramway, or any part thereof, has been practically discontinued, for the space of three months, without a reason sufficient, in the opinion of the Government, to warrant the discontinuance, the Government, if it thinks fit, may, by notification in the official Gazette, declare that the powers of the promoter and of the lessee, if any, in respect of the tramway or the part thereof of which the working has been so discontinued, shall, from the date of the notification, be at an end; and thereupon the said powers shall cease and determine, except in so far as they may be purchased by a local authority in manner by this Regulation provided.

20. (*1*) Where a notification has been published under Section 19, the road-authority may, at any time after the expiration of two months from the date of the notification, remove the tramway or part of the tramway of which the working has been so discontinued, and use the materials thereof in re-instating the road

(*4*) If the promoter does not pay the amount so certified within one month after the delivery to him of the certificate or of a copy thereof, the road-authority may, without any previous notice to the promoter and without prejudice to any other remedy which it may have for the recovery of the amount, sell and dispose of such materials of the tramway or part thereof

removed as it has not used in re-instating the road, either by public auction or by private sale, and for such sum or sums, and to such person or persons, as it thinks fit, and may, out of the proceeds of the sale, pay and reimburse itself the amount of the cost aforesaid and of the expenses of the sale, and shall pay over the residue (if any) of the proceeds of the sale to the promoter.

Proceedings in case of insolvency of promoter.

21. (*1*) If, at any time after the opening of a tramway in a circle for public traffic, it appears to the road-authority or local authority of the circle that the promoter of the tramway is insolvent, so that he is unable to maintain the tramway, or to work it with advantage to the public, and either of those authorities makes a representation to that effect to the Government, the Government may, if after considering any statement which the promoter may desire to make, and after such further enquiry as it deems necessary, it is satisfied as to the truth of the representation, declare, by notification in the official Gazette, that the powers of the promoter shall, at the expiration of six months from the publication of the notification, be at an end; and the powers of the promoter shall cease and determine at the expiration of that period, except in so far as they may be purchased by a local authority in manner by this Regulation provided.

(*2*) Where a notification has been published under sub-section (*1*), the road-authority may, at any time after the expiration of six months from the date thereof, remove the tramway in the same manner, and subject to the same provisions as to the payment of the cost of the removal and to the same remedy for recovery of the cost, in every respect as in cases of removal under section 20.

(*a*) within such limits of time as may be specified in this behalf in the order, or

(*b*) if a time was not specified in the order, then within six months after the expiration of a period of twenty-one years from the date of the order, and within six months after the expiration of every subsequent period of seven years, or

(*c*) within two months after the publication of a notification under section 19 or within six months after the publication of a notification under section 21,

by notice in writing, require the promoter to sell to the local authority his undertaking or the part thereof which is within the circle of the local authority; and thereupon the promoter shall sell the same upon the terms specified in the order, or if the terms were not specified in the order, then upon the terms of paying the then value of the undertaking or of the part thereof, exclusive of any allowance for past or future profits of the undertaking or any compensation for compulsory sale or other consideration whatsoever.

(2) On the determination of a lease the local authority may from time to time let the right for such further term and on such conditions as the Government may approve.

(3) Every lease made under this section shall imply a condition of re-entry if at any time after the making thereof it is proved to the satisfaction of the Government that the lessee has practically discontinued the working of the tramway leased, or of any part thereof, for the space of one month without a reason sufficient, in the opinion of the Government, to warrant the discontinuance.

(4) Notice of the intention of the local authority to make a lease shall be given in manner prescribed.

(4) If the local authority cannot by means of a lease obtain what it deems to be a fair rent for the tramway, it may itself, with the previous sanction of the Government and for such term as the Government directs, place and run carriages upon the tramway, and demand and take the authorised tolls in respect of the use of the carriages.

Sugar-cane is in a fair condition in Sagar, Nagar and Sorab and under the Sulekere tank in Chaunagiri and the Solur anikat in Shikarpur. Standing crops in Shimoga, Channagiri, Honnali and Shikarpur are much in need of rain.

10. Rainfall is very poor during the week. More rain is anxiously expected everywhere. Insufficiency of food stocks is reportesd in parts of Kumsi, Sorab and Shikarpur. Elsewhere food stocks are sufficient for the present. Rice is being imported into several parts of the district from the Madras Presidency.

11. Public health is generally good. Cholera is slowly disappearing and exists only in parts of Shimoga, Channagiri, Honnali, Shikarpur and Kumsi, and small-pox in parts of Channagiri, Shikarpur, Sorab, Sagar and Nagar.

12. Supply of fodder is limited in Channagiri, Honnali, Shikarpur and Sorab. Pasture is available in moderate quantities. Cattle are reported to be in poor health in parts of Shimoga, Channagiri, Shikarpur and Nagar. Scarcity of water is felt in Shikarpur and is likely to increase in the other maidan taluks if rains hold off.

KADUR.

8. Market fairly well supplied.

9. Ploughing is going on in Sringeri. In parts of Kadur, paddy, ragi, ballar, cholum and kulthi are being sown. The standing sugar-cane crop in Kadur, Chikmagalur, Tarikere and Yedahalli is in fairly good condition and is being harvested in parts of Kadur. The young plants of cholum, black and green grams are fading in parts of Kadur and Tarikere for want of rain. In a few villages of the Kadur hobli, the young plants are said to have been damaged by locusts to a certain extent. *Makkigaddes* in the malnad are in need ofmore rain. Elsewhere the crops are in good condition.

10. Prospects of the season are not quite encouraging. More rain is urgently needed throughout. Food stocks are available and sufficient for the present.

11. Public health generally good, except that small-pox prevails in parts of Yedahalli, Tarikere, Chikmagalur and Mudgere.

12. Cattle generally healthy, but some old and infirm cattle are reported to be dying in parts of Kadur and Tarikere, partly on account of deficient fodder and partly by their inability to bear the blast of the monsoonish weather. Green grass is springing up in several parts of the district. Water is generally available.

CHITALDRUG.

8. Market well supplied.

9. Castor, navane and togari in Challakere, cotton and navane in Hiriyur, ragi, ballar and togari in Holalkere; ragi and cholum in Davangere and castor, sessamum, navane and kambu in Molakalmuru were sown during the week. More rain is urgently needed for the standing corps such as ragi, cholum, kambu, castor, sessamum, black gram, and togari in Chitaldrug; ragi, ballar, togari, cholum, sessamum, green gram and castor in Hiriyur and ragi, ballar, kulthi, black and green gram and togari in Jagalur.

10. Prospects of the season fair. Food stocks sufficient.

11. Public health good.

12. Cattle healthy. Water is sufficient for the present. Difficulty for fodder still continues in certain parts of the district.

Preliminary.

1. (*1*) This Regulation may be called the Mysore Tramways Regulation, 1906; and

Short title and commencement.

(*2*) It shall come into force at once.

2. It extends to the whole of Mysore.

Local extent.

3. In this Regulation, unless there is something repugnant in the subject or context,—

Definitions.

(*1*) "local authority" means a municipal committee, district board, or other authority legally entitled to, or entrusted by the Government with, the control or management of a municipal or local fund :

(*2*) "road" means the way of a road, street, thoroughfare, passage or place along or across which a tramway authorised under this Regulation is, or is intended to be, laid, and includes the surface-soil and sub-soil of a road, and the footway, bermes, drains and ditches of a road, and any bridge, culvert or causeway forming part of a road :

(*3*) "road-authority," in relation to a road, means—

(*a*) if a local authority maintains and repairs the road, then that authority;

(*b*) if a local authority does not maintain and repair the road, and the road is neither vested in nor maintained and repaired by the Government, then the person in whom the road is vested; and

(*c*) if a local authority does not maintain and repair the road, and the road is vested in or maintained and repaired by the Government, then the Government :

(*4*) "circle," in relation to a local authority or road-authority, means the area within the control of that authority :

(*5*) "tramway" means a tramway, or any part of a tramway, or any siding, turnout, connection, line or track belonging to a tramway :

(*6*) "order" means an order authorising the construction of a tramway under this Regulation, and includes a further order substituted for, or amending, extending or varying, that order :

(*7*) "promoter" means a local authority or person in whose favour an order has been made, and includes a local authority or person on whom the rights and liabilities conferred and imposed on the promoter by this Regulation and by the order and any rules made under this Regulation as to the construction, maintenance and use of the tramway, have devolved :

(*8*) "undertaking" includes all moveable and immoveable property of the promoter suitable to and used by him for the purposes of the tramway :

(*9*) "carriage," in the case of a tramway on which steam-power or any other mechanical power is used, includes an engine worked on the tramway for the purpose of producing that power :

(15) "prescribed" means prescribed by rules made by the Government under this Regulation.

Orders authorising the Construction of Tramways.

Application for and consent necessary to making of order.

4. (1) The Government may make an order authorising the construction of a tramway in a circle on application made—

(a) by the local authority of the circle with the consent of the road-authority of any road or part of a road which is to be traversed by the tramway and of which the local authority is not itself the road-authority; or

(b) by any person with the consent of the local authority of the circle, and of the road-authority of any road or part of a road which is to be traversed by the tramway and of which the local authority is not the road-authority:

(2) A local authority shall not make an application for an order, or be deemed to consent to an application being made by any person for an order, unless the making of the application or the giving of the consent has been approved by the local authority in manner prescribed.

Consent of local or road-authority not necessary in certain cases.

5. When it is proposed to lay a tramway in two or more circles, and a local authority or road-authority having control in either or any of the circles does not consent thereto, or attaches conditions to its consent, the Government may, nevertheless, make an order authorising the construction of the tramway in the circle, or by the order impose on the promoter any conditions which it deems fit, if, after considering the reasons of the authority for withholding its consent or attaching the conditions thereto, it is satisfied that the construction of the tramway in the circle is expedient, or, as the case may be, that the conditions attached by the authority to its consent ought not to be imposed.

Procedure for making order.

6. (1) The Government on receiving an application shall consider it, and, if satisfied as to the propriety of proceeding thereon, publish in the official Gazette, and in such other manner as it deems sufficient for giving information to persons interested, a draft of a proposed order authorising the construction of the tramway.

(2) A notice shall be published with the draft stating that any objection or suggestion which any person may desire to make with respect to the proposed order will, if submitted to the Government on or before a date to be specified in the notice, be received and considered.

(3) If, after considering any objections or suggestions which may have been made with respect to the draft on or before the date so specified, the Government is of opinion that the application should be granted, with or without addition or modification, or subject or not to any restriction or condition, it may make an order accordingly.

(4) Every order authorising the construction of a tramway shall be published in the official Gazette in English, and in Kannada; and that publication shall be conclusive proof that the order has been made as required by this section.

Contents of order.

7. (1) An order made under section 6 shall empower the promoter therein specified to construct and maintain the tramway therein described in the manner therein provided, and shall specify the time within which the tramway shall be commenced and the time within which it shall be completed and opened for public traffic.

(2) The order may also provide, in manner consistent with this Regulation, for all or any of the following among other matters, that is to say:—

(*h*) the application of material excavated by the promoter in the construction or maintenance of the tramway;

(*i*) the provision of such crossings, passing-places, sidings, junctions and other works, in addition to those specified in or authorised by the order, as may from time to time be necessary or convenient to the efficient working of the tramway;

(*l*) the provision of a temporary tramway in place of a part of a tramway which has been removed, or of which the use has been discontinued, by reason of the execution of any work affecting a road along which the part of the tramway was laid, or by reason of the use of the road being interrupted by floods or other cause;

(*m*) the motive power to be used on the tramway, and the conditions on which steam-power or any other mechanical power may be used;

(*o*) the traffic which may be carried on the tramway, the traffic which the promoter or lessee shall be bound to carry, and the traffic which he may refuse to carry; the tolls to be leviable by the promoter or lessee, and the periodical revision thereof by the Government; and the regulation of the traffic and of the levy of the tolls;

(*p*) the use of the tramway free of toll by the local authority, with its own carriages, for specified purposes, during specified hours, with power to the local authority to make such sidings, and other works as may be necessary for communication between its premises and the tramway;

(*q*) the conditions subject to which the promoter may transfer the undertaking, or any part thereof, by sale, mortgage, lease, exchange or otherwise; and the conditions subject to which the local authority may be the transferee;

(*r*) the performance by the Government or by the local authority or road-authority of any work required by the Regulation or the order to be done by the promoter; and

(s) the penalty to be incurred by the promoter or lessee for failure to observe any condition or direction contained in the order, and the application of the penalty when recovered.

(3) The Government may, in providing in the order for the acquisition of land for the purposes of a tramway of which the promoter is not a company, direct that land may be acquired for the promoter under the provisions of the Mysore Land Acquisition Regulation, VII of 1894, in the same manner and on the same conditions as it might be acquired for the purposes of the tramway if a company were the promoter.

(4) The order shall imply the condition—

(a) in the case of a tramway of which a local authority is the promoter, that a lease thereof shall be granted only in manner by this Regulation provided; and

(b) in the case of a tramway of which a local authority is not the promoter, that a lease thereof shall be only of the right of user and of demanding and taking the authorised tolls, and shall not confer or impose on the lessee any of the powers or duties of the promoter in respect of the construction or maintenance of the tramway.

Further order.

8. (1) The Government may, on the application of the promoter, revoke, amend, extend or vary the order by a further order.

(2) An application for a further order shall be made in the same manner and subject to the same conditions as an application for an order.

(3) The Government may, in its discretion, either grant or reject the application.

(4) If it grants the application, it shall make the further order in the same manner as an order, except that no addition to, or modification of, the rights, powers and authorities asked for in the application, or restriction or condition with respect thereto, shall be made or imposed by the further order without the consent in writing of the promoter.

Power to authorise joint work by local authorities.

9. (1) Subject to, and in accordance with, the provisions of this Regulation, the Government may, on a joint application, or on two or more separate applications, make an order empowering two or more local authorities, respectively, jointly to construct the whole, or separately to construct parts, of a tramway, and jointly or separately to own the whole or parts thereof.

(2) All the provisions of this Regulation which relate to the construction of tramways shall extend and apply to the construction of the whole and the separate parts of the tramway, and the form of the order may be adapted to the circumstances of the case.

Cessation of powers given by an order.

10. (1) If a promoter authorised by an order to construct a tramway—

(a) does not within the time specified in the order substantially commence the construction of the tramway, or

(b) having commenced the construction, suspends it without a reason sufficient in the opinion of the Government to warrant the suspension, or

(c) does not within the time specified in the order complete the tramway and open it for public traffic,

the following consequences shall ensue:—

(i) the powers given by the order to the promoter for constructing the tramway and otherwise in relation thereto, shall, unless the Government, by special direction in writing, prolongs the time or condones the suspension, cease to be exercised except as to so much of the tramway as is then completed;

(ii) as to so much of the tramway as is then completed, the Government may either permit, or refuse to permit, the powers given by the order to continue;

(iii) if the Government refuses to permit the powers to continue, then so much of the tramway as is then completed may be dealt with, under the provisions of this Regulation relating to the discontinuance of tramways, as a tramway of the working whereof the discontinuance has been proved to the satisfaction of the Government.

(2) A notification published by the Government in the official Gazette to the effect that on a date specified in the notification the construction of a tramway had not been substantially commenced or a tramway had not been completed and opened for public traffic, or that the construction of a tramway had been suspended without sufficient reason, shall, for the purposes of this section, be conclusive proof of the matter stated therein.

Construction and Maintenance of Tramways.

Mode of formation of tramway.

11. A tramway shall be constructed and maintained in the manner provided by the order.

Inspection of tramway before opening.

12. A tramway, or portion or extension of, or addition to, a tramway, shall not be opened for public traffic until an engineer appointed in this behalf by the Government has inspected it and certified it to be fit for such traffic.

Agreement between road-authority and promoter as to repair of roadway.

13. Subject to the provisions of any order for the time being in force with respect to the matters mentioned in section 7, sub-section (2), clause (*g*), the road-authority and the promoter may from time to time enter into agreements as to the keeping in repair of the whole or a part of a road traversed by a tramway, and as to the proportion to be paid by either of them of the expense of keeping the road or part in repair.

Traffic on Tramways.

Rights of promoters and the public over tramways.

14. (*1*) The promoter of a tramway shall, subject to the provisions of sub-section (*2*) and to the other provisions of this Regulation and of the order, have the exclusive use of the tramway for carriages with flange-wheels or other wheels suitable to run on the rail described in the order as the rail to be used on the tramway:

Provided that nothing in this Regulation or in the order or any rule made under this Regulation shall affect the right of any person authorised to use a tramway or railway to pass across a tramway constructed under this Regulation with carriages having wheels suitable to run on the rail thereof.

(*2*) The public shall have a right to pass along or across any part of a road along or across which a tramway is constructed, whether on or off the tramway, with carriages not having flange-wheels or other wheels suitable to run on the rail of the tramway: Provided—

(*a*) that this sub-section shall not apply where the tramway is constructed on land the right to the exclusive possession of which has been acquired by the promoter; and

(*b*) that the Government may by an order authorise the construction of a tramway on any part of a road with rails raised above the surface of the road, if it is satisfied that the convenience of the public will not be injuriously affected thereby.

Tolls leviable by promoter or lessee.

15. (*1*) The promoter or lessee may demand and take, in respect of the tramway, tolls not exceeding the limits specified in or determinable under the order, or, if the order contains no provision in this behalf, then such sums as may from time to time be fixed by the promoter or lessee with the previous sanction of the Government.

(*2*) A list of all the tolls authorised to be levied shall be exhibited, in such languages as the District Magistrate may direct, in a conspicuous place inside and outside each of the carriages used upon the tramway.

Carriage of dangerous or offensive goods.

16. (*1*) A person shall not be entitled to carry or to require to be carried, on a tramway constructed under this Regulation, any goods of a dangerous or offensive nature.

(*2*) A person taking such goods with him on the tramway shall, before entering the carriage, give notice of their nature to the servant of the promoter or lessee in charge of the carriage.

(*3*) A person sending such goods by the tramway shall distinctly mark their nature on the outside of the package containing them, or otherwise give notice thereof in writing to the servant of the promoter or lessee with whom he leaves them for the purpose of their being sent by the tramway.

(*4*) Any servant of the promoter or lessee may refuse to carry upon the tramway a parcel which he suspects to contain goods of a dangerous or offensive nature, and, if any such parcel has been received for the purpose of being carried upon the tramway, may stop the transit thereof until he is satisfied as to the nature of its contents.

(*5*) Where a servant of the promoter or lessee refuses under sub-section (*4*) to carry a parcel which has been received for the purpose of being carried upon the tramway, he shall, as soon as may be, give notice of his refusal to the consignor or consignee if he refuses at a time when neither of them is present.

Licenses to use tramways.

17. If, at any time after a tramway or part of a tramway has been for three years opened for public traffic in a circle, the local authority of the circle represents in writing to the Government that the public is deprived of the full benefit of the tramway or of the part thereof, the Government may, if after considering any statement which the promoter or lessee or both may desire to make, and after such further enquiry as it deems necessary, it is satisfied as to the truth of the representation, grant a license to any person to use the tramway conformably to this Regulation and to the order and the rules made under this Regulation, subject to the following provisions, namely :—

Grants to third parties of licenses to use tramway in certain events.

(*a*) the license shall be for a period not less than one year or more than three years from the date of the license, but the Government may in its discretion renew it;

(*b*) the license shall be to use the whole of the tramway for the time being opened for public traffic, or such part or parts of the tramway as the Government, having regard to the cause for granting the license, thinks fit.

(*c*) the license shall specify the number of carriages which the licensee shall run upon the tramway, the mode in which, and times at which, the carriages shall be run, the tolls to be paid to the promoter or lessee by the licensee for the use of the tramway, and the tolls, being those for the time being leviable by the promoter or lessee, which the licensee may demand and take for the use of his carriages;

(*d*) the licensee and his officers and servants shall permit one person, duly authorised for that purpose by the promoter or lessee, to travel free of toll in or upon each carriage of the licensee run upon the tramway for the whole or any part of a journey;

(*e*) any provision of this Regulation or of the order or rules made under this Regulation, relating to the functions of a servant of a promoter or lessee shall be construed, so far as may be, as referring to a servant of the licensee; and

(*f*) the Government may revoke, alter or modify the license for any cause sufficient in its opinion to warrant the revocation, alteration or modification thereof.

18. A licensee shall, on demand, give to an officer or servant authorised in that behalf by the promoter or lessee an exact account in writing, signed by the licensee, of the number of passengers, or number or quantity of goods, conveyed by any and every carriage used by him on the tramway.

Licensee to give to promoter or lessee an account of traffic.

Discontinuance of Tramways.

19. If it is proved to the satisfaction of the Government, at any time after the opening of a tramway for public traffic, that the working of the tramway, or any part thereof, has been practically discontinued, for the space of three months, without a reason sufficient, in the opinion of the Government, to warrant the discontinuance, the Government, if it thinks fit, may, by notification in the official Gazette, declare that the powers of the promoter and of the lessee, if any, in respect of the tramway or the part thereof of which the working has been so discontinued, shall, from the date of the notification, be at an end; and thereupon the said powers shall cease and determine, except in so far as they may be purchased by a local authority in manner by this Regulation provided.

Cessation of powers of promoter and lessee, on discontinuance of tramway.

20. (*1*) Where a notification has been published under Section 19, the road-authority may, at any time after the expiration of two months from the date of the notification, remove the tramway or part of the tramway of which the working has been so discontinued, and use the materials thereof in re-instating the road.

Powers of road-authority on cessation of powers of promoter.

(*2*) The promoter shall pay to the road-authority the cost incurred by that authority in removing the tramway or the part thereof and in re-instating the road.

(*3*) The cost shall be certified by an officer of the road-authority, and his certificate, countersigned by the District Magistrate, shall be conclusive proof as to the cost incurred.

(*4*) If the promoter does not pay the amount so certified within one month after the delivery to him of the certificate or of a copy thereof, the road-authority may, without any previous notice to the promoter and without prejudice to any other remedy which it may have for the recovery of the amount, sell and dispose of such materials of the tramway or part thereof

removed as it has not used in re-instating the road, either by public auction or by private sale, and for such sum or sums, and to such person or persons, as it thinks fit, and may, out of the proceeds of the sale, pay and reimburse itself the amount of the cost aforesaid and of the expenses of the sale, and shall pay over the residue (if any) of the proceeds of the sale to the promoter.

Insolvency of Promoter.

Proceedings in case of insolvency of promoter.

21. (*1*) If, at any time after the opening of a tramway in a circle for public traffic, it appears to the road-authority or local authority of the circle that the promoter of the tramway is insolvent, so that he is unable to maintain the tramway, or to work it with advantage to the public, and either of those authorities makes a representation to that effect to the Government, the Government may, if after considering any statement which the promoter may desire to make, and after such further enquiry as it deems necessary, it is satisfied as to the truth of the representation, declare, by notification in the official Gazette, that the powers of the promoter shall, at the expiration of six months from the publication of the notification, be at an end; and the powers of the promoter shall cease and determine at the expiration of that period, except in so far as they may be purchased by a local authority in manner by this Regulation provided.

(*2*) Where a notification has been published under sub-section (*1*), the road-authority may, at any time after the expiration of six months from the date thereof, remove the tramway in the same manner, and subject to the same provisions as to the payment of the cost of the removal and to the same remedy for recovery of the cost, in every respect as in cases of removal under section 20.

Purchase of Tramways.

Future purchase of undertaking by local authority.

22. (*1*) Where the promoter of a tramway in a circle is not the local authority, the local authority, with the previous sanction of the Government, may—

(*a*) within such limits of time as may be specified in this behalf in the order, or

(*b*) if a time was not specified in the order, then within six months after the expiration of a period of twenty-one years from the date of the order, and within six months after the expiration of every subsequent period of seven years, or

(*c*) within two months after the publication of a notification under section 19 or within six months after the publication of a notification under section 21,

by notice in writing, require the promoter to sell to the local authority his undertaking or the part thereof which is within the circle of the local authority; and thereupon the promoter shall sell the same upon the terms specified in the order, or if the terms were not specified in the order, then upon the terms of paying the then value of the undertaking, or of the part thereof, exclusive of any allowance for past or future profits of the undertaking or any compensation for compulsory sale or other consideration whatsoever.

(*2*) A requisition shall not be made under sub-section (*1*) unless the making thereof has been approved by the local authority in manner prescribed.

(*3*) When a sale has been made under this section, all the rights, powers and authorities of the promoter in respect of the undertaking or part thereof sold or, where a notification has been published under section 19 or section 21, all the rights, powers and authorities of the promoter previous to the publication of the notification in respect of the undertaking or part thereof sold, shall be transferred to the authority to whom the undertaking or part has been sold, and shall vest in, and may be exercised by, that authority in the same manner as if the tramway had been constructed by it under an order made under this Regulation.

(*4*) Subject to, and in accordance with, the preceding provisions of this section, two or more local authorities may jointly purchase an undertaking or so much thereof as is within their circles.

Working of Tramways owned by Local Authorities.

Lease of, or working of, tramway by local authority.

23. (*1*) When a local authority has under the authority of an order completed a tramway, or has under the provisions of this Regulation or of an order acquired possession of a tramway, it may, by a lease to be approved by the Government, let to any person the right of user of the tramway and of demanding and taking the authorised tolls.

(2) On the determination of a lease the local authority may from time to time let the right for such further term and on such conditions as the Government may approve.

(3) Every lease made under this section shall imply a condition of re-entry if at any time after the making thereof it is proved to the satisfaction of the Government that the lessee has practically discontinued the working of the tramway leased, or of any part thereof, for the space of one month without a reason sufficient, in the opinion of the Government, to warrant the discontinuance.

(4) Notice of the intention of the local authority to make a lease shall be given in manner prescribed.

(4) If the local authority cannot by means of a lease obtain what it deems to be a fair rent for the tramway, it may itself, with the previous sanction of the Government and for such term as the Government directs, place and run carriages upon the tramway, and demand and take the authorised tolls in respect of the use of the carriages.

Rules.

Power to make rules.

24. (1) In addition to any other power to make rules expressly or by implication conferred by this Regulation, the Government may make rules consistent with this Regulation—

(h) as to the accidents of which report is to be made to the Government or as the Government directs;

(i) as to any matter respecting which rules may be made under this section by a local authority or a promoter or lessee; and,

(j) generally, as to any other matter or thing in respect of which it may seem to the Government to be expedient to make rules for carrying out the purposes of this Regulation.

(2) A local authority may, from time to time, with the previous sanction of the Government, make rules consistent with this Regulation and with the order and any rules made by the Government under this Regulation for regulating—

(*i*) generally, the mode of use of the tramway.

(*3*) The promoter or lessee of a tramway may, from time to time, with the previous sanction of the Government, make rules consistent with this Regulation and with the order and any rules made under this Regulation—

(*a*) for preventing the commission of any nuisance in or upon any carriage, or in or against any premises, belonging to him; and

(*b*) for regulating the travelling in any carriage belonging to him.

(*4*) The Government may cancel any rule made by a local authority or by a promoter or lessee under this section.

Power to impose penalty by rule.

25. The authority making any rule under section 24 may direct that a breach of it shall be punishable with fine which may extend—

(*b*) if that authority is a local authority or a promoter or lessee, to twenty rupees;

and when the breach is a continuing breach, with a further fine which may extend—

(*c*) if the authority making the rule is the Government, to fifty rupees, and,

for every day after the first during which the breach continues.

26. (*1*) Every authority having power to make rules under any section of this Regulation shall, before making the rules, publish a draft of the proposed rules for the information of persons likely to be affected thereby.

(*2*) The publication shall be made, in the case of rules made by the Government, in such manner as may in its opinion be sufficient for giving information to persons interested, and, in the case of rules made by a local authority or by a promoter or lessee, in manner prescribed.

(*3*) There shall be published with the draft a notice specifying a date, not earlier than the expiration of one month after the date of publication, at or after which the draft will be taken into consideration.

Penalty for failure of promoter, lessee or licensee to comply with Regulation or order.

27. If a promoter—

(*a*) constructs or maintains a tramway otherwise than in accordance with the order, or

(*b*) opens the tramway for traffic, or permits it to be so opened, before it has been inspected and certified in manner required by section 12, or

(*c*) fails to observe any requirement or condition of the order for neglect or breach whereof no penalty has been expressly provided in the order,

or if a promoter, lessee or licensee runs a carriage on a tramway otherwise than in accordance with the order,

he shall (without prejudice to the enforcement of specific performance of the requirements of this Regulation or of the order, or to any other remedy which may be obtained against him in a Court of Civil Judicature), on complaint made by the Government or by the local authority or road-authority or by the District Magistrate or, with the previous sanction of the District Magistrate, by any person injuriously affected by the act or omission, be punished with fine which may extend to two hundred rupees, and in the case of a continuing offence to a further fine which may extend to fifty rupees for every day after the first during which the offence continues to be committed.

Penalty for using tramway with carriage having flange-wheels.

30. If any person, except under a lease from, or by agreement with, the promoter, or under license from the Government granted under this Regulation uses on a tramway, otherwise than as permitted by section 14, a carriage having flange-wheels or other wheels suitable to run on the rail of the tramway, he shall be punished with fine which may extend to two hundred rupees.

Penalty for evading payment of proper toll.

31. (*1*) If any person travelling or having travelled in a carriage of the promoter or lessee or of a licensee evades or attempts to evade payment of toll, or if any person having paid toll for a certain distance wilfully proceeds in any such carriage beyond that distance and does not pay the additional toll for the additional distance or attempts to evade payment thereof, or if any person wilfully refuses or neglects on arriving at the point to which he has paid toll to quit the carriage, he shall be punished with fine which may extend to ten rupees.

(*2*) When a person commits an offence under this section and refuses on demand of a servant of the promoter, lessee or licensee to give his name and residence, or gives a name or residence which the servant has reason to believe to be false, he may be arrested and taken to the nearest police-station by the servant or any person whom the servant may call to his aid.

33. (*1*) If a licensee fails on demand to give the account mentioned in section 18, or, with intent to evade the payment of tolls, gives a false account when he is called upon to give an account under that section, he shall be punished with fine which may extend to fifty rupees.

(*2*) The fine shall be in addition to any tolls payable by the licensee to the promoter or lessee in respect of the passengers or goods conveyed by the carriage or carriages used by the licensee on the tramway.

Saving of prosecutions under other laws.

34. Nothing in this Regulation shall prevent a person from being prosecuted under any other law for an act or omission which constitutes an offence against this Regulation or the rules made under it, or from being liable under that other law to any other or higher punishment or penalty than that provided by this Regulation or the rules made under it: Provided that a person shall not be punished twice for the same offence.

Settlement of Differences.

Differences between promoters or lessees and authorities.

35. (*1*) If any difference arises between the promoter or lessee on the one hand and the Government or the local authority, or the road-authority, or a person having the charge of any sewers, drains, telegraph-lines, gas-pipes, water-pipes, or other things in or on land occupied by the tramway, on the other hand, with respect to any interference or control exercised or claimed to be exercised by, or on behalf of, either party by virtue of this or any other

Regulation, or of the order or the rules made under this Regulation, or with respect to the propriety of, or the mode of, the execution of any work, or with respect to any compensation to be made by or to the promoter or lessee, or on the question whether any work is such as ought reasonably to satisfy the Government or the road-authority or both, or with respect to any other subject or thing regulated by, or comprised in, this Regulation or the order or the rules made under this Regulation, and not otherwise expressly provided for therein, the matter in difference shall, except where the parties elect to proceed under section 523 of the Code of Civil Procedure, be settled, on the application of either party, by a referee.

(2) Where the difference is—

(a) between the promoter or lessee on the one hand and the Government, either as such or as the road-authority, on the other, or

(b) between the promoter on the one hand and the local authority on the other, with respect to the sum to be paid by the local authority for an undertaking or part of an undertaking which that authority has required the promoter to sell under section 22,

the referee shall be the District Court within the jurisdiction of which the tramway is situate, or, where the tramway is within the jurisdiction of more than one District Court, the District Court within the jurisdiction of which the greater part of the tramway is situate.

(3) In other cases the referee shall be appointed by the Government.

(4) Except where the referee is the District Court, the powers and procedure of the referee may be prescribed.

(5) In the case of a difference between a promoter on the one hand and a local authority on the other, with respect to the sum to be paid by the local authority for an undertaking or part of an undertaking which that authority has required the promoter to sell under section 22, an appeal shall lie to the Chief Court from the award of the referee as from an original decree of the District Court.

(6) In the case of every other difference the award of the referee shall be final.

Provided that nothing in this section shall authorise the arrest of the promoter or lessee or his surety in execution of any process issued by the Deputy Commissioner.

Recovery of tolls from licensees.

37. (1) If a licensee fails to pay on demand the tolls due for the use of a tramway, the promoter or lessee to whom the tolls are due may, without prejudice to the remedy which he may have by suit, apply to a Magistrate to recover the amount of the tolls, and the Magistrate may, after giving notice to the licensee if possible and allowing him an opportunity of being heard, proceed to recover the amount by distress and sale of any carriages or other moveable property of the licensee which may be found on the tramway or on premises connected therewith.

(2) When a licensee has failed to pay on demand the tolls due from him, the promoter or lessee to whom the tolls are due may seize any carriage or other moveable property of the licensee on the tramway or on premises connected therewith, and detain the same for forty-eight hours unless the tolls are sooner paid.

(3) When application is made to a Magistrate under sub-section (1), he may make an interim order of distraint pending his final decision.

38. Any toll due to a promoter, lessee or licensee from a passenger may be recovered either by suit or, on application to a Magistrate having jurisdiction within any local area in which any part of the tramway is laid, by distress and sale of any moveable property belonging to the passenger within the local limits of the jurisdiction of the Magistrate.

Savings.

39. (*1*) Notwithstanding anything contained in this Regulation, or in an order or any rule made under this Regulation, a promoter shall not acquire any right other than that of user only over a road along or across which he lays a tramway, nor shall anything contained in this Regulation, or in an order or any rule made under this Regulation, exempt the promoter of a tramway, or any other person using the tramway, from the payment of such charges as may lawfully be levied in respect of the use of a road or bridge along or across which the tramway is laid.

(*2*) The Government may, if it thinks fit, fix rates at which a promoter, lessee or licensee may compound for the charges payable in respect of the use of a road or bridge.

40. (*1*) Nothing in this Regulation, or in an order or any rule made under this Regulation, shall take away or abridge any power which a road-authority, local authority or other person has by law to break up, widen, alter, divert or improve a road, railroad or tramway along or across which a tramway is laid.

Saving of power over roads traversed by tramways.

(*2*) The road-authority, local authority or other person executing any work referred to in sub-section (*1*) shall not be liable to pay to a promoter, lessee or licensee any compensation for injury done to a tramway by the execution of the work or for loss of traffic occasioned by the reasonable use of any power lawfully exercised for the execution thereof.

Orders authorising the Construction of Tramways.

Application for and consent necessary to making of order.

4. (1) The Government may make an order authorising the construction of a tramway in a circle on application made—

(a) by the local authority of the circle with the consent of the road-authority of any road or part of a road which is to be traversed by the tramway and of which the local authority is not itself the road-authority; or

(b) by any person with the consent of the local authority of the circle, and of the road-authority of any road or part of a road which is to be traversed by the tramway and of which the local authority is not the road-authority:

(2) A local authority shall not make an application for an order, or be deemed to consent to an application being made by any person for an order, unless the making of the application or the giving of the consent has been approved by the local authority in manner prescribed.

Consent of local or road-authority not necessary in certain cases.

5. When it is proposed to lay a tramway in two or more circles, and a local authority or road-authority having control in either or any of the circles does not consent thereto, or attaches conditions to its consent, the Government may, nevertheless, make an order authorising the construction of the tramway in the circle, or by the order impose on the promoter any conditions which it deems fit, if, after considering the reasons of the authority for withholding its consent or attaching the conditions thereto, it is satisfied that the construction of the tramway in the circle is expedient, or, as the case may be, that the conditions attached by the authority to its consent ought not to be imposed.

Procedure for making order.

6. (1) The Government on receiving an application shall consider it, and, if satisfied as to the propriety of proceeding thereon, publish in the official Gazette, and in such other manner as it deems sufficient for giving information to persons interested, a draft of a proposed order authorising the construction of the tramway.

(2) A notice shall be published with the draft stating that any objection or suggestion which any person may desire to make with respect to the proposed order will, if submitted to the Government on or before a date to be specified in the notice, be received and considered.

(3) If, after considering any objections or suggestions which may have been made with respect to the draft on or before the date so specified, the Government is of opinion that the application should be granted, with or without addition or modification, or subject or not to any restriction or condition, it may make an order accordingly.

(4) Every order authorising the construction of a tramway shall be published in the official Gazette in English, and in Kannada; and that publication shall be conclusive proof that the order has been made as required by this section.

Contents of order.

7. (1) An order made under section 6 shall empower the promoter therein specified to construct and maintain the tramway therein described in the manner therein provided, and shall specify the time within which the tramway shall be commenced and the time within which it shall be completed and opened for public traffic.

(2) The order may also provide, in manner consistent with this Regulation, for all or any of the following among other matters, that is to say:—

(a) a period before the expiration of which the tramway shall not be commenced, and the conditions subject to which the local authority, when it is not itself the promoter, may, within that period, elect to be substituted in the place of the promoter in respect of the undertaking or of so much thereof as is within its circle; and the limits of time within which, and the terms upon which, the local authority may, after the tramway has been constructed, require the promoter to sell to it the undertaking or so much thereof as is within its circle;

(b) the acquisition by the promoter of land for the purposes of the tramway, and the disposal by him of land which has been acquired but is no longer required for those purposes;

(c) the conditions subject to which roads may be opened and broken up for the purposes of the construction or maintenance of the tramway or any part thereof, and the method of, and materials to be used in, the re-instating of the roads, and the approval of the method and materials by the Government or the road-authority before the commencement of the work;

11. A tramway shall be constructed and maintained in the manner provided by the order.

Inspection of tramway before opening.

12. A tramway, or portion or extension of, or addition to, a tramway, shall not be opened for public traffic until an engineer appointed in this behalf by the Government has inspected it and certified it to be fit for such traffic.

Agreement between road-authority and promoter as to repair of roadway.

13. Subject to the provisions of any order for the time being in force with respect to the matters mentioned in section 7, sub-section (2), clause (g), the road-authority and the promoter may from time to time enter into agreements as to the keeping in repair of the whole or a part of a road traversed by a tramway, and as to the proportion to be paid by either of them of the expense of keeping the road or part in repair.

Traffic on Tramways.

Rights of promoters and the public over tramways.

14. (1) The promoter of a tramway shall, subject to the provisions of sub-section (2) and to the other provisions of this Regulation and of the order, have the exclusive use of the tramway for carriages with flange-wheels or other wheels suitable to run on the rail described in the order as the rail to be used on the tramway:

Provided that nothing in this Regulation or in the order or any rule made under this Regulation shall affect the right of any person authorised to use a tramway or railway to pass across a tramway constructed under this Regulation with carriages having wheels suitable to run on the rail thereof.

(2) The public shall have a right to pass along or across any part of a road along or across which a tramway is constructed, whether on or off the tramway, with carriages not having flange-wheels or other wheels suitable to run on the rail of the tramway: Provided—

(a) that this sub-section shall not apply where the tramway is constructed on land the right to the exclusive possession of which has been acquired by the promoter; and

(b) that the Government may by an order authorise the construction of a tramway on any part of a road with rails raised above the surface of the road, if it is satisfied that the convenience of the public will not be injuriously affected thereby.

Tolls leviable by promoter or lessee.

15. (1) The promoter or lessee may demand and take, in respect of the tramway, tolls not exceeding the limits specified in or determinable under the order, or, if the order contains no provision in this behalf, then such sums as may from time to time be fixed by the promoter or lessee with the previous sanction of the Government.

(2) A list of all the tolls authorised to be levied shall be exhibited, in such languages as the District Magistrate may direct, in a conspicuous place inside and outside each of the carriages used upon the tramway.

Carriage of dangerous or offensive goods.

16. (1) A person shall not be entitled to carry or to require to be carried, on a tramway constructed under this Regulation, any goods of a dangerous or offensive nature.

(2) A person taking such goods with him on the tramway shall, before entering the carriage, give notice of their nature to the servant of the promoter or lessee in charge of the carriage.

(3) A person sending such goods by the tramway shall distinctly mark their nature on the outside of the package containing them, or otherwise give notice thereof in writing to the servant of the promoter or lessee with whom he leaves them for the purpose of their being sent by the tramway.

(4) Any servant of the promoter or lessee may refuse to carry upon the tramway a parcel which he suspects to contain goods of a dangerous or offensive nature, and, if any such parcel has been received for the purpose of being carried upon the tramway, may stop the transit thereof until he is satisfied as to the nature of its contents.

(5) Where a servant of the promoter or lessee refuses under sub-section (4) to carry a parcel which has been received for the purpose of being carried upon the tramway, he shall, as soon as may be, give notice of his refusal to the consignor or consignee if he refuses at a time when neither of them is present.

Licenses to use tramways.

Grants to third parties of licenses to use tramway in certain events.

17. If, at any time after a tramway or part of a tramway has been for three years opened for public traffic in a circle, the local authority of the circle represents in writing to the Government that the public is deprived of the full benefit of the tramway or of the part thereof, the Government may, if after considering any statement which the promoter or lessee or both may desire to make, and after such further enquiry as it deems necessary, it is satisfied as to the truth of the representation, grant a license to any person to use the tramway conformably to this Regulation and to the order and the rules made under this Regulation, subject to the following provisions, namely :—

(*a*) the license shall be for a period not less than one year or more than three years from the date of the license, but the Government may in its discretion renew it;

(*b*) the license shall be to use the whole of the tramway for the time being opened for public traffic, or such part or parts of the tramway as the Government, having regard to the cause for granting the license, thinks fit.

(*c*) the license shall specify the number of carriages which the licensee shall run upon the tramway, the mode in which, and times at which, the carriages shall be run, the tolls to be paid to the promoter or lessee by the licensee for the use of the tramway, and the tolls, being those for the time being leviable by the promoter or lessee, which the licensee may demand and take for the use of his carriages;

(*d*) the licensee and his officers and servants shall permit one person, duly authorised for that purpose by the promoter or lessee, to travel free of toll in or upon each carriage of the licensee run upon the tramway for the whole or any part of a journey;

(*e*) any provision of this Regulation or of the order or rules made under this Regulation, relating to the functions of a servant of a promoter or lessee shall be construed, so far as may be, as referring to a servant of the licensee; and

(*f*) the Government may revoke, alter or modify the license for any cause sufficient in its opinion to warrant the revocation, alteration or modification thereof.

Licensee to give to promoter or lessee an account of traffic.

18. A licensee shall, on demand, give to an officer or servant authorised in that behalf by the promoter or lessee an exact account in writing, signed by the licensee, of the number of passengers, or number or quantity of goods, conveyed by any and every carriage used by him on the tramway.

Discontinuance of Tramways.

Cessation of powers of promoter and lessee, on discontinuance of tramway.

19. If it is proved to the satisfaction of the Government, at any time after the opening of a tramway for public traffic, that the working of the tramway, or any part thereof, has been practically discontinued, for the space of three months, without a reason sufficient, in the opinion of the Government, to warrant the discontinuance, the Government, if it thinks fit, may, by notification in the official Gazette, declare that the powers of the promoter and of the lessee, if any, in respect of the tramway or the part thereof of which the working has been so discontinued, shall, from the date of the notification, be at an end; and thereupon the said powers shall cease and determine, except in so far as they may be purchased by a local authority in manner by this Regulation provided.

Powers of road-authority on cessation of powers of promoter.

20. (*1*) Where a notification has been published under Section 19, the road-authority may, at any time after the expiration of two months from the date of the notification, remove the tramway or part of the tramway of which the working has been so discontinued, and use the materials thereof in re-instating the road.

(*2*) The promoter shall pay to the road-authority the cost incurred by that authority in removing the tramway or the part thereof and in re-instating the road.

(*3*) The cost shall be certified by an officer of the road-authority, and his certificate, countersigned by the District Magistrate, shall be conclusive proof as to the cost incurred.

(*4*) If the promoter does not pay the amount so certified within one month after the delivery to him of the certificate or of a copy thereof, the road-authority may, without any previous notice to the promoter and without prejudice to any other remedy which it may have for the recovery of the amount, sell and dispose of such materials of the tramway or part thereof

(*d*) the conditions on which the tramway may be constructed over a bridge or across a railway or tramway when the carriageway over the bridge is to form part of the tramway or when the tramway is to cross a railway or another tramway on the level;

(*e*) the space which shall ordinarily intervene between the outside of the carriageway on either side of a road whereon the tramway is to be constructed and the nearest rail of the tramway, and the conditions on which a smaller space may be permitted;

(*f*) the gauge of the tramway; the rails to be used, and the mode in which and the level at which they shall be laid and maintained; and the adoption and application by the promoter of such improvements in the rails, and in their situation, and in the sub-structure upon which they rest, as the Government may from time to time require;

(*g*) the portion of the road or roads traversed by the tramway to be kept in repair by the promoter; the maintenance by the promoter to the satisfaction of the Government or the road-authority, or both, of that portion of the road or roads; and the liability of the promoter, on the requisition of the Government, from time to time to adopt and apply such improvements in the tramway as the Government may consider necessary or desirable for the safety or convenience of the public, and to alter the position or level of the tramway to suit future alterations in the road or roads;

(*h*) the application of material excavated by the promoter in the construction or maintenance of the tramway;

(*i*) the provision of such crossings, passing-places, sidings, junctions and other works, in addition to those specified in or authorised by the order, as may from time to time be necessary or convenient to the efficient working of the tramway;

(*j*) the powers which may from time to time be exercised by the Government, the local authority, the road-authority or any person in respect of sewers, drains, telegraph-lines, gas-pipes, water-pipes or other things in or on land occupied by the tramway; the notice (if any) to be given of the intended exercise of those powers; the manner in which the powers shall be exercised; and the extent to which the tramway and the traffic thereon may be interfered with in the exercise thereof;

(*k*) the conditions subject to which the promoter may from time to time interfere with, or alter or require the alteration of the position of, drains (not being sewers or main drains), telegraph-lines, gas-pipes, water-pipes or other things as aforesaid;

(*l*) the provision of a temporary tramway in place of a part of a tramway which has been removed, or of which the use has been discontinued, by reason of the execution of any work affecting a road along which the part of the tramway was laid, or by reason of the use of the road being interrupted by floods or other cause;

(*m*) the motive power to be used on the tramway, and the conditions on which steam-power or any other mechanical power may be used;

(*n*) the nature, dimensions, fittings, appliances and apparatus of the carriages to be used on the tramway, and the inspection and examination thereof by officers of the Government or the local authority, and the liability of the promoter or lessee, on the requisition of the Government, from time to time, to adopt and apply such improvements in the carriages, and in the fittings, appliances and apparatus, as the Government may consider necessary or desirable for the safety or convenience of the public:

(*p*) the use of the tramway free of toll by the local authority, with its own carriages, for specified purposes, during specified hours, with power to the local authority to make such sidings, and other works as may be necessary for communication between its premises and the tramway;

(*q*) the conditions subject to which the promoter may transfer the undertaking, or any part thereof, by sale, mortgage, lease, exchange or otherwise; and the conditions subject to which the local authority may be the transferee;

(s) the penalty to be incurred by the promoter or lessee for failure to observe any condition or direction contained in the order, and the application of the penalty when recovered.

(3) The Government may, in providing in the order for the acquisition of land for the purposes of a tramway of which the promoter is not a company, direct that land may be acquired for the promoter under the provisions of the Mysore Land Acquisition Regulation, VII of 1894, in the same manner and on the same conditions as it might be acquired for the purposes of the tramway if a company were the promoter.

(4) The order shall imply the condition—

Licenses to use tramways.

17. If, at any time after a tramway or part of a tramway has been for three years opened for public traffic in a circle, the local authority of the circle represents in writing to the Government that the public is deprived of the full benefit of the tramway or of the part thereof, the Government may, if after considering any statement which the promoter or lessee or both may desire to make, and after such further enquiry as it deems necessary, it is satisfied as to the truth of the representation, grant a license to any person to use the tramway conformably to this Regulation and to the order and the rules made under this Regulation, subject to the following provisions, namely :—

Grants to third parties of licenses to use tramway in certain events.

(*a*) the license shall be for a period not less than one year or more than three years from the date of the license, but the Government may in its discretion renew it;

(*3*) The cost shall be certified by an officer of the road-authority, and his certificate, countersigned by the District Magistrate, shall be conclusive proof as to the cost incurred.

(*4*) If the promoter does not pay the amount so certified within one month after the delivery to him of the certificate or of a copy thereof, the road-authority may, without any previous notice to the promoter and without prejudice to any other remedy which it may have for the recovery of the amount, sell and dispose of such materials of the tramway or part thereof

removed as it has not used in re-instating the road, either by public auction or by private sale, and for such sum or sums, and to such person or persons, as it thinks fit, and may, out of the proceeds of the sale, pay and reimburse itself the amount of the cost aforesaid and of the expenses of the sale, and shall pay over the residue (if any) of the proceeds of the sale to the promoter.

Insolvency of Promoter.

Proceedings in case of insolvency of promoter.

21. (*1*) If, at any time after the opening of a tramway in a circle for public traffic, it appears to the road-authority or local authority of the circle that the promoter of the tramway is insolvent, so that he is unable to maintain the tramway, or to work it with advantage to the public, and either of those authorities makes a representation to that effect to the Government, the Government may, if after considering any statement which the promoter may desire to make, and after such further enquiry as it deems necessary, it is satisfied as to the truth of the representation, declare, by notification in the official Gazette, that the powers of the promoter shall, at the expiration of six months from the publication of the notification, be at an end; and the powers of the promoter shall cease and determine at the expiration of that period, except in so far as they may be purchased by a local authority in manner by this Regulation provided.

(*2*) Where a notification has been published under sub-section (*1*), the road-authority may, at any time after the expiration of six months from the date thereof, remove the tramway in the same manner, and subject to the same provisions as to the payment of the cost of the removal and to the same remedy for recovery of the cost, in every respect as in cases of removal under section 20.

Purchase of Tramways.

(2) On the determination of a lease the local authority may from time to time let the right for such further term and on such conditions as the Government may approve.

(3) Every lease made under this section shall imply a condition of re-entry if at any time after the making thereof it is proved to the satisfaction of the Government that the lessee has practically discontinued the working of the tramway leased, or of any part thereof, for the space of one month without a reason sufficient, in the opinion of the Government, to warrant the discontinuance.

(4) Notice of the intention of the local authority to make a lease shall be given in manner prescribed.

(4) If the local authority cannot by means of a lease obtain what it deems to be a fair rent for the tramway, it may itself, with the previous sanction of the Government and for such term as the Government directs, place and run carriages upon the tramway, and demand and take the authorised tolls in respect of the use of the carriages.

No. R. 1678—*L. R.* 105-06-1, *dated 7th August* 1906.

With a view to improve the efficiency of the various grades of the ministerial establishments of the Revenue Department in Mysore, the Government of His Highness the Maharaja are pleased to prescribe the following rules, in supersession of all rules heretofore in force, to regulate admissions to, and promotions in, the said Department, with effect from the 1st October 1906:

1. The Revenue Department for the purposes of these Rules shall comprise the following offices:—

(1) The office of the Revenue Commissioner and *ex-officio* Director of Statistics.
(2) The office of the Survey and Settlement Commissioner and all offices subordinate to him in his Department.
(3) The office of the Registrar of Co-operative Societies.
(4) The offices of Deputy and Assistant Commissioners in all their Branches.
(5) The offices of Amildars and Deputy Amildars in all their Branches.

2. These Rules shall in no wise affect the promotion of persons who held permanent appointments before the Rules came into force, provided their promotion was not already barred by any rules previously in force.

3. No person shall be eligible for appointment to a post carrying a pay of less than Rs. 15 per mensem but classed as superior in the Mysore Service Regulations, or to any of the marginally specified posts* classed as inferior therein, unless the officer appointing him is satisfied as to his ability to read and write Kanarese with facility. Provided that, as between a candidate who has passed the Mysore Lower Secondary or other higher examination and an unpassed candidate, the former shall have the preference.

* Clerks, Daftarbands, Mutchis and Gollars.

4. No person shall be eligible for appointment to a post classified as superior in the Service Regulations, and carrying a pay of Rs. 15 and upwards but below Rs. 25, unless he produces a certificate of having passed at least the Mysore Lower Secondary Examination in Kanarese or English, or some other examination accepted by the Government as equivalent to it for the purposes of these Rules, and unless the officer appointing him is satisfied as to his ability to read and write Kanarese with facility.

Exception.—The examination qualification prescribed in this rule shall not apply to the posts of Shroffs and Assistant Shroffs.

5. No person shall be eligible for appointment to a post carrying Rs. 25 and upwards, unless he has passed at least the Matriculation Examination of an Indian University.

6. Any Deputy Commissioner who, owing to the paucity of duly qualified candidates for an appointment of the kind referred to in Rule 4 or 5 in his own office or in an office subordinate to him deems it necessary to appoint or to permit the appointment of another candidate not so qualified, shall obtain the sanction of the Revenue Commissioner for such appointment. Such sanction shall not be given unless the existence of the vacancy is notified in three successive issues of Part II of the *Mysore Gazette*, and no applications from qualified candidates are forthcoming in response to such Notification within a month of the last publication. In the interim it shall be competent to the Deputy Commissioner to fill up the vacancy temporarily with such person as he may select.

7. A fair proportion of the vacancies in the offices of Deputy and Assistant Commissioners shall be filled by the selection of Taluk Gumastas of approved qualifications, conduct and efficiency.

[*Note.*—This will very materially increase the working power of controlling offices, because of the practical experience which such clerks will bring to the discharge of their duties. Moreover, passed men will not be slow to take up appointments in Taluk Offices, if sufficient inducement in the shape of prospects of a regular flow of promotion is offered to them. One of the causes of the inefficiency of these establishments is that service in the taluk ordinarily leads to nothing better.]

8. At the end of every official year, Deputy Commissioners shall cause to be prepared a list showing the names, pay, qualifications and length of service of all Taluk Gumastas in their Districts, and the promotions given to the qualified among them during the year, and forward the same to the Revenue Commissioner.

9. Not less than a fourth of the total number of vacancies among Taluk Sheristadars during each official year shall be filled by persons chosen from among the most capable and qualified Shekdars, and not less than a fourth by persons chosen from among the most capable and qualified Taluk Head Gumastas, the remaining vacancies being filled by duly qualified clerks in other offices of the Revenue Department.

10. The claims of candidates for *admission* to the clerical establishments of the Revenue Department shall be accorded preference in the following order:—

(1) Graduates.
(2) Candidates who have passed the First Examination in Arts.
(3) Qualified candidates who hold a certificate from any recognized College of Agriculture.

(4) Candidates who have passed the Matriculation Examination.
(5) Candidates who have passed the Mysore Lower Secondary Examination in Kanarese or English or some other eqivalent Examination.

11. In awarding *promotions*, preference shall be given to—
(1) Graduates and non-graduates who have passed the Local Service Departmental Tests over men who have not passed such tests.
(2) Graduates who have not passed the Departmental Tests over non-graduates of similar standing in the service, who have also not passed such tests.

Explanation 1.—Clause (2) does not contemplate rapid promotion of a junior unpassed graduate over the heads of non-graduate seniors of long and approved service.

Explanation 2.—All preferential claims to promotion under this Rule are subject to the condition that the claimant has proved himself deserving thereof by efficiency and good conduct.

12. Graduates who have undergone training for a period of not less than six months in the Account Branch, and not less than six months in the Revenue Branch, of a Taluk Office, and for not less than a year as Sheikdars, shall, if otherwise qualified by passing the Local Service Departmental Tests, have preferential claims over other graduates of a similar standing, and over candidates of less general educational qualifications of longer standing, for the following offices:—
(1) Taluk Sheristadar, (2) Revenue Head Munshi, Deputy Commissioner's office and (3) Head Clerk, Assistant Commissioner's office.

Deputy Commissioners are requested to afford special facilities for graduates who desire to qualify themselves under this rule.

13. Government have delegated to the officers mentioned below the power of sanctioning exemptions from general education tests, in respect of the appointments specified in each case:—

1. To the Revenue Commissioner.—Acting appointments in the offices of Deputy Commissioners, Assistant Commissioners, Amildars and Deputy Amildars, lasting for any length of time, when the acting allowance available is not more than Rs. 15 per mensem.
2. To the Deputy Commissioners of Districts, excepting Bangalore and Mysore.—Acting appointments in their own offices and in those of Assistant Commissioners, Amildars and Deputy Amildars, lasting for not more than six months, when the acting allowance available is not more than Rs. 15 per mensem.
3. To the Deputy Commissioners of Mysore and Bangalore.—Acting appointments as aforesaid, lasting for not more than three months, provided the acting allowance does not exceed Rs. 15 per mensem.
4. To the Survey and Settlement Commissioner.—Acting appointments in his own office and in offices subordinate to him, lasting for not more than a year, provided the acting allowance does not exceed Rs. 15 per mensem.

*14. No one shall be appointed to any of the appointments mentioned below unless he has passed the test or tests shown against it:—

(1) Any appointment in the Account Branch of the Deputy Commissioners's office.	Account Test.
(2) Taluk Sheristadar.	Revenue and Criminal Tests (Lower Grade), and Account Test.
(3) Head Clerk, Revenue Head Munshi and Judicial Head Munshi of the Deputy Commissioner's office; and Head Clerk, Assistant Commissioner's office.	Revenue and Criminal Tests (Lower Grade).
(4) Head Clerk in the office of Revenue Commissioner or Survey and Settlement Commissioner.	Revenue Test (Higher Grade).
(5) District Sheristadar.	Revenue and Criminal Tests (Higher Grade) and Account Test.

15. (1) Each Head of an office empowered to appoint shall maintain a Register of all applicants for admission, showing each candidate's name, father's name, caste, date of birth, native place, educational qualifications, tests passed with dates, reference to testimonials and recommendations, names and appointments of relatives, if any, then or previously in Government Service, and any other details that may be found necessary or convenient.

(2) No name shall be entered in the Register unless the Head of the office has satisfied himself personally or by trustworthy recommendations, that the candidate is likely to turn out a useful servant of Government.

(3) In making selections from the Register, due regard shall be had to the desirability—
(i) of selecting the best man available with reference to general and special qualifications, and capacity for work, and
(ii) of preventing appointments in an office being virtually monopolised by individuals of one caste, sect or class.

*Revised Local Service Examination Rules, providing (among other things) for Higher and Lower grades under certain Tests, will be separately issued.

READ AGAIN—

Government Order No. R. 16591-629—L. R. 741-05-2, dated the 30th June 1906, laying down definite conditions for admission to the grade of Probationary Amildars (or Revenue Probationers).

---

1. The appointment of Probationers for the grades of Deputy Amildars and Amildars not being governed by any well defined principles, the Government of His Highness the Maharaja of Mysore think it desirable for the future to lay down some definite conditions for admission to the grade of Probationary Amildars.

2. With a view to reconcile the claims of officials already in the service with the exigencies of giving a proper start to young men who have a claim on the public service on the ground of the services rendered by their ancestors, it is ruled that Probationers, whose appointments will be as few as possible, shall, in future, ordinarily start on Rs. 50, and be attached to the offices of Deputy Commissioners for learning their duties. After a period of two years on probation and after they have passed the tests qualifying for Amildari and Deputy Amildari, they will occasionally be sent out to act as Deputy Amildars and Amildars, and when they have given satisfactory proofs of their eligibility for these executive appointments during a further period of one year, they will be appointed as Deputy Amildars or Amildars according to vacancies.

NO. R. 1638-76—L. R. 104-06-1, DATED BANGALORE, 6TH AUGUST 1906.

ORDER THEREON.—The publication of the recent order of Government regarding appointments of Revenue Probationers has led to the receipt of numerous applications from young men who consider themselves eligible for appointment as such. As there is evidently some misconception of the object with which the order in question was framed, the Government deem it necessary to make the following further remarks by way of explanation.

2. As a rule candidates desiring entrance into the lower grades of the public services must make application to the heads of the offices in which they desire to be entertained. Rules will shortly be published laying down the qualifications required for admission to ministerial appointments in the Revenue Department; and these will be followed later on by rules applicable to other Departments of the State where none already exist. It will be for the head of the office concerned to select the man whom he considers best qualified under the rules for a vacancy within his power of filling up.

3. There are, however, certain very rare cases in which a young man has to be started in life in a special manner, otherwise than by way of a footing in the clerical line; cases, namely, of young men who, besides being in all other respects duly qualified, have also a claim on the public service by reason of their high birth or the distinguished services rendered to the State by their ancestors. It is to meet such exceptional cases that the grade of Probationary Amildars, otherwise called Revenue Probationers, was intended, and not as a regular method of recruitment to the service open to all. All appointments to this grade, it should be understood, are made entirely at the pleasure and discretion of His Highness the Maharaja; and solicitations on the part of applicants not eligible as above will not receive attention.

4. The above remarks apply also to appointments of Judicial Probationers.

By Order,

K. S. CHANDRASEKHARA AIYAR,
Secy. to Govt., Gen. & Rev. Depts.

Notifications by the Government of His Highness the Maharaja of Mysore.

GENERAL AND REVENUE.

No. Fl. 1510—*Gen. Fin.* 280-04-38, *dated* 15*th August* 1906.

It is hereby notified for general information that, with effect from the 1st October 1906, the following changes will be made in the Mysore Government Savings Banks Rules now in force :—

Rule 1, clause IV, will be altered as follows :—

"Without the sanction of the Comptroller no account will be opened for less than one rupee and no person may deposit more than two thousand rupees in all between any 1st July and the 30th June next following. The total amount which a depositor may have at his credit at any time, exclusive of interest for the current year, should not also exceed Rs. 5,000."

For paragraph 1 of Rule 1, clause VII, the following should be substituted :—

"From 1st October 1906 until further notice, interest will be allowed upon deposits at the rate of one pie a month on every two rupees, which is equal to one anna for every twenty-four rupees, being at the rate of three and one-eighth per cent per annum. Without the sanction of the Comptroller no higher monthly interest will be allowed upon any balance than Rs. 13-0-4, being the interest upon Rs. 5,000."

Rule 10 should be altered as under :—

"10. The limit of Rs. 2,000 for a single depositor within one year may be exceeded only in the following cases :—

(1) A security deposit with a Government officer.

(2) A benevolent or quasi-public institution.

(3) A transfer from another taluk or district (Mysore Government) Savings Bank, so far as money transferred is not on account of deposits made in the current year.

In each case the reason for allowing it must be explained, in the monthly statement of deposits.

The limit of Rs. 2,000 is to be construed strictly; withdrawals must not be deducted in applying it."

2. The Comptroller to the Government of His Highness the Maharaja will issue further instructions regarding the payment of interest on deposits in excess of Rs. 5,000 on individual accounts and the work of calculation of such interest.

No. Fl. 1511—*Gen. Fin.* 280-04-39, *dated* 15*th August* 1906.

With the consent of the Government of India, the Government of His Highness the Maharaja of Mysore have decided to issue a four per cent loan to the extent of twenty lakhs of rupees to meet expenditure on productive works. As this loan is required at a time when heavy withdrawals from the Government Savings Banks are anticipated, it has been decided in the first place to offer the amount of the loan only to Savings Bank Depositors in repayment of the deposits.

2. Under Government Notification No. Fl. 1510—Gen. Fin. 280-04-38 of this date, the total deposits in the Government Savings Banks on individual accounts may not exceed Rs. 5,000 from 1st October 1906. Accordingly any depositor who has at present at his credit a balance in excess of Rs. 5,000 will be obliged either to withdraw such excess or will not get interest on such excess after 30th September at a rate of more than two per cent per annum.

3. Depositors in Government Savings Banks, the balances of whose deposits excluding interest exceed Rs. 5,000 on the 30th June 1906, are hereby given the option of receiving in lieu of cash in payment of such excess their equivalent at par of four per cent Pro-Notes of the Government of Mysore to be issued under this Notification.

4. The amount for which Promissory Notes will be issued in any case shall not exceed the total amount over and above Rs. 5,000 held at credit of the depositor on the 30th June 1906, provided that no Promissory Note will be issued for any sum less than Rs. 500 and all Notes issued will be for amounts which are an exact multiple of Rs. 100.

5. Promissory Notes will be issued under this Notification in the form given below. The loan will be called "The Four per cent Mysore State Loan of 1906-07." The interest on the loan is payable half-yearly on the 1st day of April and the 1st day of October, and the Notes are liable to discharge on the 1st October 1921.

6. Depositors in the Mysore Government Savings Banks who wish to exercise the option given by clause 3 of this Notification should apply to the Comptroller to the Government of His Highness the Maharaja of Mysore on or before the 15th of September 1906. The application, which should be enclosed in a sealed cover superscribed "Applications for the Four per cent Mysore State Loan of 1906-07," should state the amount for which the Promissory Notes are wanted and should also be accompanied by the Pass Book or Books of the depositor. If the amount stated in the application is not an exact multiple of Rs. 100, the Comptroller will take it at the nearest multiple of Rs. 100, subject to the limits prescribed by clause 4 of this Notification.

7. No application for issue of Pro-Notes under this Notification will be received after the 15th of September 1906. If the total of the applications received for which Pro-Notes may be issued under this Notification exceeds twenty lakhs of rupees, then the excess will, as far as possible, be rateably deducted from all the tenders received.

8. The Promissory Notes issued will bear interest from 1st of October 1906 and in the Savings Bank accounts the interest on the deposits converted into the loan will be calculated up to 30th September 1906.

9. All depositors who exercise the option given by clause 3 of this Notification before the end of August 1906 will be entitled to receive a commission of one-half per cent on the amount for which Pro-Notes may be issued to them.

10. No. R. 1678—*L. R.* 105-06-1, *dated 7th August* 1906.

With a view to improve the efficiency of the various grades of the ministerial establishments of the Revenue Department in Mysore, the Government of His Highness the Maharaja are pleased to prescribe the following rules, in supersession of all rules heretofore in force, to regulate admissions to, and promotions in, the said Department, with effect from the 1st October 1906 :

1. The Revenue Department for the purposes of these Rules shall comprise the following offices :—

(1) The office of the Revenue Commissioner and *ex-officio* Director of Statistics.
(2) The office of the Survey and Settlement Commissioner and all offices subordinate to him in his Department.
(3) The office of the Registrar of Co-operative Societies.
(4) The offices of Deputy and Assistant Commissioners in all their Branches.
(5) The offices of Amildars and Deputy Amildars in all their Branches.

2. These Rules shall in no wise affect the promotion of persons who held permanent appointments before the Rules came into force, provided their promotion was not already barred by any rules previously in force.

3. No person shall be eligible for appointment to a post carrying a pay of less than Rs. 15 per mensem but classed as superior in the Mysore Service Regulations, or to any of the marginally specified posts* classed as inferior therein, unless the officer appointing him is satisfied as to his ability to read and write Kanarese with facility. Provided that, as between a candidate who has passed the Mysore Lower Secondary or other higher examination and an unpassed candidate, the former shall have the preference.

* Clerks, Daftarbands, Mutchis and Gollars.

4. No person shall be eligible for appointment to a post classified as superior in the Service Regulations, and carrying a pay of Rs. 15 and upwards but below Rs. 25, unless he produces a certificate of having passed at least the Mysore Lower Secondary Examination in Kanarese or English, or some other examination accepted by the Government as equivalent to it for the purposes of these Rules, and unless the officer appointing him is satisfied as to his ability to read and write Kanarese with facility.

Exception.—The examination qualification prescribed in this rule shall not apply to the posts of Shroffs and Assistant Shroffs.

5. No person shall be eligible for appointment to a post carrying Rs. 25 and upwards, unless he has passed at least the Matriculation Examination of an Indian University.

6. Any Deputy Commissioner who, owing to the paucity of duly qualified candidates for an appointment of the kind referred to in Rule 4 or 5 in his own office or in an office subordinate to him deems it necessary to appoint or to permit the appointment of another candidate not so qualified, shall obtain the sanction of the Revenue Commissioner for such appointment. Such sanction shall not be given unless the existence of the vacancy is notified in three successive issues of Part II of the *Mysore Gazette*, and no applications from qualified candidates are

forthcoming in response to such Notification within a month of the last publication. In the interim it shall be competent to the Deputy Commissioner to fill up the vacancy temporarily with such person as he may select.

7. A fair proportion of the vacancies in the offices of Deputy and Assistant Commissioners shall be filled by the selection of Taluk Gumastas of approved qualifications, conduct and efficiency.

[*Note.*—This will very materially increase the working power of controlling offices, because of the practical experience which such clerks will bring to the discharge of their duties. Moreover, passed men will not be slow to take up appointments in Taluk Offices, if sufficient inducement in the shape of prospects of a regular flow of promotion is offered to them. One of the causes of the inefficiency of these establishments is that service in the taluk ordinarily leads to nothing better.]

8. At the end of every official year, Deputy Commissioners shall cause to be prepared a list showing the names, pay, qualifications and length of service of all Taluk Gumastas in their Districts, and the promotions given to the qualified among them during the year, and forward the same to the Revenue Commissioner.

9. Not less than a fourth of the total number of vacancies among Taluk Sheristadars during each official year shall be filled by persons chosen from among the most capable and qualified Shekdars, and not less than a fourth by persons chosen from among the most capable and qualified Taluk Head Gumastas, the remaining vacancies being filled by duly qualified clerks in other offices of the Revenue Department.

10. The claims of candidates for *admission* to the clerical establishments of the Revenue Department shall be accorded preference in the following order:—

(1) Graduates.
(2) Candidates who have passed the First Examination in Arts.
(3) Qualified candidates who hold a certificate from any recognized College of Agriculture.
(4) Candidates who have passed the Matriculation Examination.
(5) Candidates who have passed the Mysore Lower Secondary Examination in Kanarese or English or some other equivalent Examination.

11. In awarding *promotions*, preference shall be given to—

(1) Graduates and non-graduates who have passed the Local Service Departmental Tests over men who have not passed such tests.
(2) Graduates who have not passed the Departmental Tests over non-graduates of similar standing in the service, who have also not passed such tests.

Explanation 1.—Clause (2) does not contemplate rapid promotion of a junior unpassed graduate over the heads of non-graduate seniors of long and approved service.

Explanation 2.—All preferential claims to promotion under this Rule are subject to the condition that the claimant has proved himself deserving thereof by efficiency and good conduct.

12. Graduates who have undergone training for a period of not less than six months in the Account Branch, and not less than six months in the Revenue Branch, of a Taluk Office, and for not less than a year as Shekdars, shall, if otherwise qualified by passing the Local Service Departmental Tests, have preferential claims over other graduates of a similar standing, and over candidates of less general educational qualifications of longer standing, for the following offices:—

(1) Taluk Sheristadar, (2) Revenue Head Munshi, Deputy Commissioner's office and (3) Head Clerk, Assistant Commissioner's office.

Deputy Commissioners are requested to afford special facilities for graduates who desire to qualify themselves under this rule.

13. Government have delegated to the officers mentioned below the power of sanctioning exemptions from general education tests, in respect of the appointments specified in each case:—

1. To the Revenue Commissioner.—Acting appointments in the offices of Deputy Commissioners, Assistant Commissioners, Amildars and Deputy Amildars, lasting for any length of time, when the acting allowance available is not more than Rs. 15 per mensem.
2. To the Deputy Commissioners of Districts, excepting Bangalore and Mysore.—Acting appointments in their own offices and in those of Assistant Commissioners, Amildars and Deputy Amildars, lasting for not more than six months, when the acting allowance available is not more than Rs. 15 per mensem.
3. To the Deputy Commissioners of Mysore and Bangalore.—Acting appointments as aforesaid, lasting for not more than three months; provided the acting allowance does not exceed Rs. 15 per mensem.
4. To the Survey and Settlement Commissioner.—Acting appointments in his own office and in offices subordinate to him, lasting for not more than a year, provided the acting allowance does not exceed Rs. 15 per mensem.

*14. No one shall be appointed to any of the appointments mentioned below unless he has passed the test or tests shown against it :—

(1) Any appointment in the Account Branch of the Deputy Commissioners's office.	Account Test.
(2) Taluk Sheristadar	Revenue and Criminal Tests (Lower Grade), and Account Test.
(3) Head Clerk, Revenue Head Munshi and Judicial Head Munshi of the Deputy Commissioner's office; and Head Clerk, Assistant Commissioner's office.	Revenue and Criminal Tests (Lower Grade).
(4) Head Clerk in the office of Revenue Commissioner or Survey and Settlement Commissioner.	Revenue Test (Higher Grade).
(5) District Sheristadar.	Revenue and Criminal Tests (Higher Grade) and Account Test.

15. (1) Each Head of an office empowered to appoint shall maintain a Register of all applicants for admission, showing each candidate's name, father's name, caste, date of birth, native place, educational qualifications, tests passed with dates, reference to testimonials and recommendations, names and appointments of relatives, if any, then or previously in Government Service, and any other details that may be found necessary or convenient.

(2) No name shall be entered in the Register unless the Head of the office has satisfied himself personally or by trustworthy recommendations, that the candidate is likely to turn out a useful servant of Government.

(3) In making selections from the Register, due regard shall be had to the desirability—

(i) of selecting the best man available with reference to general and special qualifications, and capacity for work, and

(ii) of preventing appointments in an office being virtually monopolised by individuals of one caste, sect or class.

(*j*) Every proceeding held by the arbitrators or umpire under this section shall be deemed to be a judicial proceeding within the meaning of sections 193, 219 and 228 of the Indian Penal Code.

OFFICIAL MEMORANDUM.

A compilation of "Retail Prices of some principal articles of food in Mysore" was first issued in March 1901, for 1900 and previous years. In the subsequent issues which were published, from time to time, in the *Mysore Gazette*, opportunity was taken to correct the errors, if any, in the previous editions and the present issue is the fourth of its kind. This contains figures for 1905 and those for previous years. It differs from the third issue in Table D "Variations in the annual average" being omitted and the opening of a new column in Table B. "Average fortnightly Prices" to show ten years' average of fortnightly prices ending with 1905.

2. Though this is a compilation from the Prices Current returns relating to thirteen kinds of marginally noted food-stuffs, the publication is confined to the six principal articles of food, *viz.*, rice first sort, rice second sort, ragi, cholam, Bengal gram or chenna and salt.

1 Wheat
2 Barley.
3 Rice, best sort.
4 Rice, common.
5 Javar or cholam
6 Bajra or kambu.
7 Ragi.
8 Italian millet.
9 Bengal gram.
10 Maize.
11 Arhar or Thurcadjou pea.
12 Arhar dal.
13 Salt.

3. The prices given herein relate to retail prices and are based upon the returns furnished every fortnight by Deputy Commissioners as being the average of the prices which prevailed in the several Taluk head-quarters of the District. Should there be more than one market in a Taluk, the Taluk return will be the average of the prices that ruled in those markets.

4. The prices quoted are expressed in seers and decimals of a seer (the standard seer of eighty tolas per rupee).

5. This compilation consists of 4 parts *viz.*, A, B, C(1) and C(2). Part A shows the annual and quinquennial averages for forty-five years (since 1861) in the case of Bangalore and Mysore, and for twenty years (since 1886) in the case of Kolar, Tumkur, Hassan, Kadur, Shimoga and Chitaldrug. Part B gives the fortnightly averages for a series of years from 1886.

6. Part C (1) exhibits the variations in value, the prices for 1871-75 being represented by 100 in Mysore and Bangalore and Part C(2) similarly shows the variations in value in the other Districts, the prices for 1886 being again represented by 100.

7. A set of districtvar diagrams illustrating the variations in the average annual prices of rice second sort, ragi, Bengal gram and salt are appended to the compilation. The charts illustrate the course of prices since 1886.

Director of Agricultural and other Statistics in Mysore.

EXTRAORDINARY.

PUBLISHED BY AUTHORITY.

BANGALORE, WEDNESDAY, AUGUST 15, 1906.

NOTIFICATIONS.

No. Fl. 1510—*Gen. Fin.* 280-04-38, *dated* 15*th August* 1906.

It is hereby notified for general information that, with effect from the 1st October 1906, the following changes will be made in the Mysore Government Savings Banks Rules now in force:—

Rule 1, clause IV, will be altered as follows:—

"Without the sanction of the Comptroller no account will be opened for less than one rupee and no person may deposit more than two thousand rupees in all between any 1st July and the 30th June next following. The total amount which a depositor may have at his credit at any time, exclusive of interest for the current year, should not also exceed Rs. 5,000."

For paragraph 1 of Rule 1, clause VII, the following should be substituted:—

"From 1st October 1906 until further notice, interest will be allowed upon deposits at the rate of one pie a month on every two rupees, which is equal to one anna for every twenty-four rupees, being at the rate of three and one-eighth per cent per annum. Without the sanction of the Comptroller no higher monthly interest will be allowed upon any balance than Rs. 13-0-4, being the interest upon Rs. 5,000."

Rule 10 should be altered as under:—

"10. The limit of Rs. 2,000 for a single depositor within one year may be exceeded only in the following cases:—

(1) A security deposit with a Government officer.

(2) A benevolent or quasi-public institution.

(3) A transfer from another taluk or district (Mysore Government) Savings Bank, so far as money transferred is not on account of deposits made in the current year.

In each case the reason for allowing it must be explained, in the monthly statement of deposits.

The limit of Rs. 2,000 is to be construed strictly; withdrawals must not be deducted in applying it."

2. The Comptroller to the Government of His Highness the Maharaja will issue further instructions regarding the payment of interest on deposits in excess of Rs. 5,000 on individual accounts and the work of calculation of such interest.

No. Fl. 1511—*Gen. Fin.* 280-04-39, *dated* 15*th August* 1906.

With the consent of the Government of India, the Government of His Highness the Maharaja of Mysore have decided to issue a four per cent loan to the extent of twenty lakhs of rupees to meet expenditure on productive works. As this loan is required at a time when heavy withdrawals from the Government Savings Banks are anticipated, it has been decided in the first place to offer the amount of the loan only to Savings Bank Depositors in repayment of the deposits.

2. Under Government Notification No. Fl. 1510—Gen. Fin. 280-04-38 of this date, the total deposits in the Government Savings Banks on individual accounts may not exceed Rs. 5,000 from 1st October 1906. Accordingly any depositor who has at present at his credit a balance in excess of Rs. 5,000 will be obliged either to withdraw such excess or will not get interest on such excess after 30th September at a rate of more than two per cent per annum.

3. Depositors in Government Savings Banks, the balances of whose deposits excluding interest exceed Rs. 5,000 on the 30th June 1906, are hereby given the option of receiving in lieu of cash in payment of such excess their equivalent at par of four per cent Pro-Notes of the Government of Mysore to be issued under this Notification.

4. The amount for which Promissory Notes will be issued in any case shall not exceed the total amount over and above Rs. 5,000 held at credit of the depositor on the 30th June 1906, provided that no Promissory Note will be issued for any sum less than Rs. 500 and all Notes issued will be for amounts which are an exact multiple of Rs. 100.

5. Promissory Notes will be issued under this Notification in the form given below. The loan will be called "The Four per cent Mysore State Loan of 1906-07." The interest on the loan is payable half-yearly on the 1st day of April and the 1st day of October, and the Notes are liable to discharge on the 1st October 1921.

6. Depositors in the Mysore Government Savings Banks who wish to exercise the option given by clause 3 of this Notification should apply to the Comptroller to the Government of His Highness the Maharaja of Mysore on or before the 15th of September 1906. The application, which should be enclosed in a sealed cover superscribed "Applications for the Four per cent Mysore State Loan of 1906-07," should state the amount for which the Promissory Notes are wanted and should also be accompanied by the Pass Book or Books of the depositor. If the amount stated in the application is not an exact multiple of Rs. 100, the Comptroller will take it at the nearest multiple of Rs. 100, subject to the limits prescribed by clause 4 of this Notification.

7. No application for issue of Pro-Notes under this Notification will be received after the 15th of September 1906. If the total of the applications received for which Pro-Notes may be issued under this Notification exceeds twenty lakhs of rupees, then the excess will, as far as possible, be rateably deducted from all the tenders received.

8. The Promissory Notes issued will bear interest from 1st of October 1906 and in the Savings Bank accounts the interest on the deposits converted into the loan will be calculated up to 30th September 1906.

9. All depositors who exercise the option given by clause 3 of this Notification before the end of August 1906 will be entitled to receive a commission of one-half per cent on the amount for which Pro-Notes may be issued to them.

10. In the event of the whole of the sum of twenty lakhs not being allotted to Savings Bank Depositors in the manner indicated, the Government of His Highness the Maharaja of Mysore reserve to themselves the right to raise the balance by public tender or in any other way as may be considered expedient.

11. The Comptroller will furnish all further information that may be required by intending applicants and will issue instructions to the Treasuries regarding adjustment in the Savings Bank Ledgers of transactions connected with the loan.

No. R. 1678—*L. R.* 105-06-1, *dated 7th August* 1906.

With a view to improve the efficiency of the various grades of the ministerial establishments of the Revenue Department in Mysore, the Government of His Highness the Maharaja are pleased to prescribe the following rules, in supersession of all rules heretofore in force, to regulate admissions to, and promotions in, the said Department, with effect from the 1st October 1906 :

1. The Revenue Department for the purposes of these Rules shall comprise the following offices :—

(1) The office of the Revenue Commissioner and *ex-officio* Director of Statistics.
(2) The office of the Survey and Settlement Commissioner and all offices subordinate to him in his Department.
(3) The office of the Registrar of Co-operative Societies.
(4) The offices of Deputy and Assistant Commissioners in all their Branches.
(5) The offices of Amildars and Deputy Amildars in all their Branches.

2. These Rules shall in no wise affect the promotion of persons who held permanent appointments before the Rules came into force, provided their promotion was not already barred by any rules previously in force

3. No person shall be eligible for appointment to a post carrying a pay of less than Rs. 15 per mensem but classed as superior in the Mysore Service Regulations, or to any of the marginally specified posts* classed as inferior therein, unless the officer appointing him is satisfied as to his ability to read and write Kanarese with facility. Provided that, as between a candidate who has passed the Mysore Lower Secondary or other higher examination and an unpassed candidate, the former shall have the preference.

* Clerks, Daftarbands, Mutchis and Gollars.

4. No person shall be eligible for appointment to a post classified as superior in the Service Regulations, and carrying a pay of Rs. 15 and upwards but below Rs. 25, unless he produces a certificate of having passed at least the Mysore Lower Secondary Examination in Kanarese or English, or some other examination accepted by the Government as equivalent to it for the purposes of these Rules, and unless the officer appointing him is satisfied as to his ability to read and write Kanarese with facility.

Exception.—The examination qualification prescribed in this rule shall not apply to the posts of Shroffs and Assistant Shroffs.

5. No person shall be eligible for appointment to a post carrying Rs. 25 and upwards, unless he has passed at least the Matriculation Examination of an Indian University.

6. Any Deputy Commissioner who, owing to the paucity of duly qualified candidates for an appointment of the kind referred to in Rule 4 or 5 in his own office or in an office subordinate to him deems it necessary to appoint or to permit the appointment of another candidate not so qualified, shall obtain the sanction of the Revenue Commissioner for such appointment. Such sanction shall not be given unless the existence of the vacancy is notified in three successive issues of Part II of the *Mysore Gazette*, and no applications from qualified candidates are forthcoming in response to such Notification within a month of the last publication. In the interim it shall be competent to the Deputy Commissioner to fill up the vacancy temporarily with such person as he may select.

7. A fair proportion of the vacancies in the offices of Deputy and Assistant Commissioners shall be filled by the selection of Taluk Gumastas of approved qualifications, conduct and efficiency.

[*Note.*—This will very materially increase the working power of controlling offices, because of the practical experience which such clerks will bring to the discharge of their duties. Moreover, passed men will not be slow to take up appointments in Taluk Offices, if sufficient inducement in the shape of prospects of a regular flow of promotion is offered to them. One of the causes of the inefficiency of these establishments is that service in the taluk ordinarily leads to nothing better.]

8. At the end of every official year, Deputy Commissioners shall cause to be prepared a list showing the names, pay, qualifications and length of service of all Taluk Gumastas in their Districts, and the promotions given to the qualified among them during the year, and forward the same to the Revenue Commissioner.

9. Not less than a fourth of the total number of vacancies among Taluk Sheristadars during each official year shall be filled by persons chosen from among the most capable and qualified Shekdars, and not less than a fourth by persons chosen from among the most capable and qualified Taluk Head Gumastas, the remaining vacancies being filled by duly qualified clerks in other offices of the Revenue Department.

10. The claims of candidates for *admission* to the clerical establishments of the Revenue Department shall be accorded preference in the following order :—

(1) Graduates.
(2) Candidates who have passed the First Examination in Arts.
(3) Qualified candidates who hold a certificate from any recognized College of Agriculture.

(4) Candidates who have passed the Matriculation Examination.
(5) Candidates who have passed the Mysore Lower Secondary Examination in Kanarese or English or some other equivalent Examination.

11. In awarding *promotions*, preference shall be given to—
(1) Graduates and non-graduates who have passed the Local Service Departmental Tests over men who have not passed such tests.
(2) Graduates who have not passed the Departmental Tests over non-graduates of similar standing in the service, who have also not passed such tests.

Explanation 1.—Clause (2) does not contemplate rapid promotion of a junior unpassed graduate over the heads of non-graduate seniors of long and approved service.

Explanation 2.—All preferential claims to promotion under this Rule are subject to the condition that the claimant has proved himself deserving thereof by efficiency and good conduct.

12. Graduates who have undergone training for a period of not less than six months in the Account Branch, and not less than six months in the Revenue Branch, of a Taluk Office, and for not less than a year as Shekdars, shall, if otherwise qualified by passing the Local Service Departmental Tests, have preferential claims over other graduates of a similar standing, and over candidates of less general educational qualifications of longer standing, for the following offices:—

(1) Taluk Sheristadar, (2) Revenue Head Munshi, Deputy Commissioner's office and (3) Head Clerk, Assistant Commissioner's office.

Deputy Commissioners are requested to afford special facilities for graduates who desire to qualify themselves under this rule.

13. Government have delegated to the officers mentioned below the power of sanctioning exemptions from general education tests, in respect of the appointments specified in each case:—

1. To the Revenue Commissioner.—Acting appointments in the offices of Deputy Commissioners, Assistant Commissioners, Amildars and Deputy Amildars, lasting for any length of time, when the acting allowance available is not more than Rs. 15 per mensem.
2. To the Deputy Commissioners of Districts, excepting Bangalore and Mysore.—Acting appointments in their own offices and in those of Assistant Commissioners, Amildars and Deputy Amildars, lasting for not more than six months, when the acting allowance available is not more than Rs. 15 per mensem.
3. To the Deputy Commissioners of Mysore and Bangalore.—Acting appointments as aforesaid, lasting for not more than three months, provided the acting allowance does not exceed Rs. 15 per mensem.
4. To the Survey and Settlement Commissioner.—Acting appointments in his own office and in offices subordinate to him, lasting for not more than a year, provided the acting allowance does not exceed Rs. 15 per mensem.

*14. No one shall be appointed to any of the appointments mentioned below unless he has passed the test or tests shown against it:—

(1) Any appointment in the Account Branch of the Deputy Commissioners's office.	Account Test.
(2) Taluk Sheristadar.	Revenue and Criminal Tests (Lower Grade), and Account Test.
(3) Head Clerk, Revenue Head Munshi and Judicial Head Munshi of the Deputy Commissioner's office; and Head Clerk, Assistant Commissioner's office.	Revenue and Criminal Tests (Lower Grade).
(4) Head Clerk in the office of Revenue Commissioner or Survey and Settlement Commissioner.	Revenue Test (Higher Grade).
(5) District Sheristadar.	Revenue and Criminal Tests (Higher Grade) and Account Test.

15. (1) Each Head of an office empowered to appoint shall maintain a Register of all applicants for admission, showing each candidate's name, father's name, caste, date of birth, native place, educational qualifications, tests passed with dates, reference to testimonials and recommendations, names and appointments of relatives, if any, then or previously in Government Service, and any other details that may be found necessary or convenient.

(2) No name shall be entered in the Register unless the Head of the office has satisfied himself personally or by trustworthy recommendations, that the candidate is likely to turn out a useful servant of Government.

(3) In making selections from the Register, due regard shall be had to the desirability—
(i) of selecting the best man available with reference to general and special qualifications, and capacity for work, and
(ii) of preventing appointments in an office being virtually monopolised by individuals of one caste, sect or class.

* Revised Local Service Examination Rules, providing (among other things) for Higher and Lower grades under certain Tests will be separately issued.

TREASURY ACCOUNT.

ANNUAL RETURNS OF ESTABLISHMENTS FOR 1ST JULY 1906.

Circular No. T. A. 1096—194, *dated* 14—18*th August* 1906.

1. The Comptroller has the honor to request that the Public Officers named below will be so good as to furnish this office with their Annual Returns of fixed establishments for the 1st July 1906, prepared in accordance with the instructions laid down in pages 25, 26 and 27 (Chapter 5), Volume 1 of the Sixth Edition of the Civil Account Code, *so as to reach this office not later than the* 15*th August* 1906.

2. The returns should be prepared on *no other* than the prescribed *printed* form to be had from the Superintendent of Stationery, and will show accurately the establishment as it exists on 1st July; and in preparing it, the following instructions should be carefully attended to:—

(*a*) The name, designation, and pay of every gazetted officer, clerk, or menial servant holding a permanent appointment, whether on duty or absent on leave, or deputation, or under suspension, should be distinctly shown, with the exception of those exempted from keeping service books by Article 431 of the Mysore Service Regulations.

(*b*) The date of birth, year, month and day of the appointment and of appointment to present post, and of promotion to present pay of each person, as well as the number and date of the Government Orders creating the post, should be clearly entered in the appropriate columns of the statement, the date of birth by Christian era should be given, and if the exact date is not known, the approximate date or year should be stated. This date can only be altered under the orders of the Local Government, except in the case of a clerical error. It should be noted that the column "Promotion to present pay" is to be filled in, only when the pay is progressive and the incumbent of the appointment is drawing pay in excess of the minimum.

(*c*) The return should show accurately the sanctioned scale of *permanent establishment*, and so will include every post, whether filled up or not; and if a post be vacant, the word *vacant* should be set against it in the column of "*Name of Incumbent.*"

(*d*) The names of *gazetted officers should be entered first*, and beneath them those of the clerks and servants in order of sections of the establishment: *there should be a separate total for each section*, besides the grand total.

(*e*) The columns of *Minimum* and *Maximum* pay of post should be filled up *only* when the pay is progressive, *i.e.*, rises from a minimum to a maximum by annual increment; and if any annual increment is given with effect from 1st July, it should be included in the return, and compared with the certificate (in Form No. 8) required by Article 62, which would accompany the July bill.

(*f*) The name of any person acting in an appointment, as well as the acting allowance paid to him, should be shown in the column "*Name of Incumbent*" beneath the name of the absentee for whom he is officiating.

(*g*) If the acting incumbent holds his permanent appointment upon another establishment, the fact should be stated, and the entry should be supported by a certificate from the head of that other establishment.

(*h*) If any person on the establishment has attained the age of fifty-five years, the number and date of the orders of Government or other competent authority permitting his retention in the service, should be quoted in a note at foot of the return, and the period for which his retention has been authorized should also be mentioned. If no orders have been received, the number and date of the application for sanction to his retention should be noted.

(*i*) A detailed statement in Form 4 should be given at back of the original return, Form 3, showing new names of non-gazetted officers which are not found in the return of the previous year; and when these new names include those of persons who have entered Government service for the first time, a reference should be given to the bill with which their age and health certificates were furnished; and if they include the names of persons transferred from another appointment, those appointments should be specified, as well as the date from which the transfers have effect. Columns are also provided in Form 4 for information required in regard to the names of non-gazetted officers which appeared in Form No. 3 of the previous year, but are now omitted, as also regarding non-gazetted officers who have been on leave other than privilege or casual, or under suspension, during the

previous year. In the case of any who have been under suspension, a note is required stating whether it has been expressly declared that the period of suspension shall count as service qualifying for pension (Article 269 of the Mysore Service Regulations).

(*j*) Separate returns on the same printed forms should be prepared for each permanent establishment existing on 1st July paid from *Local Funds*, and not more than one establishment should be exhibited on a single page. When the pay of any establishment or of any individual officer is met partly from General Revenues and partly from Local or other funds, the whole pay should be shown in one statement, and the portion payable from each source specified in a foot-note.

3. When completed in accordance with the above instructions, the detailed statement should be carefully checked with the service books, save in the cases excepted in clause (*a*) as it will be the chief authority by which hereafter pension claims will be tested. A certificate of this comparison should be endorsed on the return thus: "Compared with service books and found to agree."

4. This return should be accompanied by an abstract, which will link together the gross numbers shown in the budget estimate of each establishment and the nominal rolls in the book of establishment.

5. Slips of paper should not be attached at foot of the returns, but if space is found insufficient, application should be made to the Stationery Department for a sufficient supply of forms for insertion in book form. In cases where more than one sheet is required to be used, care should be taken to have the sheets stitched in book form before the entries are made therein.

16. Any person being the tenant or occupier or reputed tenant or occupier of any premises, at the time when any unwrought gold or mining material reasonably suspected of being stolen or unlawfully obtained is found thereon and seized by any police officer, shall be deemed to have been in possession of such unwrought gold or mining material within the meaning of section 12 or 6, as the case may be, until he proves the contrary.

Liability of unemployed person ordered off any mine or cooly colony.

Notice of defects by Inspector of Mines.

28. If the Inspector of Mines finds that in any mining operation, the provisions of this Regulation or of the rules thereunder are not duly observed, or that any mine or part thereof or any matter, thing or practice in or connected with such mine, or with the control, management or direction thereof, is dangerous to human life or safety, or defective so as to threaten or tend to the bodily injury of any person, he may give notice in writing to the Mining Proprietor or his Superintendent, stating the particulars in which he considers the provisions of this Regulation or the rules aforesaid are not observed, or the mine or any part thereof or any matter, thing or practice is dangerous or defective, and require the same to be remedied within a specified time.

Report to Magistrate and Government.

29. The Inspector of Mines shall forthwith forward to the Magistrate of the District, and to any other Magistrate specially empowered by the Government, a copy of every notice under section 28 which requires anything to be done or remedied so as to prevent danger to human life or safety, and he shall also report to such Magistrate as aforesaid the compliance or non-compliance with every such notice as aforesaid.

The Inspector of Mines shall report to the Government every non-compliance with a notice issued under section 28.

Objection by Mining Proprietor.

30. If the Mining Proprietor or his Superintendent objects to comply with any requisition in a notice under section 28, he may, within ten days after receipt of the notice, send his objection in writing, stating the grounds thereof, to the Government, and thereupon the matter shall be determined by arbitration in the manner provided by this Regulation.

Provided that nothing in this section shall affect the powers of a Magistrate under section 144 of the Code of Criminal Procedure.

Rules for Arbitrations.

31. Arbitrations under this Regulation shall be conducted in accordance with the following provisions:—

(*a*) Within fourteen days after the lodging of an objection under the last preceding section, the Mining Proprietor or Superintendent, and the Inspector of Mines on behalf of the Government, who shall both be deemed to be parties to the arbitration, shall each nominate an arbitrator.

(*b*) The arbitrators, before entering upon their duties shall nominate another person as umpire.

(*c*) No person who has no knowledge of mining work shall be an arbitrator, and no person who is not a Justice of the Peace or a District Judge or a Magistrate of the First Class shall be an umpire; nor shall any person act as arbitrator or umpire who is employed or interested in the management of the mine to which the arbitration relates. Every objection to the qualification of an arbitrator shall be preferred in writing at the earliest opportunity to the Magistrate of the District, whose decision thereon shall be final:

Provided that no such objection shall be taken after the award has been made.

(*d*) If the arbitrator appointed by either party fails to proceed with the arbitration for seven days consecutively, or if he cannot proceed with it owing to death, sickness or other cause, the other party may, by notice in writing, require the appointment of another person in his place.

(*e*) If the umpire similarly fails to act in the matter of arbitration, either party may call on the arbitrators to appoint another person in his place.

(*f*) If, within seven days after the receipt of a notice under clause (*d*) or (*e*), no new arbitrator or umpire has been appointed, or where the arbitrators do not agree to appoint an umpire, the District Magistrate shall, on the application of any of the parties, appoint a proper person as arbitrator or umpire, as the case may be.

(*g*) The arbitrators or the umpire, as the case may be, may examine the parties and their witnesses on oath; and for this purpose, any Magistrate having local jurisdiction shall, on their requisition in writing, summon the witnesses to appear before them or produce documents in their possession.

(*h*) When both the arbitrators are agreed on the matters referred to them, their decision shall be final; but whenever there is a difference on all or any of such matters, the matters in difference shall be submitted to the umpire, whose decision thereon shall be final.

(*i*) The payment (if any) to be made to an arbitrator or umpire for his services shall be fixed by the Government; and, together with the costs of the arbitration or award (to be taxed as in a proceeding in a Civil Court), shall be paid by the parties or one of them as the award may direct.

(*j*) Every proceeding held by the arbitrators or umpire under this section shall be deemed to be a judicial proceeding within the meaning of sections 193, 219 and 228 of the Indian Penal Code.

(*k*) The Government may, from time to time, make such additional rules as it may deem necessary for the conduct of arbitrations under this Regulation, but not so as to be inconsistent with any of its provisions.

Penalty for non-compliance with Inspector's order or award of arbitrators.

32. Any person who intentionally or negligently omits to comply with a notice under section 28 except when an objection has been duly lodged under section 30 or with the terms of an award made under section 31, shall, for every such omission, be liable to a fine not exceeding one thousand rupees; and in case the omission has been intentional, to a further fine not exceeding one hundred rupees for each day the omission continues:

Provided that the Court, if satisfied that the Mining Proprietor or Superintendent has taken active measures for complying with the notice or award, but has not with reasonable diligence been able to complete the works, may adjourn the proceedings taken before it for punishing the offence, and if the works are completed within a reasonable time, no penalty shall be inflicted.

Imprisonment for offences calculated to endanger the safety of persons.

33. Where any person is guilty of any offence under this Regulation which, in the opinion of the Magistrate who tries the case, is one which was reasonably calculated to endanger the safety of any person or cause serious personal injury to any person or to cause a dangerous accident, and was committed by the personal act, personal default, or personal negligence of the person accused, such person shall be liable, if the Court is of opinion that a pecuniary penalty will not meet the circumstances of the case, to imprisonment of either description for a period not exceeding three months.

SANITATION.

Power of Government to make rules for sanitation and sanitary administration.

34. (*1*) The Government may, from time to time, make rules for the special sanitation and sanitary administration of any local area within which mining operations may be carried on.

(*2*) In particular, and without prejudice to the generality of the foregoing provision, such rules may provide—

(*a*) for regulating the disposal of kitchen and stable refuse, animal refuse of all kinds, and night-soil or other such offensive matter;

(*b*) for conserving and guarding against pollution all sources of water-supply;

(*c*) for preventing overcrowding in bazaars, in cooly lines, and in streets or houses for work-people or others;

(*d*) for the proper cleansing of drains, sewers, latrines and urinals;

(*e*) for regulating the keeping of cattle and other animals, the location of sheds for them, and the fixing or licensing of slaughter-houses; and authorizing the levy of rent or fees for the use of the same or a fee on each animal slaughtered therein at such rates as may be prescribed from time to time; and

(*f*) for the proper and timely treatment of persons affected with cholera or other epidemic disease, and for preventing the spread of such disease by temporarily prohibiting persons affected or suspected to be affected with it from moving to or from particular specified places or travelling on particular specified routes.

(*3*) The local area for which the rules under this section are made shall be described in a notification published in the official Gazette.

Constitution of a Sanitary Board.

35. (*1*) For the purpose of carrying out the rules made under the last preceding section, the Government may appoint any persons, official or non-official or both, residing within or in the vicinity of such area, to constitute a Sanitary Board, and invest such Board with powers for the enforcement of the said rules, and prescribe the mode in which such Board shall conduct its business for carrying out the said rules.

(2) The powers with which the Sanitary Board may be invested under this section include—

(*a*) power to prescribe bye-laws, with the previous sanction of Government, for the special sanitation of the area under its authority and for the conduct of its business;

(*b*) power to levy, with the like sanction, such tax, rate or cess within the said area as a Municipal Council would be competent to levy under the law in force relating to Municipalities.

Punishment for breach of rules and bye-laws.

36. For every breach of a rule made under section 34 or of a bye-law made under section 35 the offender shall be liable to a fine not exceeding rupees one hundred.

37. The Government may frame rules requiring the delivery of periodical returns of work done, workmen employed, the outturn from the mine of minerals and mineral ores, and such other information as the Government may think fit to demand; and for the furnishing of samples of quartz and other rocks and minerals mined or met with in the course thereof, and prescribe a fine not exceeding one hundred rupees for every breach of such rules.

Abetment of offences under this Regulation.

38. The abetting (within the meaning of the Indian Penal Code) of any offence under this Regulation shall be punishable in the same manner as the offence itself.

ABSTRACT.—Introducing the system of sale of quinine in 7-grain pice powders from 1st February 1905.

Letter—from W. M. STANDEN, Esq., Director of Government Cinchona Plantations, the Nilgiris.
To—the Secretary to Government, Revenue Department.
Dated—Ootacamund, the 14th May 1906.
No.—26.

With reference to the rules for the sale of quinine at Post offices, sanctioned by Government in G. O. No. 1387, Revenue, dated 20th December 1904, I have the honour to enclose a copy of a letter from the Postmaster-General, Madras, bringing to notice that the stock of quinine held by Postmasters of small offices is unduly large, and suggesting that the number of packets held as a permanent advance at branch offices should be reduced from 7 to 3.

2. I agree with the Postmaster-General's views, and enclose for the approval of Government a revised set of rules, drawn up by the Postmaster-General, embodying the above suggestion.

ENCLOSURES.

Letter—from the Superintendent of Post offices, Trichinopoly division.
To—the Postmaster-General, Madras.
Dated—the 20th January 1906.
No- 2769.

I have the honour to state that it seems to me that the stock of quinine that is now allowed to remain in Post offices is much too large. It may be necessary to keep such a large stock in malarious districts, but in Trichinopoly and Salem districts, there is absolutely no need to keep so much. On the average only about half a dozen powders are sold by a sub-office in this division in a month, and the number sold by a branch office during the same period is only one or two. The powders that remain in stock are not as carefully kept, as they ought to be, and especially in extra departmental branch offices where all the records have to be crammed in a small box, the quinine powders get crushed and damaged. The stock that is now kept (*viz.*, 714 powders) would probably be sufficient to meet the demands in an average extra departmental branch office for 15 years, and it seems to me that it would be desirable to reduce the stock at least in extra departmental branch offices to 306 powders (three packets).

Letter—from the Postmaster-General, Madras.
To—the Director of Government Cinchona Plantations, the Nilgiris.
Dated—the 12th April 1906.
No.—M. 818-45.

In forwarding herewith copy of a communication No. 2769, dated the 20th January 1906, from the Superintendent of Post offices, Trichinopoly division, to my address, I have the honour to say that the stock of quinine held by Post offices at present are much too large, and that I quite agree in thinking that three packets is an ample stock for small offices. Further, there is danger of the drug losing all its efficacy if retained for more than a year exposed to the atmosphere. In these circumstances I beg to enquire whether you have any objection to the present stock of quinine being reduced from seven to three packets, in all the branch offices, except those in the Shimoga division.

Order—No. 610, Revenue, dated 2nd July 1906.

Miscellaneous.

In Rule 1, the Native States of Sandur and Banganapalle will be included.

2. The Rules, as amended, will be published in the *Fort St. George Gazette* and in the District Gazettes in English and the chief vernacular languages.

3. The amount to be accounted for by the Post office on each packet will be Rs. 1-8-0 and the one-and-a-half anna in excess which will be realized by the sale of the 102 powders will be the vendor's commission on the sales effected by him.

4. Seven packets each containing 102 powders will be issued to each of the head and sub-offices in the Circle and to each of the branch offices in the Shimoga division and the value of those packets, *viz.*, Rs. 10-8-0, at the rate of Rs. 1-8-0 per packet, is to be considered as a permanent advance for quinine in those offices. Three packets each containing 102 powders will be issued to each of the other branch offices in the Circle and the value of those packets, *viz.*, Rs. 4-8-0, at the rate of Rs. 1-8-0 per packet, is to be considered as a permanent advance for quinine in those offices.

5. All head and sub-postmasters in the Circle and branch postmasters in the Shimoga division must replenish their stock of quinine as soon as they have sold five packets by indenting on the Director of the Government Cinchona Plantations, Ootacamund, while other branch postmasters must replenish their stock in the same manner as soon as they have sold two packets. It will be the postmaster's duty to see that his stock is regularly replenished in time before the supply is exhausted.

8. The indent for a fresh supply of quinine must always be written on the coupon of the money order, in the form given below :—

"Please send by return post two, five or six packets (as the case may be), of quinine powders."

_____Name.

_____Postmaster.

Date_____ [ ] Name stamp.

The amount remitted as well as the commission for the money order should be met by the postmaster from the sale-proceeds of quinine held as a permanent advance. The money order should be made payable to the Director of the Government Cinchona Plantations, Ootacamund. The postmaster should clearly impress the name stamp of his office at the bottom of the coupon containing the indent in order that the name of the office to which the quinine is to be forwarded may be readily ascertained.

9. When the charge of an office is transferred, the full amount of the permanent advance of 714 powders of quinine in the case of head and sub-offices, and branch offices in the Shimoga division and of 306 powders of quinine in the case of the other branch offices must be made over to the relieving official and it may be either in quinine or in cash or partly in quinine and partly in cash; but for every four annas thus made over in cash, 3 pies may be deducted (being the commission on the sale of 16 powders) from the permanent advance. No commission is allowed on the sale of any number less than 16 powders. The tansfer of the permanent advance in the manner described above on account of quinine must be entered at the foot of the charge report forwarded to the Superintendent.

10. Communications on the subject to the Director of the Government Cinchona Plantations, Nilgiris, may be sent on postal service, but, with this exception, everything relating to the transmission of quinine and the remittance of money to pay for it will be at the charge of the Government Cinchona Department.

11. The packets containing the powders of quinine must not be exposed to damp, as otherwise the quinine may deteriorate.

12. Superintendents and Inspectors when verifying the accounts of first-class head offices and inspecting other post offices authorised to vend quinine, should examine the permanent advance for quinine and see that it is correct. They should also make careful inquiries as to the manner in which the instructions conveyed in Rule 11 are carried out, and make notes in their verification or inspection reports on the progress of the scheme and of any matters of interest or importance in connection therewith, furnishing at the same time statistics of sales effected during the period to which the verification or inspection relates.

Notifications by the Government of His Highness the Maharaja of Mysore.

GENERAL AND REVENUE.

No. G. 1456, dated the 20th August 1906.

The following order of His Highness the Maharaja is published for general information:—

I. In supersession of Notification No. 36, dated the 8th August 1902, His Highness the Maharaja has been pleased to direct that the Council, therein styled the Consultative Council, shall be styled "The Council of His Highness the Maharaja" and that it shall consist as heretofore of the Dewan and two Members, whose duty it will be to advise His Highness in all important matters.

II. The following rules are prescribed for the conduct of business in the Council of His Highness the Maharaja:—

1. The work of the State will be distributed by Departments between the Dewan and the Councillors as shown in the appended statement, which will be liable to alteration at the discretion of His Highness the Maharaja.

2. Cases falling under the Schedule appended to this Notification shall be submitted by the Secretary in the first instance to the Dewan or Councillor in charge of the Department concerned, on whom will rest the initiative, entailing, where necessary, the preparation of a note for the consideration of the Council. They shall

then be placed before the Council, and submitted, with the opinion of the Dewan and Councillors, for the orders of His Highness the Maharaja, by the Dewan.

3. Cases not falling under the Schedule shall ordinarily be dealt with by the Member in charge of the Department to which the case pertains. Similarly the Dewan will deal with non-scheduled cases pertaining to the Departments under his charge. But certain important classes of cases relating to the Departments under the charge of a Member (to be specified in confidential Secretariat instructions prepared under the orders of His Highness the Maharaja) shall be dealt with by the Dewan in his capacity as the Chief Executive Officer of the State. Such cases the Secretary, after noting or drafting, shall forward to the Dewan for disposal through the Councillor or Councillors in charge of the Department or Departments concerned, who will note his or their suggestions as to the orders which should issue.

Provided as follows:—

(i) When the matter dealt with by a Councillor is one involving doubt, delicacy or importance, the papers shall, before the issue of final orders, be referred to the Dewan.

(ii) The Dewan may also, in any particular case, direct that the papers be submitted to him before the issue of final orders.

(iii) The Dewan may also call for the records in any case in order to satisfy himself as to the correctness of orders issued under the directions of a Councillor.

(iv) An abstract of the cases disposed of by each Councillor and of the orders issued shall be submitted every week to the Dewan for information.

4. Should any material difference of opinion between the Dewan and the Councillor be established with respect to a case falling under Rule 3, it will be in the discretion of the Dewan either to direct that the matter may be dealt with as though it were one falling within the Schedule, or to submit it direct for the orders of His Highness the Maharaja.

5. If, in any matter connected with a Department not immediately under his own charge, the Dewan considers that immediate action is necessary and that the delay involved in consulting the Councillor in charge of the Department is likely to be prejudicial, he may issue orders on his own authority. In all such cases, a copy of the Dewan's orders shall at once be supplied to the Member whose Department is concerned, and the proceedings shall be reported for the information of His Highness the Maharaja, with a statement of the reasons which necessitated recourse to the special powers conferred by this rule.

6. The Secretary in each Department shall work under the general or special directions of the Dewan and be responsible to him except in regard to cases falling under Rule 3, as to which the Secretary shall take the orders of the Councillor concerned.

7. A Member shall have the power to call upon the Secretary to supply information regarding a case pending before such Member, or regarding the manner of, or delay in, disposal of any case which the Member has had before him.

8. The Dewan shall regulate the order of business in Council and preside at the meetings.

9. A Journal shall be kept in which the opinions of the Dewan and Members shall be recorded.

10. The Council shall meet regularly at stated intervals. His Highness the Maharaja or the Dewan may summon a meeting of the Council whenever His Highness or the Dewan may deem it necessary.

11. Whenever the Dewan and the Councillors, or any of them, are on tour, or whenever otherwise necessary, papers may be disposed of in circulation.

12. (1) Appeals which lie to Government under Section 210 of the Mysore Land Revenue Code, IV of 1888, from the decisions of the Revenue Commissioner, in cases falling under clauses (*a*) to (*g*) of Section 221 thereof, shall be heard and decided by two Members of Council.

(2) In the disposal of the matters aforesaid, the following rules shall be observed :—

(*a*) When there arises a difference of opinion between two Members of Council on any material question pending before them, such question shall be referred to the Dewan, and the decision of the Government shall follow the opinion with which the Dewan agrees;

(*b*) No order of a subordinate officer shall be modified or reversed without due notice of the hearing of the case to the party whose interests will thereby be affected;

(*c*) Any party appearing in person will be duly heard, provided that a woman or a minor may appear by her or his next friend or guardian.

The following Proceedings of the Government of His Highness the Maharaja of Mysore, are published for general information :—

READ—

Government Notification No. R. 9172—L. R. 353-05-2, dated the 5th January 1906, sanctioning revised rules relating to the scheme for improving the Shekdari service.

No. R. 2309-21—L. R. 150-06-1, DATED BANGALORE, 20TH AUGUST 1906.

ORDER THEREON.—The rules issued on the 5th January last are found to require further revision in the following respects :—

2. The minimum educational qualification prescribed for admission, *viz.*, the passing of the Matriculation Examination, will, it is feared, exclude persons belonging to classes backward in education, such as Mahomedans who make excellent Shekdars. It is therefore proposed to lower it in such cases to the passing of the Mysore Lower Secondary Examination. It is considered unnecessary to lay down what classes are to be deemed backward in education, as no general definition is possible or necessary. The Deputy Commissioners of Districts taking action under Rule 5 will exercise their discretion in each case.

3. The differentiation of the Local Service Revenue Test into a Higher and a Lower grade, so as to meet the case of the smaller officials, for whom the present Revenue Examination is too high, is under contemplation. Candidates for Shekdari need pass the Lower grade only.

4. The standard in Engineering, prescribed in the existing rules, is found to be too high and elaborate for the class of officials under consideration; and difficulties have, moreover, been reported to exist in arranging for the training in the Mysore Engineering School of even the first batch of candidates sent to it. It is therefore proposed, firstly, to simplify the course of study, secondly, to reduce the course of training from one year to six months, and thirdly, to arrange in connection with the Police Training School at Bangalore (where facilities for teaching Drawing and Surveying to Police recruits already exist) for the formation of a regular Engineering class, with additional teachers if necessary. Admissions to the class of candidates for the Shekdari service will be made under the orders of the Revenue Commissioner on the recommendation of Deputy Commissioners of Districts.

5. The rule in regard to ability to ride has been simplified.

6. The training in Surveying will be given in the Engineering class itself, and it is considered unnecessary to attach candidates to measuring establishments or to District Surveyors.

7. It is considered inexpedient to reserve power to appoint candidates who do not possess all the qualifications on the date of their appointment, as in the existing rules.

8. The existing rules do not provide for Shekdars of the old school who are not Matriculates qualifying under the new scheme. Many of them are capable and deserving men whom it would be undesirable and unfair to shut out altogether from its scope. It is therefore provided that such persons whether belonging to Schedule B or C shall be admitted to the benefit of the new scale on their passing the Revenue Test (Lower grade) and qualifying themselves in the Engineering subjects specified in Rule 6. In order to enable them to qualify themselves in the latter respect, full pay will be given them during the period of their training in the Engineering class, on the analogy of what was ordered in the case of Police Inspectors when the Police Training School was started in 1893. Other candidates in service must possess the general educational qualification laid down, and they will be given half pay while in the Engineering class. Those who fail the first time will not be allowed the concession a second time.

9. The Revenue Commissioner will arrange in consultation with the Inspector-General of Police and the Chief Engineer for the opening of an Engineering class as soon as possible in connection with the Police Training School. The Chief Engineer

583

will be requested to depute a qualified Public Works subordinate, competent to teach the Engineering subjects prescribed, for employment in the Police Training School; and if necessary, the Survey and Settlement Commissioner may be asked to lend the services of a Measurer for teaching surveying, measuring, the sub-dividing of fields, etc.

10. With these remarks, the Government of His Highness the Maharaja are pleased to issue the following rules in supersession of those published with the Notification of 5th January 1906:—

RULES.

1. From the 1st of July 1904, the pay of Shekdars shall be Rs. 35 for the first class, Rs. 30 for the second and Rs. 25 for the third.

2. The total number of Shekdars shall be 374; and their number in each class shall not exceed the following proportion:—

Twenty per cent of the total number in the first class, *i.e.*, 75 at Rs. 35 each.
Thirty per cent of the total number in the second class, *i.e.*, 112 at Rs. 30 do.
Fifty per cent of the total number in the third class, *i.e.*, 187 at Rs. 25 do.

3. Shekdars will draw a horse allowance of Rs. 10 each per month, and the malnad allowance, wherever allowed, will continue as heretofore.

4. Every Shekdar shall keep a decent riding pony, and spend at least twenty days in every month on tour in his hobli.

5. No one shall be eligible for appointment as a Shekdar under the new scheme

(1) who has not passed a University Examination not lower than the Matriculation, unless, in the opinion of the Deputy Commissioner of the District, he belongs to a class backward in education, in which case a pass in the Mysore Lower Secondary Examination may be accepted as sufficient;

(2) who is above the age of twenty-five years, unless he be already in service;

(3) who is not pronounced physically fit by a Medical Officer not inferior in rank to a District Medical Officer;

(4) who has not passed the Local Service Revenue Examination (Lower grade);

(5) who is not able to read and write Canarese with facility.

6. (1) Candidates satisfying the conditions mentioned in Rule 5 shall undergo instruction in the following subjects for a period not exceeding six months in the Engineering class attached to the Police Training School at Bangalore:—

(1) Building—Drawing and Estimating (Elementary).
(2) Building Materials and Construction (Elementary).
(3) Mensuration (do).
(4) Earthwork, road-making and tank repairs (do).
(5) Chain surveying.

(2) Applications for admission to the Engineering class shall be made to the Deputy Commissioners of Districts, who shall satisfy themselves that the qualifications of the applicants are as laid down in Rule 5, and then forward the applications to the Revenue Commissioner for orders of admission to the class.

7. On completing the course of study prescribed in Rule 6 and obtaining a certificate of qualification therein, a candidate will be eligible for appointment as a Shekdar on the occurrence of a vacancy, provided that the Deputy Commissioner is satisfied that he is able to ride.

8. (1) Shekdars already in the service of Government, who have passed the Mysore Local Service Revenue Examination (Lower Grade) and who wish to avail themselves of the benefit of the new scale, shall be required to qualify themselves under Rule 6. During the period of their training in the Engineering class, they shall receive full pay, without allowances; and the men appointed to act in their places will receive Rs. 15 per mensem plus horse allowance and Malnad allowance if any.

(2) In the case of other persons in Government service, all the qualifications laid down in Rules 5 and 6 shall be insisted on. And during the period of their training in the Engineering class, they shall receive only half-pay, acting arrangements to fill their places being made within the remaining half.

9. In the introduction of the new service in place of the old, the existing Shekdars shall be replaced gradually, and men qualified under the rules will be appointed as vacancies occur.

10. Promotions from the third class to the second class, and from the second to the first in the new scale shall be regulated in the following manner :—

(1) Till the maximum number of vacancies is filled up in each class, two years' efficient service in one class of a Shekdar qualified as above will entitle him to promotion to the next higher class;

(2) when the full number of Shekdars in the first and second classes is appointed, promotion will be regulated by vacancies occurring from time to time, and will depend upon the comparative merits, qualifications and services of men in the lower classes.

11. No Shekdar that does not qualify himself as herein laid down shall be entitled to the pay of any of the new classes, but shall get only the pay to which he is entitled under the old Rules.

12. The following duties shall be performed by Shekdars :—

(*a*) Collecting Sayer duty where no special agency for the purpose exists, and supervising the work of Sayer Karkuns where such are employed.

TREASURY ACCOUNT.

ANNUAL RETURNS OF ESTABLISHMENTS FOR 1ST JULY 1906.

Circular No. T. A. 1096—194, *dated* 14—18*th August* 1906.

1. The Comptroller has the honor to request that the Public Officers named below will be so good as to furnish this office with their Annual Returns of fixed establishments for the 1st July 1906, prepared in accordance with the instructions laid down in pages 25, 26 and 27 (Chapter 5), Volume 1 of the Sixth Edition of the Civil Account Code, *so as to reach this office not later than the* 15*th August* 1906.

2. The returns should be prepared on *no other* than the prescribed *printed* form to be had from the Superintendent of Stationery, and will show accurately the establishment as it exists on 1st July; and in preparing it, the following instructions should be carefully attended to:—

(*a*) The name, designation, and pay of every gazetted officer, clerk, or menial servant holding a permanent appointment, whether on duty or absent on leave, or deputation, or under suspension, should be distinctly shown, with the exception of those exempted from keeping service books by Article 431 of the Mysore Service Regulations.

(*b*) The date of birth, year, month and day of the appointment and of appointment to present post, and of promotion to present pay of each person, as well as the number and date of the Government Orders creating the post, should be clearly entered in the appropriate columns of the statement, the date of birth by Christian era should be given, and if the exact date is not known, the approximate date or year should be stated. This date can only be altered under the orders of the Local Government, except in the case of a clerical error. It should be noted that the column "Promotion to present pay" is to be filled in, only when the pay is progressive and the incumbent of the appointment is drawing pay in excess of the minimum.

(*c*) The return should show accurately the sanctioned scale of *permanent establishment*, and so will include every post, whether filled up or not; and if a post be vacant, the word *vacant* should be set against it in the column of "*Name of Incumbent.*"

(*d*) The names of *gazetted officers should be entered first*, and beneath them those of the clerks and servants in order of sections of the establishment: *there should be a separate total for each section*, besides the grand total.

(*e*) The columns of *Minimum* and *Maximum* pay of post should be filled up *only* when the pay is progressive, *i.e.*, rises from a minimum to a maximum by annual increment; and if any annual increment is given with effect from 1st July, it should be included in the return, and compared with the certificate (in Form No. 8) required by Article 62, which would accompany the July bill.

(*f*) The name of any person acting in an appointment, as well as the acting allowance paid to him, should be shown in the column "*Name of Incumbent*" beneath the name of the absentee for whom he is officiating.

(*g*) If the acting incumbent holds his permanent appointment upon another establishment, the fact should be stated, and the entry should be supported by a certificate from the head of that other establishment.

(*h*) If any person on the establishment has attained the age of fifty-five years, the number and date of the orders of Government or other competent authority permitting his retention in the service, should be quoted in a note at foot of the return, and the period for which his retention has been authorized should also be mentioned. If no orders have been received, the number and date of the application for sanction to his retention should be noted.

(*i*) A detailed statement in Form 4 should be given at back of the original return, Form 3, showing new names of non-gazetted officers which are not found in the return of the previous year; and when these new names include those of persons who have entered Government service for the first time, a reference should be given to the bill with which their age and health certificates were furnished; and if they include the names of persons transferred from another appointment, those appointments should be specified, as well as the date from which the transfers have effect. Columns are also provided in Form 4 for information required in regard to the names of non-gazetted officers which appeared in Form No. 3 of the previous year, but are now omitted, as also regarding non-gazetted officers who have been on leave other than privilege or casual, or under suspension, during the

previous year. In the case of any who have been under suspension, a note is required stating whether it has been expressly declared that the period of suspension shall count as service qualifying for pension (Article 269 of the Mysore Service Regulations).

(*j*) Separate returns on the same printed forms should be prepared for each permanent establishment existing on 1st July paid from *Local Funds*, and not more than one establishment should be exhibited on a single page. When the pay of any establishment or of any individual officer is met partly from General Revenues and partly from Local or other funds, the whole pay should be shown in one statement, and the portion payable from each source specified in a foot-note.

3. When completed in accordance with the above instructions, the detailed statement should be carefully checked with the service books, save in the cases excepted in clause (*a*) as it will be the chief authority by which hereafter pension claims will be tested. A certificate of this comparison should be endorsed on the return thus: "Compared with service books and found to agree."

4. This return should be accompanied by an abstract, which will link together the gross numbers shown in the budget estimate of each establishment and the nominal rolls in the book of establishment.

5. Slips of paper should not be attached at foot of the returns, but if space is found insufficient, application should be made to the Stationery Department for a sufficient supply of forms for insertion in book form. In cases where more than one sheet is required to be used, care should be taken to have the sheets stitched in book form before the entries are made therein.

MISCELLANEOUS.

OFFICE OF THE REVENUE COMMISSIONER IN MYSORE.

Circular No. 2015-24, *dated Bangalore,* 27*th August* 1906.

In their Proceedings No. R. 16127-65—L. R. 674-05-5, dated 21st June 1905, Government have noticed that, in the case of Mr. D. Subba Rao, Amildar, who was recently retired from the service his service Register was not properly maintained and that entries regarding his date of birth in the annual schedules of establishments were neither consistent with one another nor in accordance with the Service Register. In this case it is clear that the diverse and inaccurate entries made in the said returns could have been avoided if they had been compared with the Service Register and duly checked in the manner prescribed by Article 55 of the Civil Account Code (Volume I, 6th Edition). The undersigned is therefore led to fear that the provisions of Chapter XXIV of the Mysore Service Regulations regarding the maintenance and verification of Service Books for non-Gazetted officers and the detailed instructions laid down in Article 55 of the Account Code for the preparation of the Annual returns of establishments are not being observed with due care and attention. With a view to these instructions being fully carried out in future, the attention of all heads of offices in the Revenue Department is drawn to Government Order No. 13911-50—P. & A. 1216, dated 18th March 1903, and the Comptroller's Circular No. 2019—P. & A. 989, dated 20th June 1903 (published at pages 742-3 of Part II of the *Mysore Gazette*, Vol. XXXVII) regarding the posting up and verification of Service Registers and the annual circulars of the Comptroller about the annual returns of establishments.

TREASURY ACCOUNT.

ANNUAL RETURNS OF ESTABLISHMENTS FOR 1ST JULY 1906.

Circular No. T. A. 1096—194, *dated* 14—18*th August* 1906.

1. The Comptroller has the honor to request that the Public Officers named below will be so good as to furnish this office with their Annual Returns of fixed establishments for the 1st July 1906, prepared in accordance with the instructions laid down in pages 25, 26 and 27 (Chapter 5), Volume 1 of the Sixth Edition of the Civil Account Code, *so as to reach this office not later than the* 15*th August* 1906.

2. The returns should be prepared on *no other* than the prescribed *printed* form to be had from the Superintendent of Stationery, and will show accurately the establishment as it exists on 1st July; and in preparing it, the following instructions should be carefully attended to:—

(*a*) The name, designation, and pay of every gazetted officer, clerk, or menial servant holding a permanent appointment, whether on duty or absent on leave, or deputation, or under suspension, should be distinctly shown, with the exception of those exempted from keeping service books by Article 431 of the Mysore Service Regulations.

635

(*b*) The date of birth, year, month and day of the appointment and of appointment to present post, and of promotion to present pay of each person, as well as the number and date of the Government Orders creating the post, should be clearly entered in the appropriate columns of the statement, the date of birth by Christian era should be given, and if the exact date is not known, the approximate date or year should be stated. This date can only be altered under the orders of the Local Government, except in the case of a clerical error. It should be noted that the column "Promotion to present pay" is to be filled in, only when the pay is progressive and the incumbent of the appointment is drawing pay in excess of the minimum.

(*c*) The return should show accurately the sanctioned scale of *permanent establishment*, and so will include every post, whether filled up or not; and if a post be vacant, the word *vacant* should be set against it in the column of "*Name of Incumbent.*"

(*d*) The names of *gazetted officers should be entered first*, and beneath them those of the clerks and servants in order of sections of the establishment: *there should be a separate total for each section*, besides the grand total.

(*e*) The columns of *Minimum* and *Maximum* pay of post should be filled up *only* when the pay is progressive, *i.e.*, rises from a minimum to a maximum by annual increment; and if any annual increment is given with effect from 1st July, it should be included in the return, and compared with the certificate (in Form No. 8) required by Article 62, which would accompany the July bill.

(*f*) The name of any person acting in an appointment, as well as the acting allowance paid to him, should be shown in the column "*Name of Incumbent*" beneath the name of the absentee for whom he is officiating.

(*g*) If the acting incumbent holds his permanent appointment upon another establishment, the fact should be stated, and the entry should be supported by a certificate from the head of that other establishment.

(*h*) If any person on the establishment has attained the age of fifty-five years, the number and date of the orders of Government or other competent authority permitting his retention in the service, should be quoted in a note at foot of the return, and the period for which his retention has been authorized should also be mentioned. If no orders have been received, the number and date of the application for sanction to his retention should be noted.

(*i*) A detailed statement in Form 4 should be given at back of the original return, Form 3, showing new names of non-gazetted officers which are not found in the return of the previous year; and when these new names include those of persons who have entered Government service for the first time, a reference should be given to the bill with which their age and health certificates were furnished; and if they include the names of persons transferred from another appointment, those appointments should be specified, as well as the date from which the transfers have effect. Columns are also provided in Form 4 for information required in regard to the names of non-gazetted officers which appeared in Form No. 3 of the previous year, but are now omitted, as also regarding non-gazetted officers who have been on leave other than privilege or casual, or under suspension, during the previous year. In the case of any who have been under suspension, a note is required stating whether it has been expressly declared that the period of suspension shall count as service qualifying for pension (Article 269 of the Mysore Service Regulations).

(*j*) Separate returns on the same printed forms should be prepared for each permanent establishment existing on 1st July paid from *Local Funds*, and not more than one establishment should be exhibited on a single page. When the pay of any establishment or of any individual officer is met partly from General Revenues and partly from Local or other funds, the whole pay should be shown in one statement, and the portion payable from each source specified in a foot-note.

3. When completed in accordance with the above instructions, the detailed statement should be carefully checked with the service books, save in the cases excepted in clause (*a*) as it will be the chief authority by which hereafter pension claims will be tested. A certificate of this comparison should be endorsed on the return thus: "Compared with service books and found to agree."

4. This return should be accompanied by an abstract, which will link together the gross numbers shown in the budget estimate of each establishment and the nominal rolls in the book of establishment.

5. Slips of paper should not be attached at foot of the returns, but if space is found insufficient, application should be made to the Stationery Department for a sufficient supply of forms for insertion in book form. In cases where more than one sheet is required to be used, care should be taken to have the sheets stitched in book form before the entries are made therein.

MISCELLANEOUS.

OFFICE OF THE REVENUE COMMISSIONER IN MYSORE.

Circular No. 2015-24, *dated Bangalore,* 27*th August* 1906.

In their Proceedings No. R. 16127-65—L. R. 674-05-5, dated 21st June 1905, Government have noticed that, in the case of Mr. D. Subba Rao, Amildar, who was recently retired from the service his service Register was not properly maintained and that entries regarding his date of birth in the annual schedules of establishments were neither consistent with one another nor in accordance with the Service Register. In this case it is clear that the diverse and inaccurate entries made in the said returns could have been avoided if they had been compared with the Service Register and duly checked in the manner prescribed by Article 55 of the Civil Account Code (Volume I, 6th Edition). The undersigned is therefore led to fear that the provisions of Chapter XXIV of the Mysore Service Regulations regarding the maintenance and verification of Service Books for non-Gazetted officers and the detailed instructions laid down in Article 55 of the Account Code for the preparation of the Annual returns of establishments are not being observed with due care and attention. With a view to these instructions being fully carried out in future, the attention of all heads of offices in the Revenue Department is drawn to Government Order No. 13911-50—P. & A. 1216, dated 18th March 1903, and the Comptroller's Circular No. 2019—P. & A. 989, dated 20th June 1903, (published at pages 742-3 of Part II of the *Mysore Gazette*, Vol. XXXVII) regarding the posting up and verification of Service Registers and the annual circulars of the Comptroller about the annual returns of establishments.

The Board also accepts the explanation of the Amildars for the large lapse of grants, which was owing to the failure or want of rains in the proper season.

XI The list of works costing less than Rs. 500, sanctioned by the President from the
12th 30th June 1906, was read to and approved by the Board.

d President's proposal to raise the 3rd class travellers' bungalow at Begur in the

No. R. 3145—*L. R.* 212-06-2, *dated 11th September* 1906.

The following Order of Government, made in exercise of powers conferred by Sections 4 and 233 of the Mysore Land Revenue Code, 1888, and all other powers enabling them in this behalf, is published as required by Section 234 of the said Code :—

No. R. 3105-44—L. R. 212-06-1, DATED BANGALORE, 11TH SEPTEMBER 1906.

ORDER.—The Mysore Land Revenue Code, 1888, having been amended by Regulation No. VI of 1906, the Government of His Highness the Maharaja take this opportunity of explaining briefly the changes introduced by that Regulation in the existing system of revenue administration, and at the same time of defining the additional powers and duties which it is considered desirable to assign to the Revenue Commissioner.

2. The Mysore Land Revenue Code, as enacted in 1888, reserved power to Government to appoint a Revenue Commissioner, and to assign to him the duties and powers of Government set out in Schedule I of the Code, subject to certain conditions. It has been found by experience to be desirable to formally constitute the Revenue Commissioner as the chief controlling Revenue authority in land revenue matters subject to Government, provision being made in the Code itself for his being vested with the duties and powers which he is to perform and exercise.

Accordingly, the new Section 4 (as substituted by Regulation VI of 1906) declares that the chief controlling authority in land revenue matters is vested in the Revenue Commissioner subject to Government, and defines the duties and powers to be performed and exercised by him. Schedule I, being no longer necessary, has been repealed, and various minor consequential changes have been made in other provisions of the Code with a view to making the same as far as possible identical with the provisions of the Bombay Land Revenue Code.

The full appellate jurisdiction which the Revenue Commissioner could have exercised under Section 210 of the Code had been to some extent curtailed by Notification No. 37, dated the 8th August 1902. This Notification will be formally cancelled, as it has virtually been by the amendments now made to the Land Revenue Code, as the effect of which the Revenue Commissioner will (among other things) have full powers of appeal from the decisions and orders of subordinate Revenue officers. In order to secure a reasonable degree of finality with respect to the appellate orders of the Revenue Commissioner, an additional clause has been inserted in Section 210, so as to bar appeals to Government from appellate decisions or orders passed by that officer except on points of law or usage having the force of law. The law in Bombay is somewhat different and makes all orders of Commissioners on second appeal final.

3. Having thus explained the scope of the amendments of the law recently introduced, Government now proceed to indicate in greater detail the extent to which and the directions in which the functions of the Revenue Commissioner will be enlarged beyond those assigned to him at present.

4. The office of the Revenue Commissioner was created in August 1902 for the purpose of providing for the more efficient control and supervision of the Revenue Department. Although there has been considerable improvement in the working of the Department since then, yet the results achieved have not come up to the full expectations of Government, owing no doubt in some measure to its not having been found possible at the outset to invest the Revenue Commissioner with all the powers properly pertaining to his office.

The fact that he has now been constituted the chief controlling revenue authority, and that his responsibility as such for the Revenue Administration has been fully recognized, will, it is hoped, ensure the full attainment of the object with which the appointment was created, and enable him to effectually carry out all measures calculated to promote the industrial and agricultural progress of the country, and to improve and maintain at a high level the efficiency of the Revenue service generally.

5. *Land Revenue.*—The following powers heretofore exercised by Government will now be delegated to the Revenue Commissioner :—

(1) Power to deal with the reports of the Deputy Commissioners regarding the sufficiency and realisable nature of the securities taken from Revenue officers under Rule 8 of the Land Revenue Rules.

(2) Power to sanction appropriation of lands for roads whether Provincial or Local Fund, and for schools, Dharmasalas and other public purposes, where no compensation has to be paid by Government for lands taken up; subject to the limitation that the market value of the land appropriated, if unassessed, does not exceed Rs. 100 in any case, and the assessment of the land, if assessed, does not exceed Rs. 5. The Revenue Commissioner should submit for the information of Government half-yearly returns showing the alienations sanctioned by him.

(3) Power to appropriate assessed Government lands for extension of village sites and to write off assessment thereon.

(4) Power to exercise the special powers reserved to Government in the grant of lands for garden cultivation under Appendix I of the Land Revenue Rules of 1890, subject to the condition that the assessment of the land so granted in any case does not exceed Rs. 500.

(5) Power to sanction refunds admissible under the Rules, submitting to Government half-yearly returns of the same.

(6) Power to direct the remission of irrecoverable arrears of revenue, submitting to Government half-yearly returns of the same.

6. *Reports and Returns.*—Separate orders will be issued in regard to the reports and returns relating to collections of land revenue and other allied matters that will hereafter be dealt [illegible] Commissioner.

7. *Tanks and other works of irrigation.*—The responsibility for enforcing the rules with regard to the maintenance of tanks and other works of irrigation in the charge of the Revenue Department, the imposition and recovery of contribution, and the working of the minor tanks restoration scheme, will hereafter rest with the Revenue Commissioner. He will also arrange, in communication with the Chief Engineer, to secure a due distribution of the allotment for the restoration of minor tanks; and all applications for funds and special treatment should be made by Deputy Commissioners primarily to the Revenue Commissioner. He will have the right to call for progress reports and otherwise control the execution of such works by the Revenue Department.

8. *Land Acquisition.*—The Revenue Commissioner will be authorized to control the progress of land acquisition proceedings by obtaining periodical reports so as to be able to direct their completion with all reasonable despatch. He will have the power to write off the assessment on lands acquired under the orders of Government.

9. *Loans.*—The Revenue Commissioner will be empowered—

(1) to distribute among the districts allotments of funds for the two classes of loans, Land Improvement and Agricultural Loans, after sanction of the provincial allotment by Government;

(2) to transfer the unexpended balance of the allotment from one district to another;

(3) to sanction loans under the Land Improvement Loans Regulation up to a limit of Rs. 2,500, and loans under the Rules framed under Section 194 of the Mysore Land Revenue Code up to a limit of Rs. 1,000;

(4) to confirm the proceedings of Deputy Commissioners suspending payment of instalments of loans or to pass other suitable orders in such cases; and

(5) to write off irrecoverable items up to Rs. 100 in each case.

10. *Treasury and Forest Administration.*—Separate action will be taken in the matter of defining (1) the extent of the responsibility of the Revenue Commissioner in regard to the administration of Treasuries and (2) his position in regard to proposals affecting the use of forests and waste lands.

11. *Stamps.*—The constitution of a chief controlling Revenue authority for the purposes of the Stamp and Court Fees Regulations, and the appointment of an *ex-officio* Commissioner of Stamps for supervising the administration of the stamp revenue, are also reserved for separate consideration.

12. *Agricultural Banks and Co-operative Societies.*—The Revenue Commissioner is empowered to inspect Co-operative Societies and Agricultural Banks, including Coffee Banks, and to review the reports of inspections forwarded by Deputy Commissioners and the Registrar of Co-operative Societies (who will also be constituted Inspector of Agricultural Banks and placed under the Revenue Commissioner). The previous orders of Government should be obtained by him in matters involving a change in the securities for loans, if any, advanced by Government to such institutions. Recommendations to Government for the establishment of new Agricultural Banks and the winding up of existing ones should be made through the Revenue Commissioner.

13. *Agricultural and other Statistics.*—In addition to his other work, the Revenue Commissioner will continue to exercise, in virtue of his office, the functions of Director of Agricultural and other Statistics, and as such he will collect and deal with all statistical returns relating to the season, agriculture, and the condition and well-being of the people, and devote attention to the improvement of agriculture and the breed of cattle.

14. *Famine Administration.*—Under Section 49 of the Famine Code, in the absence of a specially appointed Famine Commissioner, the Revenue Commissioner is vested with all the powers delegated to the Famine Commissioner under the Famine Code; and he is responsible for the due enforcement of its provisions both under ordinary and abnormal conditions. He will not only acquaint himself with current agricultural conditions at all times, but also concert such measures as may be necessary in seasons of stress or difficulty to prevent the occurrence of distress or to ensure the relief thereof.

15. *Leave to Assistant Commissioners and Amildars.*—The Revenue Commissioner will grant casual leave to Assistant Commissioners, and casual leave and privilege leave not exceeding one month to Amildars and Deputy Amildars, the grant of privilege leave being notified in Part II of the *Mysore Gazette*.

16. *Appointments in subordinate offices.*—As regards appointments beyond the competence of Deputy Commissioners or requiring the approval of higher authority, in their own offices, or in those of Assistant Commissioners, Amildars and Deputy Amildars, other than appointments on or above or progressing to Rs. 100, and other than appointments in the Police and Forest Branches of the offices of Deputy Commissioners, the sanction or approval required shall, in the absence of express statutory provision to the contrary, be that of the Revenue Commissioner.

17. *Appeals not otherwise provided for.*—In Revenue and other matters falling within his jurisdiction and not already provided for by any Rule or Regulation, the Revenue Commissioner will have, and is hereby invested with, the power of hearing appeals from orders of Deputy Commissioners and revising them.

18. The Revenue Commissioner will continue as heretofore to exercise and perform any other powers and duties (not being among those hereinbefore mentioned) which may have been already assigned to him, in so far as the same is not inconsistent with the directions contained in this order.

19. The Revenue Commissioner will submit to Government drafts of any amendments of existing Regulations and the Rules under them that may be rendered necessary by the powers now conferred on him.

MISCELLANEOUS.

OFFICE OF THE REVENUE COMMISSIONER IN MYSORE.

Circular No. 2015-24, *dated Bangalore,* 27*th August* 1906.

In their Proceedings No. R. 16127-65—L. R. 674-05-5, dated 21st June 1905, Government have noticed that, in the case of Mr. D. Subba Rao, Amildar, who was recently retired from the service his service Register was not properly maintained and that entries regarding his date of birth in the annual schedules of establishments were neither consistent with one another nor in accordance with the Service Register. In this case it is clear that the diverse and inaccurate entries made in the said returns could have been avoided if they had been compared with the Service Register and duly checked in the manner prescribed by Article 55 of the Civil Account Code (Volume I, 6th Edition). The undersigned is therefore led to fear that the provisions of Chapter XXIV of the Mysore Service Regulations regarding the maintenance and verification of Service Books for non-Gazetted officers and the detailed instructions laid down in Article 55 of the Account Code for the preparation of the Annual returns of establishments are not being observed with due care and attention. With a view to these instructions being fully carried out in future, the attention of all heads of offices in the Revenue Department is drawn to Government Order No. 13911-50—P. & A. 1216, dated 18th March 1903, and the Comptroller's Circular No. 2019—P. & A. 989, dated 20th June 1903, (published at pages 742-3 of Part II of the *Mysore Gazette*, Vol. XXXVII) regarding the posting up and verification of Service Registers and the annual circulars of the Comptroller about the annual returns of establishments.

The following Order of Government, made in exercise of powers conferred by Sections 4 and 233 of the Mysore Land Revenue Code, 1888, and all other powers enabling them in this behalf, is published as required by Section 234 of the said Code :—

No. R. 3105-44—L. R. 212-06-1, DATED BANGALORE, 11TH SEPTEMBER 1906.

ORDER.—The Mysore Land Revenue Code, 1888, having been amended by Regulation No. VI of 1906, the Government of His Highness the Maharaja take this opportunity of explaining briefly the changes introduced by that Regulation in the existing system of revenue administration, and at the same time of defining the additional powers and duties which it is considered desirable to assign to the Revenue Commissioner.

2. The Mysore Land Revenue Code, as enacted in 1888, reserved power to Government to appoint a Revenue Commissioner, and to assign to him the duties and powers of Government set out in Schedule I of the Code, subject to certain conditions. It has been found by experience to be desirable to formally constitute the Revenue Commissioner as the chief controlling Revenue authority in land revenue matters subject to Government, provision being made in the Code itself for his being vested with the duties and powers which he is to perform and exercise.

Accordingly, the new Section 4 (as substituted by Regulation VI of 1906) declares that the chief controlling authority in land revenue matters is vested in the Revenue Commissioner subject to Government, and defines the duties and powers to be performed and exercised by him. Schedule I, being no longer necessary, has been repealed, and various minor consequential changes have been made in other provisions of the Code with a view to making the same as far as possible identical with the provisions of the Bombay Land Revenue Code.

The full appellate jurisdiction which the Revenue Commissioner could have exercised under Section 210 of the Code had been to some extent curtailed by Notification No. 37, dated the 8th August 1902. This Notification will be formally cancelled, as it has virtually been by the amendments now made to the Land Revenue Code, as the effect of which the Revenue Commissioner will (among other things) have full powers of appeal from the decisions and orders of subordinate Revenue officers. In order to secure a reasonable degree of finality with respect to the appellate orders of the Revenue Commissioner, an additional clause has been inserted in Section 210, so as to bar appeals to Government from appellate decisions or orders passed by that officer except on points of law or usage having the force of law. The law in Bombay is somewhat different and makes all orders of Commissioners on second appeal final.

3. Having thus explained the scope of the amendments of the law recently introduced, Government now proceed to indicate in greater detail the extent to which and the directions in which the functions of the Revenue Commissioner will be enlarged beyond those assigned to him at present.

4. The office of the Revenue Commissioner was created in August 1902 for the purpose of providing for the more efficient control and supervision of the Revenue Department. Although there has been considerable improvement in the working of the Department since then, yet the results achieved have not come up to the full expectations of Government, owing no doubt in some measure to its not having been found possible at the outset to invest the Revenue Commissioner with all the powers properly pertaining to his office.

The fact that he has now been constituted the chief controlling revenue authority, and that his responsibility as such for the Revenue Administration has been fully recognized, will, it is hoped, ensure the full attainment of the object with which the appointment was created, and enable him to effectually carry out all measures calculated to promote the industrial and agricultural progress of the country, and to improve and maintain at a high level the efficiency of the Revenue service generally.

5. *Land Revenue.*—The following powers heretofore exercised by Government will now be delegated to the Revenue Commissioner :—

(1) Power to deal with the reports of the Deputy Commissioners regarding the sufficiency and realisable nature of the securities taken from Revenue officers under Rule 8 of the Land Revenue Rules.

(2) Power to sanction appropriation of lands for roads whether Provincial or Local Fund, and for schools, Dharmasalas and other public purposes, where no compensation has to be paid by Government for lands taken up; subject to the limitation that the market value of the land appropriated, if unassessed, does not exceed Rs. 100 in any case, and the assessment of the land, if assessed, does not exceed Rs. 5. The Revenue Commissioner should submit for the information of Government half-yearly returns showing the alienations sanctioned by him.

(3) Power to appropriate assessed Government lands for extension of village sites and to write off assessment thereon.

(4) Power to exercise the special powers reserved to Government in the grant of lands for garden cultivation under Appendix I of the Land Revenue Rules of 1890, subject to the condition that the assessment of the land so granted in any case does not exceed Rs. 500.

(5) Power to sanction refunds admissible under the Rules, submitting to Government half-yearly returns of the same.

(6) Power to direct the remission of irrecoverable arrears of revenue, submitting to Government half-yearly returns of the same.

6. *Reports and Returns.*—Separate orders will be issued in regard to the reports and returns relating to collections of land revenue and other allied matters that will hereafter be dealt with by the Revenue Commissioner.

7. *Tanks and other works of irrigation.*—The responsibility for enforcing the rules with regard to the maintenance of tanks and other works of irrigation in the charge of the Revenue Department, the imposition and recovery of contribution, and the working of the minor tanks restoration scheme, will hereafter rest with the Revenue Commissioner. He will also arrange, in communication with the Chief Engineer, to secure a due distribution of the allotment for the restoration of minor tanks; and all applications for funds and special treatment should be made by Deputy Commissioners primarily to the Revenue Commissioner. He will have the right to call for progress reports and otherwise control the execution of such works by the Revenue Department.

8. *Land Acquisition.*—The Revenue Commissioner will be authorized to control the progress of land acquisition proceedings by obtaining periodical reports so as to be able to direct their completion with all reasonable despatch. He will have the power to write off the assessment on lands acquired under the orders of Government.

9. *Loans.*—The Revenue Commissioner will be empowered—

(1) to distribute among the districts allotments of funds for the two classes of loans, Land Improvement and Agricultural Loans, after sanction of the provincial allotment by Government;

(2) to transfer the unexpended balance of the allotment from one district to another;

(3) to sanction loans under the Land Improvement Loans Regulation up to a limit of Rs. 2,500, and loans under the Rules framed under Section 194 of the Mysore Land Revenue Code up to a limit of Rs. 1,000;

(4) to confirm the proceedings of Deputy Commissioners suspending payment of instalments of loans or to pass other suitable orders in such cases; and

(5) to write off irrecoverable items up to Rs. 100 in each case.

10. *Treasury and Forest Administration.*—Separate action will be taken in the matter of defining (1) the extent of the responsibility of the Revenue Commissioner in regard to the administration of Treasuries and (2) his position in regard to proposals affecting the use of forests and waste lands.

11. *Stamps.*—The constitution of a chief controlling Revenue authority for the purposes of the Stamp and Court Fees Regulations, and the appointment of an *ex-officio* Commissioner of Stamps for supervising the administration of the stamp revenue, are also reserved for separate consideration.

12. *Agricultural Banks and Co-operative Societies.*—The Revenue Commissioner is empowered to inspect Co-operative Societies and Agricultural Banks, including Coffee Banks, and to review the reports of inspections forwarded by Deputy Commissioners and the Registrar of Co-operative Societies (who will also be constituted Inspector of Agricultural Banks and placed under the Revenue Commissioner). The previous orders of Government should be obtained by him in matters involving a change in the securities for loans, if any, advanced by Government to such institutions. Recommendations to Government for the establishment of new Agricultural Banks and the winding up of existing ones should be made through the Revenue Commissioner.

13. *Agricultural and other Statistics.*—In addition to his other work, the Revenue Commissioner will continue to exercise, in virtue of his office, the functions of Director of Agricultural and other Statistics, and as such he will collect and deal with all statistical returns relating to the season, agriculture, and the condition and well-being of the people, and devote attention to the improvement of agriculture and the breed of cattle.

14. *Famine Administration.*—Under Section 49 of the Famine Code, in the absence of a specially appointed Famine Commissioner, the Revenue Commissioner is vested with all the powers delegated to the Famine Commissioner under the Famine Code; and he is responsible for the due enforcement of its provisions both under ordinary and abnormal conditions. He will not only acquaint himself with current agricultural conditions at all times, but also concert such measures as may be necessary in seasons of stress or difficulty to prevent the occurrence of distress or to ensure the relief thereof.

15. *Leave to Assistant Commissioners and Amildars.*—The Revenue Commissioner will grant casual leave to Assistant Commissioners, and casual leave and privilege leave not exceeding one month to Amildars and Deputy Amildars, the grant of privilege leave being notified in Part II of the *Mysore Gazette*.

16. *Appointments in subordinate offices.*—As regards appointments beyond the competence of Deputy Commissioners or requiring the approval of higher authority, in their own offices, or in those of Assistant Commissioners, Amildars and Deputy Amildars, other than appointments on or above or progressing to Rs. 100, and other than appointments in the Police and Forest Branches of the offices of Deputy Commissioners, the sanction or approval required shall, in the absence of express statutory provision to the contrary, be that of the Revenue Commissioner.

In para 17 of Government Order No. R. 3894-935, dated 14th April 1903, the form of diaries to be submitted by Assistant Commissioners in charge of taluks has been prescribed. From the diaries reviewed within the last three months the Revenue Commissioner has observed that the diaries are drawn up on no uniform principle and that the subject matter includes much which might have been omitted. He requests therefore that details of current office work, usual inspection and other matters which should form subject of special report, should not be described in the diary unless attention has to be drawn to anything remarkable or extraordinary.

IX. Read Government Proceedings No. 708-11—L. B. (8-16)-2, dated 23rd July 1906, ordering that Rs. 26 being the cost incurred in tracing the road in connection with the preparation of an estimate for the extension of the Settihalli-Kattaya road, be debited to the current year's District Fund budget, the same being met by re-appropriation of funds from some sanctioned grant.

(3) Government Proceedings No. 13407-10—L. B. (157-05)-22, dated 30th June 1906, sanctioning the transfer of Rs. 400 from B. "I. Original Works" to "II. Repairs" in the District Fund budget for 1905-06.

Resolution.—Recorded.

XII. Read letter dated 14th May 1906, from the Honorary Secretary, South Mysore Planters' Association, forwarding an emphatic protest against the new toll-gate at Dudda, for reasons mentioned in the letter.

(*b*) Read letter dated the 22nd July 1906, from Mr. W. L. Crawford, stating that he has been requested by the South Mysore Planters' Association, to place the subject of reducing the rates of toll on the Hassan-Arsikere road, so that they may be the same as those at the Belur bridge toll-gate.

Resolution.—Resolved that the Board, being of opinion for reasons represented, that the toll rates of Rs. 2 and 1 for four-wheeled and two-wheeled carriages, respectively, appear too high and that a reference be made to Government for reduction of these two rates to eight annas and four annas, respectively, with provision for levying only half of those rates, when such carriages are unladen. since such lower rates only are levied at the Hole-Narsipur and Belur bridges toll-gates.

XIII. Read correspondence ending with the Senior Assistant Commissioner's docket No. 105, dated 22nd July 1906, in the matter of the sale of the inspection lodge at Arehalli, to Mr. Habibulla Sab, who has promised to convert the same into a charitable musafirkhana.

Resolution.—Resolved that the Board note with appreciation the charitable intention of Mr. Habibulla Sab in this matter and resolve that the amount of sale proceeds, *viz.*, Rs. 200, be credited to the District Funds.

XIV. (1) Read Subject No. X of the District Board Proceedings dated 12th May 1906, in the matter of constitution of villages into Unions.

Resolution.—Resolved that the following villages be added to the list already sent up to Government for being constituted as Village Unions: —

Village.	*Taluk.*

Bagur	Channarayapatna.
Rudrapatna, Marur, Hulikal	Arkalgud.

XV. (1) Read Subject No. XVII of the District Board Proceedings dated 12th May 1906, *re* the grant applied for by Mr. J. G. H. Crawford from District Funds for the up-keep of $3\frac{1}{8}$ miles of road from the Ubban Estate and neighbouring villages to Banavasi-Yeslurpet road.

(2) Read the resolution of the Manjarabad Taluk Board on the subject.

Resolution.—Resolved that owing to great want of funds this year, a provision of Rs. 32 be made towards the cost of repairs to this road in the next year's District Fund budget.

XVI. Read docket No. 6537, dated 16—17th May 1906, from the Senior Surgeon and Sanitary Commissioner in Mysore, forwarding a copy of the Hassan District Deputy Commissioner's remarks made in the Visitors' Book of the Saklespur Dispensary, with the remarks of the Senior Surgeon thereon, in the matter of increasing dieting charges for the dispensary.

Resolution.—Resolved that the Board fully recognise the real necessity for increasing the dieting charges at the Saklespur Dispensary to Rs. 10 per mensem and that it be suggested to the Senior Surgeon that the extra cost be met from the savings annually accruing under this head owing to a circular order, which, it is believed, directs that the monthly expenditure at each other dispensary should be restricted to Rs. 3 instead of Rs. 5 per mensem, except in very urgent cases.

XVII. (1) Read Executive Engineer's docket No. 149, dated 19—23rd May 1906, forwarding a statement of dispensary buildings requiring repairs during the year.

(2) Read Executive Engineer's docket No. 463, dated 1st August 1906, in the matter of tiling or slabbing the floors of certain dispensaries in the district.

Resolution.—Resolved that as a provision of Rs. 580 only could be made under this head in the District Fund budget for 1906-07, it will be possible to undertake repairs and improvements of dispensary buildings only to that extent during the year.

XVIII. Read Executive Engineer's docket No. 164 dated 1—2nd June 1906, requesting a reply as to whether the District Board can afford to pay Rs. 2,000 towards the cost of constructing a bridge over the weir of Kalasinkere tank, Belur Taluk.

Resolution.—Resolved that owing to paucity of District Funds, the cost referred to may be recommended for sanction from Local Funds General.

XIX. Read Executive Engineer's dockets Nos. 178 and 181, dated 7–13th and 13—14th June 1906, respectively, forwarding estimates amounting to Rs. 122 in all, for providing monsoon tatties to certain 3rd class travellers' bungalows in the Manjarabad and Belur Taluks during 1906-07.

Resolution.—Resolved that the cost be passed and may be met out of the "Reserve" under (A) Public Works, "I Original Works," of the current year's budget, already placed at the disposal of the Executive Engineer.

XX. Read Executive Engineer's docket No 447, dated 17th—21st July 1906, requesting the transfer of Rs. 204 being the pay of watchmen of certain Inspection Lodges to A. Public Works.

Resolution.—Resolved that as the Board is in favor of these three Inspection Lodges being converted into 3rd class travellers' bungalows, the question of transfer of funds applied for by the Executive Engineer has to be deferred until final orders of Government are obtained.

XXI. Read Executive Engineer's docket No. 464, dated 16th July—1st August 1906, forwarding for countersignature an estimate amounting to Rs. 1,000 for providing new dug-out boats to certain ferries in the district.

Resolution.—Resolved that the estimate be countersigned and returned with the intimation to the Executive Engineer that the cost may be met out of Rs. 1,140 under (A) Public Works, "I Original Works, Reserve" in the current year's District Fund Budget already placed at his disposal.

XXII. Read correspondence ending with Arkalgud Taluk Amildar's report No. 12—61, dated 5th July 1906, submitting the resolutions of the Arkalgud Taluk Board and the Municipal Board in the matter of the construction of an in-patient's ward to the Local Fund Dispensary at Arkalgud.

Resolution.—Resolved that as there is no provision in this year's District Fund Budget to provide the District Fund quota of Rs. 1,035, the records may be returned to the Amildar for encouraging a higher offer from Ramasami Chetty and other well-to-do persons of Arkalgud.

XXIII. (1) Read the list of District Fund incomplete works under (A) Public Works for the year 1905-06.

(2) List of incomplete works under (B) "Public Works" for the year 1905-06.

Resolution.—Resolved that these lists be submitted to Government.

XXIV. Read correspondence ending with Senior Assistant Commissioner's yadi No. 721-2791, dated 29th June 1906, submitting the resolution of the Manjarabad Taluk Board, resolving that the chattram at Yeslurpet built by the late Hadal Appanna Setti might be taken under the management of the District Board as requested by his son Gurusantaiya.

Resolution.—Resolved that if the owner of the chattram be willing to put the buildings into thorough repairs, the District Board will feel disposed to take it over for maintenance, and that the Senior Assistant may also be requested to obtain a plan of the building as well as a description of its structure.

XXV. Resolution. —The Board are of opinion that as a general rule, the principle that villages consisting of more than 1,000 people or 300 houses should be formed into Unions may be adopted. Important villages on the road side and in the malnad though not coming up to the above standard may be treated as special cases.

3. Read Government Proceedings No. 12834-5—Med. 283-05-2, dated 16th June 1906, regarding the construction of a Dispensary building at Kumsi.

Resolved that the growing importance of Kumsi on account of Manganese industry carried on in its neighbourhood requires that Dispensary building should be constructed there at once. The Dispensary is at present located in a room in the Sub-Taluk Cutcherry building and is considered as unsuitable. The cost of the building without quarters for the Hospital Assistant and midwife is estimated at about Rs. 8,500. If the building is undertaken at once, the District Fund quota of the cost may be met out of the closing balance of the District Board or from the provision of Rs. 3,175 that has already been made for a building at Siralkoppa which may wait till next year.

4. Read General and Revenue Secretary's docket No. 13375—San. 495-05-2, dated 30th June 1906, requiring further particulars to be furnished in the matter of holding Cattle Exhibitions at Rampur and Kudli.

Resolved (1) That cattle-shows be held in alternate years at Kudli and Rampur as the jatras are held in the month of Magha at Rampur and of Chaitra at Kudli and the distance between the places is only nine miles. The holding of the show at both the places in one and the same year will defeat the object in view as the same cattle that win the prizes at one show are likely to be brought to the other.

(2) The prizes to be awarded are as follows :—

	Rs.
Two prizes of Rs. 25 and 15 for the best draught bullocks	40
Do do plough bullocks	40
One prize of Rs. 20 for the best cow	20

5. Read General and Revenue Secretary's memo No. 12000—Ml. 570-5-2, dated 23rd May 1906, requesting to be informed if the District Board is prepared to pay half of the Municipal share payable for constructing a compound wall and sinking a well in the compound of the Local Fund Dispensary at Tirthahalli.

Resolved that as the District Board have already paid their quota of Rs. 378 for this work, they feel unable to pay anything more on account of Municipal share which they suggest might be borne by Government. The closing balance of the District Funds is less than the minimum prescribed.

6. Read Government Proceedings No. 365-75—San. 225-05-5, dated 14th July 1906, regarding the appointment of Sanitary Inspectors for each of the taluks in the district.

Out of the existing Work Inspectors three have beenc onfirmed in their appointments and four are temporary men, while there is a vacancy in the Sorab Taluk. The temporary men will be served with notices and their places will be at once filled up by trained men for whom application will at once be made to the Senior Surgeon and Sanitary Commissioner. Resolved that dead-houses are necessary at Kumsi and Nagar. The estimate for a dispensary building at Kumsi should provide for the dead-house there as well. The Senior Surgeon will be addressed about the Nagar Dispensary dead-house.

Mr. Bhima Rao and other members are of opinion that until a better building is provided, the Female Dispensary at Shimoga should continue in the Petta as it is very convenient for women and children residing in the town. The removal of the Female Dispensary to the men's hospital does not commend itself to the members. The President who inspected the present building of the Female Dispensary is of opinion that the existing building is not suitable and that a new building should be constructed in a convenient locality with quarters for the Lady Apothecary and conveniences for in-patients.

PROSPECTUS OF THE INDUSTRIAL AND AGRICULTURAL EXHIBITION AND CATTLE SHOW OF THE FOURTEENTH PROVINCIAL CONFERENCE, SURAT, 1906.

Since the year 1901 an Industrial Exhibition has been held in connection with the annual session of the Congress. Such Exhibitions were held at Calcutta 1901, Ahmedabad 1902, Madras 1903 and Bombay 1904; an agricultural side having been added to it at the last named place. The 5th Industrial and Agricultural Exhibition was held at Benares in December 1905. Encouraged by the great success achieved by these Exhibitions held with the annual sessions of the Indian National Congress, the organisers of the Provincial Conference venture to introduce such a feature in its programme, and it is now proposed to hold the 1st Provincial Industrial and Agricultural Exhibition and also a cattle show in connection with the 14th Provincial Conference to be held at Surat this year. The Exhibition will consist mainly of the Exhibits from the Bombay Presidency including Sind and the adjacent Native States. Exhibits from other Presidencies and Native States therein will also be received.

2. Though the Exhibition is held under the auspices of the Conference its accounts are kept separate, and any surplus from the Exhibition funds will not be devoted to the purposes of the Conference.

3. The Exhibition is intended to give an idea of the present condition of the Industries and Agriculture in the Bombay Presidency and the possibilities of their future development.

4. It is being more and more realised that agriculture and other industrial pursuits offer a wide and useful field for the exercise of brain as well as muscle, for minds of every calibre and for the application of the most advanced scientific knowledge.

5. The Exhibition will aim at bringing together various materials by which the present Indian industries and system of agriculture may be improved and new features may be introduced.

6. The Committee will be prepared to receive exhibits which will include and illustrate among others—

(1) The natural products of India.

(2) Indigenous industries.

(3) Industries introduced or modified by foreign influence.

(4) Appliances relating to Indian agriculture (including Dairy farming and manufactures), whether such appliances are made in India or imported.

(5) Agricultural products.

(6) Cattle.

(7) Medical and sanitary apparatus and appliances.

(8) Indian Art.

(9) Educational apparatus and appliances.

7. It is hoped that the holding of such Exhibitions may encourage some of our countrymen to follow in the steps of those who have devoted capital, skill and energy to the fostering of old and the initiation of new industries.

8. The Committee attaches special importance to the popularising of a knowledge of improved agricultural implements, appliances, and methods, for it is believed that by the adoption of these India can produce far larger and better crops than are at present obtained.

9. The Committee confidently asks for generous assistance, both in the form of subscriptions to cover the heavy expenses of such an Exhibition, and in the hearty co-operation of all (especially by sending Exhibits), for there is no class or community whose interests are not likely to be promoted by the Exhibition.

On behalf of the Exhibition Committee,

THAKORRAM KAPILRAM,

Honorary Secretary.

EXHIBITION OFFICE,

Surat, July 25th, 1906.

RULES AND REGULATIONS.

1. The Exhibition will be opened some time after the Divali Holidays, on a day to be notified hereafter. The Exhibits will be arranged in different Sections. An official catalogue of all Exhibits with the names and addresses of the Exhibitors and their Agent or Agents, if any, will be published by the Exhibition Committee, before the opening of the Exhibition. A specially qualified Committee will be appointed to examine the Exhibits, determine their relative merits and decide which of them deserve special recognition. The decision of the Jurors will be final. Gold, Silver and Bronze medals and Certificates of Merit of various orders will be awarded according to their verdict. The names of the successful Exhibitors will be published together with a description of the Exhibits for which the medals or certificates have been awarded.

A Loan Section will also be attached to the Exhibition. Works of Art and articles of special merit, including those of antiquarian interest, will be thankfully received for this section. All arrangements for the display of the Exhibits lent for this section will be made by the Exhibition Authorities at their own expense.

2. Articles of indigenous Art or Manufacture, as well as natural mineral, or agricultural products will, as a rule, be accepted for the Exhibition. Implements or machines or other articles of foreign manufacture, which, in the opinion of the Exhibition Authorities, are likely to promote or develop Indian Industries and Agriculture or introduce new ones, will also be accepted. Persons sending a large variety of such articles will receive a special recognition.

3. No explosives or any substance which, in the opinion of the Exhibition Authorities, is noxious or dangerous, will be admitted.

4. Intending Exhibitors should refer to the printed list, attached herewith, of the Sections and Sub-sections into which it is intended to divide the Exhibits. The section list is meant only to serve for general guidance, and will not prevent Exhibitors from sending articles not specifically enumerated therein. Such articles will, however, be admitted at the discretion of the Exhibition Authorities.

5. Intending Exhibitors are requested to send in, to the Secretary, as soon as possible, a list of their proposed exhibits, in the printed form sent herewith. These lists should reach the Secretary, *at the latest by the 1st of September 1906.*

6. Applications for space in the Exhibition Building specifying the space that will be required, should be made in the form sent herewith and should be accompanied by a fee of Rs. 2.

7. Exhibitors are requested to mention in their application, whether they intend to practically illustrate the process of their manufacture, and if so, to describe the nature of the demonstration.

8. The Exhibition Authorities will inform the applicants whether they are registered as Exhibitors, and a number will be allotted to them under which all articles should be sent. *In all communications this number should be quoted.*

9. Each Registered Exhibitor will be allowed free of charge a covered space of 15 square feet or more, according to the nature of the Exhibit and the space available in the Exhibition Building.

Additional space (if available) beyond that allotted by the Committee may be obtained subject to a charge ranging between 2 annas and 2 rupees a square foot, according to the nature of the Exhibit.

10. The Exhibition Authorities will have absolute discretion as regards the acceptance or rejection of Exhibits, and the allotment of space covered or uncovered.

11. Exhibits must be sent so as to reach Surat not sooner than six weeks, and not later than two weeks before the opening of the Exhibition. (The exact date to be notified hereafter.) They may be sent by "Post" or by "Railway Parcel" or "Goods," or may be delivered personally between the hours of 10 A.M. and 4 P.M. at such place or places, and to such person or persons, as will be notified hereafter. Receipts will be forwarded for the articles so delivered.

12. All packages received or delivered must bear a label on the upper covering specifying the name and number of the Exhibitor, and addressed to the Secretary. They must contain inside a list in triplicate with all particulars required under Rule 19 in regard to the Exhibits in the package. This list will be compared with the Exhibits sent by the Exhibitor and a formal receipt will be forwarded in due course to the Exhibitor for the articles found in safe order.

13. Exhibitors who fail to send their goods, and appropriate the space allotted to them by the time prescribed under Rule 11 (unless with the special permission from the Exhibition Authorities), shall forfeit all rights to exhibit, and shall not receive any refund of the payments

made by them. No refund will be given for occupying less space than that applied and paid for and allotted; and the unoccupied space will be disposed of as the Exhibition Authorities deem fit.

14. Exhibitors may forward or deliver their articles personally or through authorized agents.

15. Every facility will be afforded to Exhibitors or their agents in connection with the transport, display, sale, and care of their Exhibits.

16. Exhibitors must bear all expenses incidental to the transport and the delivery of their Exhibits, as well as their removal after the Exhibition is closed. Goods or parcels sent "unpaid" will be refused. If the Exhibitors require for the display of their Exhibits any *special* arrangement or construction, stalls, stands, cases, tables, shelves, etc., they must carry out the same at their own cost, in accordance with plans approved by the Exhibition Authorities.

17. Assistants, servants, or other attendants, necessary to any exhibitor for service at his stalls, may be granted a free pass (not transferable) to the Exhibition at the discretion of the Secretary. All such attendants shall obey the orders of the Exhibition Authorities and the supervising staff appointed by them.

18. All reasonable precautions will be taken to guard the premises of the Exhibition, and secure the safety of the Exhibits. The Exhibition Authorities, however, do not at all hold themselves responsible for any damage or loss, howsoever occurring. Exhibitors wishing to insure their articles may apply to the Secretary, who will arrange for the same on payment of the necessary charges. All valuable Exhibits, such as jewellery, gold and silver plate, must be forwarded under the charge of an attendant.

19. Every Exhibit must bear a label showing the section, the name or description of the article, its price, the place of its production or manufacture, the names of the manufacturer and the Exhibitor, and also mentioning if it is for sale. Such labels will be supplied on the acceptance of the application.

20. Exhibits may be sold during the continuance of the Exhibition. No articles shall, however, be removed whilst the Exhibition continues, without the permission of the authorities. Exhibitors must arrange to have all their articles removed within ten days after the close of the Exhibition. If they fail to do so the Exhibits will be removed and stored at the risk and expense of the owners, and will be handed over to them on payment of all expenses incurred.

21. Exhibitors will have to pay a commission of half an anna per rupee on all articles sold by the Exhibition Committee. The net balance after deducting the commission will be remitted to them after the close of the Exhibition.

22. Exhibitors who are unable to attend personally or send agents in charge of the exhibits may make special arrangements with the Secretary for the exhibition of their goods, subject to the provisions of the foregoing rules.

23. The Exhibition Authorities reserve the right to remove the Exhibits of any person who does not conform to their Regulations.

24. No article exhibited may be copied, photographed, drawn or reproduced in any manner, without the special permission of the Exhibitor and the Exhibition Authorities. General photographs may, however, be taken with the permission of the Exhibition Authorities.

25. Persons willing to send Exhibits for the Loan Section should write, giving all the necessary particulars to the Secretary, who will inform them as to the acceptance of their offer and make with them all the necessary arrangements.

26. All persons who become Exhibitors shall, by so doing, be held to signify their assent to, and acceptance of all the foregoing Rules and Regulations, and also such other Regulations as the Exhibition Authorities may hereafter issue.

27. Sale stalls will also be opened. Persons desiring to have such Stalls may apply to the Secretary of the Exhibition for terms.
